Part 1 – General Provisions**Section II – General Definitions**

Part 1 – General Provisions**Section I – Introduction****1. Purpose**

This Plan contains the necessary rules and instructions for the reporting of policy information and experience in connection therewith on the direct business written by insurers for California workers' compensation insurance and employers' liability insurance incidental thereto and written in connection therewith.

This Plan requires that separate unit statistical reports be filed by insurers for every workers' compensation insurance policy written. The loss, exposure and premium data reported for each policy is used to develop experience in standard classification detail.

Pure premium rates and experience modifications are based upon the information reported in accordance with this Plan. It is therefore essential that the greatest possible care be taken to furnish complete and accurate information and that the information be filed at the time and in the manner specified in this Plan.

2. Authority

This Plan has been approved by the Insurance Commissioner of the state of California in accordance with Articles 2 and 3 of Chapter 3, Part 3, Division 2, and Section 11658 of the California Insurance Code.

3. Effective Date

The provisions of this Plan are effective at 12:01 AM, January 1, 2021. When an amendment to this Plan is approved, a notice summarizing the amendment and its effective date, as specified by the Insurance Commissioner, will be published by the WCIRB.

This Plan and all amendments thereto, unless otherwise specifically provided, shall apply to a policy with an effective date on or after the effective date of the amendment.

Section II – General Definitions

The definitions set forth in this Section shall govern the construction and meaning of the terms and phrases used in this Plan.

1. Audit

A report of the policyholder's exposure by classification that is based upon either an auditor's examination of the policyholder's books of accounts and original payroll records or upon a signed payroll statement obtained from the employer. See "Physical Audit" and "Voluntary Audit".

2. Classification(s) or Standard Classification(s)

A classification of occupations, employments, industries and businesses contained in the alphabetical listing of standard classifications located in Part 3, Section VII, *Standard Classifications*, of this Plan. (See also "Insurer Classification(s)".)

3. Employee(s)

Every person in the service of an employer for whom the employer is obligated to provide workers' compensation benefits.

Part 1 – General Provisions**Section II – General Definitions**

4. Employer

One or more entities meeting the combination of entities standards for experience rating set forth in the Experience Rating Plan.

5. Employers' Liability

Any liability, other than for workers' compensation, imposed by the laws of the state of California upon an employer for damages on account of bodily injury to or death of employees arising out of and in the course of employment.

6. Employers' Liability Insurance

The insurance of employers' liability when such insurance is incidental to and written in connection with the workers' compensation insurance issued to and covering the same policyholder or policyholders.

7. Experience

The payroll, premium, and loss data for an employer or standard classification.

8. Experience Modification

The modification factor that is published by the WCIRB in accordance with the Experience Rating Plan and that is required to be applied to the policy premium.

9. Experience Rating

(a) A rating procedure found in the Experience Rating Plan that utilizes past payroll and loss experience of the employer to forecast future losses by measuring the employer's loss experience against the loss experience of employers in the same classification to produce a prospective premium credit, debit, or unity modification; or, (b) the modification factor that is published by the WCIRB in accordance with the Experience Rating Plan and that is required to be applied to the policy premium.

10. Experience Rating Plan

The *California Workers' Compensation Experience Rating Plan—1995*, approved by the Insurance Commissioner of the state of California, Title 10, California Code of Regulations, Section 2353.1.

11. Exposure(s)

The basis against which losses shall be compared or insurer rates will be applied and, unless otherwise specified, shall mean payroll.

12. Final Premium(s)

See definition of "Final Premium(s)" located in Part 4, Section II, *Definitions*, of this Plan.

13. Insurer Classification(s)

Classifications of occupations, employments, industries and businesses used by an insurer in connection with its workers' compensation insurance coverage. (See also "Classification(s) or Standard Classification(s)".)

14. Payroll(s)

Synonymous with "Remuneration". See definitions of "Payroll(s)" and "Remuneration" located in Part 3, Section V, Rule 1, *Payroll – Remuneration*, of this Plan.

Part 1 – General Provisions**Section IV – Corrections or Amendments**

15. Physical Audit

An audit of payroll, whether conducted at the policyholder's location or at a remote site, that is based upon an auditor's examination of the policyholder's books of accounts and original payroll records (in either electronic or hard copy form) as necessary to determine and verify the exposure amounts by classification.

16. Pure Premium Rate(s)

The loss cost per unit of exposure, including loss adjustment expense, for standard classifications.

17. Voluntary Audit

An audit of payroll that is based upon a signed payroll statement obtained from the employer.

18. WCIRB

The Workers' Compensation Insurance Rating Bureau of California, a rating organization licensed by the California Department of Insurance and designated as the Insurance Commissioner's statistical agent in accordance with the provisions of Sections 11750 *et seq.* of the California Insurance Code.

19. Workers' Compensation

The obligation imposed upon an employer by the workers' compensation laws of the state of California to pay the benefits prescribed by such laws.

20. Workers' Compensation Insurance

Insurance for workers' compensation liability and, except when otherwise stated, also refers to employers' liability insurance.

Section III – Submission of Information**1. Reporting Information**

Information required to be reported pursuant to the provisions of this Plan shall be filed electronically with the WCIRB, as the designated statistical agent for the Insurance Commissioner of the state of California.

2. Reporting Procedures

The reporting procedures and forms contained in this Plan may be modified by an insurer to conform to its own recording methods, provided that such alternative reporting procedures or forms: (a) yield all of the information required under the standard procedures of this Plan, and (b) have been approved by the WCIRB as an acceptable alternative reporting procedure or form.

Section IV – Corrections or Amendments**1. Notification of Non-Compliance and Evidence of Correction**

If a policy as written or data as reported does not appear to comply with the provisions of this Plan or applicable regulations of the Insurance Commissioner governing California workers' compensation insurance, the WCIRB shall query the insurer, pointing out in what respects it fails to conform and requiring the insurer to make any necessary corrections. In all cases where an insurer is required to make a correction or amendment to a policy or the reported data, evidence of such correction or amendment shall be submitted to the WCIRB within a reasonable period of time. If such evidence is not received by the WCIRB in a reasonable period, it shall be the duty of the WCIRB's president to bring the case to the attention of the Governing Committee of the WCIRB.

Part 1 – General Provisions**Section V – Inquiries, Complaints and Requests for Action, Reconsideration and Appeals**

The WCIRB may, at its option, require the signature of the policyholder on any correcting endorsement, evidencing acceptance of such correction by the policyholder. The signed copy of such endorsement must be filed with the WCIRB.

2. Investigation

The WCIRB may pass any policy, endorsement or reported data subject to review or investigation. If, after review or investigation, the WCIRB determines that it is required, the insurer shall conform its policy, endorsement or reported data in accordance with the provisions of this Plan or other regulations of the Insurance Commissioner governing California workers' compensation insurance.

Section V – Inquiries, Complaints and Requests for Action, Reconsideration and Appeals**1. Purpose and Time Limitation**

This Section of the Plan explains how an insured employer may (a) request review if it believes its workers' compensation insurance coverage as written or experience as reported is contrary to the rules of this Plan or any other regulations of the Insurance Commissioner governing workers' compensation insurance; and (b) request review of a decision, action, or omission to act by the WCIRB. This process enables the insured employer to obtain review of the matter by the WCIRB and, if necessary, the Insurance Commissioner.

An insured employer's initial request for review must be received by the WCIRB within twelve (12) months after the expiration date of the policy to which the request for review pertains, except if the request for review involves the application of the Revision of Losses rule found at Section VI, Rule 7, of the Experience Rating Plan.

2. Inquiries

An insured employer may commence the review process by sending the WCIRB a written Inquiry. The Inquiry shall include (a) the names of the policyholder(s) and the insurer(s); and (b) detailed information explaining why the coverage as written or experience as reported is incorrect. If the Inquiry is not complete, the WCIRB may request additional information from the insured employer. The insured employer shall respond to such a request within sixty (60) days after the date of the WCIRB's request. If the insured employer fails to respond within that time, the WCIRB will deem the Inquiry closed.

The WCIRB shall review and, as necessary, investigate all Inquiries. If the WCIRB sends the Inquiry to the insurer for purposes of investigation, the insurer shall respond within sixty (60) days after the WCIRB sends it the Inquiry.

The WCIRB shall issue a decision regarding the Inquiry. An insured employer, insurer, or other aggrieved person who is dissatisfied with the WCIRB's decision upon an Inquiry and who seeks a further review of the matter shall, within sixty (60) days after the WCIRB's decision regarding the Inquiry, serve the WCIRB with a written Complaint and Request for Action as set forth in Rule 3 below.

If the WCIRB fails to respond within ninety (90) days after receipt of the Inquiry, the insured employer, insurer, or other aggrieved person may pursue the subject of its Inquiry by serving the WCIRB with a Complaint and Request for Action.

Any change resulting from the WCIRB's decision shall be applied in accordance with the rules of this Plan or other applicable statutes or regulations. If a loss correction is required pursuant to the Revision of Losses rule, the current experience rating for purposes of the application of that rule shall be the experience modification in effect on the day the Inquiry was received by the WCIRB.

Part 1 – General Provisions**Section V – Inquiries, Complaints and Requests for Action, Reconsideration and Appeals**

3. Complaints and Requests for Action

An insured employer, insurer, or other aggrieved person seeking review of the WCIRB's decision, action, or omission to act, or review of the manner in which this Plan, or any other applicable regulations of the Insurance Commissioner, has been applied in connection with its workers' compensation insurance shall serve the WCIRB with a written Complaint and Request for Action pursuant to the regulations found at Title 10, California Code of Regulations, Sections 2509.40 *et seq.* Complaints and Requests for Action must be served on the WCIRB at the following address:

WCIRB
1221 Broadway, Suite 900
Oakland, CA 94612
Attention: Complaints and Reconsideration
Fax 415.371.5204
customerservice@wcirb.com

Upon receipt of a Complaint and Request for Action, the WCIRB shall respond in accordance with the regulations found at Title 10, California Code of Regulations, Sections 2509.40 *et seq.* Any change resulting from such response shall be applied in accordance with the rules of this Plan or other applicable statutes or regulations. If a loss correction is required pursuant to the Revision of Losses rule, the current experience rating for purposes of the application of that rule shall be the experience modification in effect on the day the initial request for review was received by the WCIRB.

4. Reconsideration and Appeals to the Insurance Commissioner

An insured employer, insurer, or other aggrieved person who is dissatisfied with the WCIRB's decision upon a Complaint and Request for Action may request that the WCIRB reconsider its decision. Requests for reconsideration must be (a) filed pursuant to Title 10, California Code of Regulations, Section 2509.45(b); (b) set forth in detail the reasons why the WCIRB's decision is in error; and (c) include all available supporting evidence.

Alternatively, an insured employer, insurer, or other aggrieved person who is dissatisfied with the WCIRB's response to or failure to respond to a Complaint and Request for Action, or the WCIRB's decision upon or failure to respond to a request for reconsideration, may appeal directly to the Insurance Commissioner. Appeals must be filed pursuant to Title 10, California Code of Regulations, Sections 2509.40 *et seq.*

Any change resulting from the WCIRB's decision upon reconsideration or the decision of the Commissioner on appeal shall be applied in accordance with the rules of this Plan or other applicable statutes or regulations. If a loss correction is required pursuant to the Revision of Losses rule, the current experience rating for purposes of the application of that rule shall be the experience modification in effect on the day the initial request for review was received by the WCIRB.

Part 2 – Policy Reporting Requirements**Section I – General Instructions**

Part 2 – Policy Reporting Requirements**Section I – General Instructions**

The policy information reporting provisions contained in this Part are necessary to facilitate experience rating, the accurate and timely reporting of unit statistical report data and the use of approved policy forms.

Insurers shall report policy information for every workers' compensation insurance policy extending insurance coverage under the workers' compensation laws of California, including California coverage by endorsement on a policy primarily providing coverage in another state, by electronic submission to the WCIRB in accordance with this Plan and the reporting requirements for California described in the Workers Compensation Insurance Organizations' (WCIO) Workers Compensation Policy Reporting Specifications (WCPOLS). Insurers shall receive WCIRB approval prior to reporting information electronically.

1. Policies**a. New and Renewal Policies**

New and renewal policy transactions shall be reported to the WCIRB no later than thirty (30) days subsequent to the inception date of the policy represented.

b. Annual Rerate Endorsements

Annual rerate endorsement transactions shall be reported for any policy written as a continuing form policy or fixed-term policy written in excess of one year and sixteen (16) days no later than thirty (30) days subsequent to the issuance date.

c. Renewal Certificates/Renewal Agreements

Renewal certificate/renewal agreement transactions shall be reported to the WCIRB no later than thirty (30) days subsequent to the inception date of the renewal certificate or renewal agreement.

An insurer renewing a policy may report the renewal to the WCIRB as either a renewal policy (see Rule 1a, above) or as a renewal certificate, which is also referred to as a renewal agreement.

d. Rewrites

Rewrite transactions shall be reported to the WCIRB no later than thirty (30) days subsequent to the issuance date.

Rewrites may be issued to make changes to any previously issued new and renewal policies, annual rerate endorsements and renewal certificates/renewal agreements (e.g., changes to the insurer name, policy number or policy effective dates). Rewrites will replace the original transaction in its entirety.

2. Endorsements and Ancillary Agreements

- a. Transactions for every endorsement affecting California coverage or amending the policy information referenced in Rule 1 above shall be reported to the WCIRB no later than thirty (30) days subsequent to the issuance date, except as otherwise stated.
- b. Transactions for every ancillary agreement, as the term is defined in Title 10, California Code of Regulations, Section 2250(f), shall be reported to the WCIRB no later than thirty (30) days subsequent to the issuance date.
- c. Policy transactions shall be reported to the WCIRB prior to the reporting of transactions for endorsements or ancillary agreements.

Part 2 – Policy Reporting Requirements

Section III – Reporting Requirements

3. Cancellations or Reinstatements

For cancelled policies, a cancellation transaction shall be reported to the WCIRB no later than thirty (30) days subsequent to the date of cancellation. If a cancelled policy is reinstated, a reinstatement transaction shall be reported to the WCIRB no later than thirty (30) days subsequent to the issuance date.

Section II – Policy Periods

1. Policy Period

The rules in this Plan are based on a policy period of one year. Policies written and issued for a period not exceeding one year and sixteen (16) days shall be treated as if the policies were written for a period of one year. Policies written for a period exceeding one year and sixteen (16) days shall be written as a continuing form or fixed-term policy.

2. Continuing Form Policies or Fixed-Term Policies Written in Excess of One Year and Sixteen (16) Days

- a. A policy that contains an agreement that the insurer will issue, and the policyholder will accept, endorsements changing the terms of the policy as may be required to achieve conformity with subsequent legislation or rules and regulations that may be approved by the Insurance Commissioner may be written as a continuing form or fixed-term policy for a period in excess of one year and sixteen (16) days.
- b. Continuing form or fixed-term policies written in excess of one year and sixteen (16) days shall conform to all rules and regulations applying to policies written for one year or less.
- c. All rules and regulations approved by the Insurance Commissioner subsequent to the effective date of a continuing form or fixed-term policy written in excess of one year and sixteen (16) days shall apply to the policy as though it consisted of consecutive policies, each with a policy period of one full year or of less than one full year if the insurer or the policyholder decided to establish a different policy effective date, which will be treated as a short-term policy.
- d. The extension of a continuing form policy beyond one year and sixteen (16) days requires an annual rerate endorsement transaction to be reported to the WCIRB to take effect on the effective date of the second period of coverage and annually thereafter.
- e. Annual rerate endorsements shall be reported annually for each period following the first period on all fixed-term policies written in excess of one year and sixteen (16) days.

Section III – Reporting Requirements

1. Header Record (Record 01)

All Header Record (Record 01) data and fields shall be reported as required for California in WCPOLS and as further detailed below.

- a. Legal Nature of Insured Code

Report the code that best describes the type of entity(ies) being insured.

Code	Description
01	Individual
02	Partnership
03	Corporation
04	Association, Labor Union, Religious Organization
05	Limited Partnership

Part 2 – Policy Reporting Requirements**Section III – Reporting Requirements**

Code	Description
06	Joint Venture
07	Common Ownership
09	Joint Employers
10	Limited Liability Company (LLC)
11	Trust or Estate
13	Limited Liability Partnership (LLP)
14	Governmental Entity
99	Other

The use of “07”, Common Ownership, is permitted only for policies insuring two or more entities if the entities are combinable in accordance with the Experience Rating Plan.

The use of “09”, Joint Employers, is permitted when two or more entities do not share common ownership but have joint liability to pay workers' compensation to employees engaged in connection with the same work but are not a partnership or a joint venture.

The use of “99”, Other, is only permitted if none of the other values are applicable. If reporting “99”, further detail in Text for “Other” Legal Nature of Entity shall be provided.

2. Name Record (Record 02)

All Name Record (Record 02) data and fields shall be reported as required for California in WCPOLS and as further detailed below.

Each name shall be reported on a separate name record. Related names, such as the sole proprietor's name, the associated trade name or “DBA,” shall each have a separate record and may be linked using the Name Link Identifier/Continuation Sequence Number. A husband and wife or registered domestic partnership shall have each person's complete name reported in a separate record.

Insuring two or more legal entities on a single policy is subject to the provisions and limitations set forth in the *Miscellaneous Regulations for the Recording and Reporting of Data—1995*, Part 2, *Workers' Compensation Forms and Coverage*, Section III, *Additional Interests*.

a. Name of Insured

Report the name of the insured subject to the following:

- (1) For individuals, report the name in the following format: Last Name, First Name, Middle Name or Initial. The commas are delimiters and are required when reporting individual names.
- (2) For partnerships, report the name of each general partner as required in the other sections of this rule. Each partner within the partnership shall be a legal entity such as an individual, a partnership or a corporation. Trade names or fictitious business names cannot be designated as partners.
- (3) For corporations, report the name exactly as shown in the articles of incorporation.
- (4) For associations, labor unions or religious organizations, report the name exactly as shown in the agreement of association or other document of organization.
- (5) For limited partnerships, report the name of each general partner as required in the other sections of this rule. Each partner within the partnership shall be a legal entity such as an individual, a partnership or a corporation. Trade names or fictitious business names cannot be designated as partners. Limited partners should not be reported, but if reported, the term “limited partner” shall be shown in parenthesis following the name of each limited partner.

Part 2 – Policy Reporting Requirements**Section III – Reporting Requirements**

- (6) For joint ventures, report the name of each member as required in the other sections of this rule. Each member shall be a legal entity such as an individual, a partnership or a corporation. Trade names or fictitious business names cannot be designated as members of a joint venture.
- (7) For entities that share common ownership, report the name of each entity as required in the other sections of this rule.
- (8) For joint employers, report the name of each entity as required in the other sections of this rule.
- (9) For LLCs, report the name of the LLC exactly as shown in the articles of organization.
- (10) For trusts or estates, report the name exactly as shown in the trust agreement or other legal document, which establishes the trust or estate. The name of each trustee, administrator or executor shall also be reported as required in the other sections of this rule.
- (11) For LLPs, report the name of each general partner as required in the other sections of this rule. Each partner within the partnership shall be a legal entity such as an individual, a partnership or a corporation. Trade names or fictitious business names cannot be designated as partners. Limited partners should not be reported, but if reported, the term "limited partner" shall be shown in parenthesis following the name of each limited partner.
- (12) For governmental entities, report the legal name of the governmental entity.
- (13) For bankruptcies and receiverships, report the name of the receiver or debtor as required in the other sections of this rule. The term "receiver" or "debtor in possession" shall be shown in parenthesis following the name of the receiver.
- (14) For policies covering employee leasing arrangements written in the name of the labor contractor, report the name of the labor contractor depending on the type of entity as required in the other sections of this rule. If reporting the client's name, the phrase "Leased Coverage For" or the acronym "LCF" shall be used.
- (15) For policies covering employee leasing arrangements written in the name of the client, report the name of the client depending on the type as required in the other sections of this rule.
- (16) If any descriptor information such as "limited partner" or "DBA" is included, it shall be in parenthesis.

3. State Premium Record (Record 04)

All State Premium Record (Record 04) data and fields shall be reported as required for California in WCPOLS except as indicated below.

a. Estimated State Standard Premium Total

Report the estimated state standard premium total for the entire policy period. See Part 4, *Unit Statistical Reporting Requirements*, Section II, *Definitions*, Rule 12, *Final Premium(s)*.

4. Exposure Record (Record 05)

All Exposure Record (Record 05) data and fields shall be reported as required for California in WCPOLS and as further detailed below.

a. Classification Code

Report the applicable standard, approved non-standard or USL&H classification code.

b. Estimated Exposure Amount

Report the amount that is the basis for determining premium on a per classification level.

Part 2 – Policy Reporting Requirements**Section III – Reporting Requirements**

c. Estimated Premium Amount

For statistical code 9740, *Catastrophe Provisions for Terrorism*, report the estimated premium amount associated with this statistical code, if applicable. The estimated premium amount for standard classification codes and other statistical codes need not be reported.

Part 3 – Standard Classification System**Section II – Classification Terminology**

Part 3 – Standard Classification System**Section I – Introduction**

The objective of the classification system is to group employers into classifications so that each classification reflects the risk of loss common to those employers. With few exceptions, it is the business of the employer within California that is classified, not the separate employments, occupations or operations within the business.

Section II – Classification Terminology

The definitions set forth in this Section shall govern the construction and meaning of the terms and phrases used in describing the Standard Classification System found in Part 3 of this Plan.

1. All

If a classification carries a descriptive phrase beginning with *all*, as in the expression *all employees*, *all other employees*, *all operations*, and *all work to completion*, division of payroll shall not be made for any employee or operations (other than the Standard Exceptions or General Exclusions), without regard to the location of such operations, except for an operation not incidental to and not usually associated with the enterprise described by such classification.

2. Assembly or Assembling

Refers to the joining together of purchased prefabricated component parts to form a described product. (See also definition of “Manufacturing or Mfg.”)

3. Clerical Office Employee(s)

See Section III, *General Classification Procedures*, Rule 4a, *Classifications 8810, Clerical Office Employees, and 8871, Clerical Telecommuter Employees*.

4. Companion Classification

Two classifications that together describe the operations that normally prevail in a business. Businesses that are classified using related companion classifications, as identified by the classification footnote, shall constitute a single enterprise.

5. Division of Payroll

The division of an employer's payroll between two or more classifications is made in accordance with the provisions of the “Multiple Enterprises” rule, or as directed by specific classification footnotes or phraseologies. Division of payroll requires that the employer keep complete and accurate payroll records, supported by original time cards or time book entries, segregating the payroll earned in the various activities. (See also Section V, Rule 3, *Division of Single Employee's Payroll*.)

6. General Exclusions

See Section III, *General Classification Procedures*, Rule 6, *General Exclusions*.

7. General Inclusions

See Section III, *General Classification Procedures*, Rule 5, *General Inclusions*.

Part 3 – Standard Classification System

Section II – Classification Terminology

8. Governing Classification

That classification, or combination of related companion classifications, other than the Standard Exception classification(s), to which the largest amount of payroll, exclusive of the payroll of miscellaneous employees, is assigned. (See also Section IV, Rule 2b, *Governing Classification (Construction or Erection)*.)

9. Highest Rated Classification

The classification that carries the highest pure premium rate.

10. Including

If a classification carries a descriptive phrase *including* certain operations, division of payroll shall not be made for such operations, even though they may be specifically described by some other classification or may be conducted at a separate location.

11. Interchange of Labor

Exists when employees, other than Miscellaneous Employees or employees engaged in operations described by a General Inclusion, either: (a) alternate between two or more separately classifiable operations, or (b) engage in a single activity or work in a single department that is integral to two or more separately classifiable activities. The payroll for such employees represents a blend of separately classifiable operations. In such cases, the payrolls may be divided between two or more classifications provided (a) such division is not prohibited by the classification(s) or rules contained in this Plan, and (b) the payroll earned in the various activities is segregated in accordance with Section V, Rule 3, *Division of Single Employee's Payroll*. Otherwise, the payrolls are assigned to the highest rated classification applicable to any part of the work performed by the employee.

12. Location

A place of business at which the employer controls the facilities and conducts operations. The location may include, but is not limited to, buildings, rooms, suites, floors, structures, yards, fields, lots or acreage. Two or more facilities constitute a single location for classification purposes if they are located:

- a. in the same building;
- b. on a single uninterrupted property, such as adjacent buildings separated only by open space;
- c. in the same block;
- d. in adjoining city blocks or separated only by a single street or right-of-way of a railroad; or
- e. on opposite sides of a stream or canal that are connected by a bridge, highway or other structure affording passage (other than by boat) across the stream.

13. Manufacturing or Mfg.

Refers to the fabrication, production and/or assembly of a described product. (See also definition for "Assembly or Assembling".)

14. Miscellaneous Employee(s)

See Section III, *General Classification Procedures*, Rule 3d. (See also Section IV, Rule 2c, *Miscellaneous Employees (Construction or Erection)*, and Section IV, Rule 4d, *Miscellaneous Employees (Farms)*.)

15. Multiple Enterprises

See Section III, *General Classification Procedures*, Rule 3, *Multiple Enterprises*.

Part 3 – Standard Classification System

Section II – Classification Terminology

16. No or Not

A classification that carries a restrictive phrase beginning with *no* or *not* shall not be applied to any employer, which conducts any operations described in such restrictive phrase. In classifications applicable to mercantile or mining operations, this restrictive phrase shall apply only to operations comprising each separate location. In construction, erection or stevedoring operations, this restrictive phrase shall apply only to operations comprising each separate job or location.

17. N.O.C.

This expression is an abbreviation of *not otherwise classified*. No classification so qualified shall be assigned in any case where another classification more accurately describes the enterprise or where the language of any classification so qualified prescribes other treatment.

18. Or

The word *or* when used in the classification phraseology shall be understood to have the same meaning as though expressed “*and/or*”.

19. Outside Salespersons

See Section III, *General Classification Procedures*, Rule 4b, *Salespersons – Outside*.

20. Payroll(s)

Synonymous with “Remuneration”. See Section V, *Payroll – Remuneration*, Rule 1, *Payroll – Remuneration*.

21. Physical Separation or Physically Separated

Physical separation between operational departments is achieved when operations are conducted in separate buildings at a location, or on separate floors of a building. If the departments are on the same floor, to achieve physical separation they must be separated by permanent walls not less than eight (8) feet in height, and constructed from standard building materials. Standard building materials include brick, block and concrete and, if framed with wood or light gauge steel, the walls should be covered with wallboard, plywood, masonite, sheet metal or other solid materials.

Stock shelves, chain link fencing, movable partitions, fixtures, office furniture or similar partitions do not constitute physical separation.

An opening in the partition or wall to provide for ingress and egress of materials, equipment or personnel is permitted.

Operations subject to separate classifications that are conducted on separate shifts but in a common workspace are considered physically separated, provided the operations are not conducted simultaneously.

22. Premium Portion of Overtime Pay

The portion of overtime payments that is above and in addition to the regular rate of pay. (See also Section V, *Payroll Remuneration*, Rule 1c, *Overtime Payments*.)

23. Remuneration

Synonymous with “Payroll”. See Section V, *Payroll – Remuneration*, Rule 1, *Payroll – Remuneration*.

24. Salespersons – Outside

See Section III, *General Classification Procedures*, Rule 4b, *Salespersons – Outside*.

Part 3 – Standard Classification System**Section III – General Classification Procedures**

25. Shall Be Separately Classified

If a rule contained in this Plan or a footnote to a classification contains a directional phrase specifying that certain operations or employees shall be separately classified, the payroll of employees engaged in such operations shall be separately classified, provided proper payroll records have been maintained. Unless otherwise required by the classification, this rule shall apply even if the operations are not physically separated. The payroll of employees who interchange between operations described by the classification and those referred to in the footnote shall be assigned in accordance with Section V, Rule 3, *Division of Single Employee's Payroll*.

26. Single Enterprise

See Section III, *General Classification Procedures*, Rule 2, *Single Enterprise*.

27. Standard Exception(s)

See Section III, *General Classification Procedures*, Rule 4, *Standard Exceptions*.

28. Standard Exception Employees

See Section III, *General Classification Procedures*, Rule 4, *Standard Exceptions*.

Section III – General Classification Procedures**1. Classification Description**

An alphabetical listing of classifications that describe most occupations, employments, industries and businesses is contained in Section VII, *Standard Classifications*.

- a. Any business or operation specifically described by a classification shall be assigned to that classification.
- b. Any business or operation not described by a classification shall be assigned to the classification(s) most analogous from the standpoint of process and hazard. The limitations and conditions of the classification(s) so assigned and all rules pertaining thereto shall be applicable. In determining the classification most analogous from the standpoint of process and hazard, consideration will be given to the following:

- (1) When classifying the operations of a manufacturer, consideration should be given to the industry type, finished goods, raw materials, types of tools and equipment, how employees use the materials, tools and equipment in the manufacturing process, and any other relevant factors.

When a specific assembly classification does not exist for a certain product, the assembly of such product shall be assigned to the most analogous manufacturing classification. (See Section II, *Classification Terminology*, for the definitions of "Assembly or Assembling" and "Manufacturing or Mfg.")

- (2) When classifying the operations of a store, consideration should be given to the types of products sold, who purchases the products, how the products are sold, and any other relevant factors.
- (3) When classifying an employer that provides service(s), consideration should be given to the type(s) of service(s) provided, who contracts for the service(s), where the service(s) are provided, how employees perform the service(s), the raw materials or instrumentalities used to perform the service(s), and any other relevant factors.
- (4) When classifying an employer that performs construction or erection operations, consideration should be given to the types of structures constructed or erected, the raw materials and

Part 3 – Standard Classification System

Section III – General Classification Procedures

types of tools and equipment used, how employees use the materials, tools and equipment, the type of contractor's license required to perform such tasks, and any other relevant factors.

- (5) When classifying an employer that performs agricultural operations, consideration should be given to the types of crops cultivated and animals raised, the method of cultivating and harvesting crops, the method of caring for animals, the types of machinery, tools and equipment used, how employees use the machinery, tools and equipment, and any other relevant factors.
- c. Any business or operation described by a classification defined as a Standard Exception shall be classified in the Standard Exception classification. However, when a Standard Exception is assigned to the basic business or operation, all employees not specifically included in the definitions for such Standard Exceptions shall be separately classified, all other conditions contained herein notwithstanding.

Example

All operations of an investment firm are assigned to Classification 8810, *Clerical Office Employees*, with the exception of an employee who maintains the facility. Facility maintenance is not contemplated by the Standard Exception Classification 8810, but rather, Classification 9015(1), *Building Operation – N.O.C. – all other employees*. The maintenance worker is therefore assigned to Classification 9015(1).

2. Single Enterprise

If the employer's business, conducted at one or more locations, consists of a single operation or a number of separate operations that normally prevail in the business described by a single classification, the entire exposure of the business shall be assigned to that single classification. No division of payroll shall be permitted in respect to any other operation, even though such operation may be specifically described by some other classification, unless the applicable classification phraseology or other provisions contained herein specifically provide for such division of payroll.

Operations that are classified using related companion classifications, as identified by the classification footnote, shall constitute a single enterprise. Except as provided in the classification phraseology or footnote, division of an employee's payroll between related companion classifications shall not be permitted.

Division of payroll for Standard Exceptions and General Exclusions shall be made pursuant to the provisions of this Plan.

Example

The employer operates a restaurant. Employees are retained as chefs, bakers, dishwashers, wait staff, hosts and hostesses, wine stewards, bartenders, janitors, car parking valets, coat check clerks, manager and assistant manager. In addition, a storage facility is operated at an additional location where restaurant supplies are stored pending use in the restaurant. The activities, duties, hazards and pay scales vary among positions. Classifications such as 2003, *Bakeries or Cracker Mfg.*, 9008, *Janitorial Services – by contractors*, and 8392, *Automobile or Truck Storage Garages or Parking Stations or Lots*, describe some of the employees' activities. However, the restaurant bakery only produces goods served in the restaurant; the janitors only clean the restaurant; the parking valets only park the vehicles of restaurant customers; and the storage facility only stores materials used in the restaurant. All of these operations normally prevail in the operation of a restaurant and, therefore, Classification 9079(1), *Restaurants or Taverns*, applies to all of the employees.

3. Multiple Enterprises

If the employer's business, conducted at one or more locations, consists of two or more distinct operations that do not normally prevail in the business described by a single classification, then the distinct operations shall be separately classified in accordance with the following rules:

Part 3 – Standard Classification System**Section III – General Classification Procedures**

- a. If the distinct operations are physically separated and there is no interchange of labor, each operation shall be separately classified.
- b. If the distinct operations are not physically separated or if an interchange of labor exists, the operations shall be classified as follows:
 - (1) If the operation that develops the most payroll (exclusive of Miscellaneous Employees) is described by a classification that has the higher pure premium rate, then all operations shall be assigned to the higher-rated classification.
 - (2) If the operation that develops the most payroll (exclusive of Miscellaneous Employees) is described by a classification that has the lower pure premium rate, then the higher-rated classification shall be assigned to all employees, except as provided below:
 - (a) The employees engaged solely in activities described by the lower-rated classification and who do not interchange with activities described by the higher-rated classification shall be assigned to the classification that carries the lower pure premium rate; or
 - (b) The payroll for employees (exclusive of Miscellaneous Employees) whose activities interchange with the higher-rated activity shall be divided between the applicable classifications, provided complete and accurate payroll records are maintained pursuant to Section V, Rule 3, *Division of Single Employee's Payroll*.
 - (3) If the distinct operations are described by classifications having the same pure premium rate, then each operation shall be separately classified.
- c. The above notwithstanding, division of payroll is permitted only if:
 - (1) The operation is not described by any of the General Inclusions;
 - (2) The division is not contrary to classification phraseology; and
 - (3) The division is not contrary to any other provisions contained herein.
- d. Miscellaneous Employees do not engage in operations that are integral to each classifiable operation, but perform operations in general support of more than one classifiable operation. Examples of Miscellaneous Employees include but are not limited to supervisors, maintenance or power plant employees, laboratory researchers, security guards, shipping and receiving clerks, and yard employees.

If, pursuant to this rule, the operations at any location are classified on a divided payroll basis, the payroll of all Miscellaneous Employees who cannot properly be classified in accordance with a specific classification shall be assigned to the governing classification of the group of classifications to which their work pertains.

Example 1

The employer operates a factory that manufactures uniforms, described by Classification 2501(1), *Clothing Mfg.*, with a hypothetical pure premium rate of \$5.00. The employer adds a distinct operation to manufacture pillows, described by Classification 2571, *Pillow, Quilt, Comforter or Cushion Mfg.*, with a hypothetical pure premium rate of \$7.00. Interchange of labor does not exist since employees do not alternate between the two separately classifiable operations. Payroll for the uniform manufacturing department is \$100,000. Payroll for the pillow department is \$25,000. Because the most payroll is developed in the lower pure premium rated classification, the operations shall be separately classified whether or not there is physical separation. This example is illustrated in the table below.

Part 3 – Standard Classification System**Section III – General Classification Procedures**

Operation	Payroll	Interchange of Labor	Physical Separation	Assigned Classification	Hypothetical Pure Premium Rate	USRP Rule
Uniform Manufacturing	\$100,000	No	Not Applicable	2501(1), <i>Clothing Mfg.</i>	\$5.00	Section III, Rule 3a or 3b(2)(a)
Pillow Manufacturing	\$25,000	No	Not Applicable	2571, <i>Pillow, Quilt, Comforter or Cushion Mfg.</i>	\$7.00	Section III, Rule 3a or 3b(2)(a)

Example 2

The employer from Example 1 reorganizes its staff so that all employees alternate between the two separately classifiable operations. As such, an interchange of labor exists. However, the employer maintains complete and accurate payroll segregations in accordance with Section V, Rule 3, *Division of Single Employee's Payroll*. Because the most payroll is developed in the lower pure premium rated classification, the operations shall be separately classified with no need for physical separation. This example is illustrated in the table below.

Operation	Payroll	Interchange of Labor	Physical Separation	Assigned Classification	Hypothetical Pure Premium Rate	USRP Rule
Uniform Manufacturing	\$100,000	Yes With Payroll Segregations	Not Applicable	2501(1), <i>Clothing Mfg.</i>	\$5.00	Section III, Rule 3b(2)(b)
Pillow Manufacturing	\$25,000	Yes With Payroll Segregations	Not Applicable	2571, <i>Pillow, Quilt, Comforter or Cushion Mfg.</i>	\$7.00	Section III, Rule 3b(2)

Example 3

The employer from Example 1 establishes a separate department to cut fabric in support of both the uniform and pillow manufacturing operations. As such, an interchange of labor exists since the fabric cutting department is integral to two or more separately classifiable activities. Assuming it is not feasible to accurately segregate the fabric cutting payroll between that developed in support of uniform manufacturing and that developed in support of pillow manufacturing, the fabric cutting department is assigned to the highest rated applicable classification. The uniform manufacturing, however, remains assignable to Classification 2501(1). This example is illustrated in the table below:

Operation	Payroll	Interchange of Labor	Physical Separation	Assigned Classification	Hypothetical Pure Premium Rate	USRP Rule
Uniform Manufacturing	\$100,000	No	Not Applicable	2501(1), <i>Clothing Mfg.</i>	\$5.00	Section III, Rule 3b(2)(a)
Pillow Manufacturing	\$25,000	No	Not Applicable	2571, <i>Pillow, Quilt, Comforter or Cushion Mfg.</i>	\$7.00	Section III, Rule 3b(2)
Fabric Cutting	\$20,000	Yes No payroll segregations	Not Applicable	2571, <i>Pillow, Quilt, Comforter or Cushion Mfg.</i>	\$7.00	Section III, Rule 3b(2)

Example 4

The employer manufactures fiber reinforced plastic products to customers' specifications. These operations are described by Classification 4497, *Plastics – fiber reinforced plastic products mfg. – N.O.C.*, with a hypothetical pure premium rate of \$8.00. The employer also assembles fishing poles. These operations are described by Classification 3574(2), *Golf Club or Fishing Rod Mfg., Repair or*

Part 3 – Standard Classification System**Section III – General Classification Procedures**

Assembly, with a hypothetical pure premium rate of \$6.00. Interchange of Labor does not exist since employees do not alternate between the two separately classifiable operations. Payroll developed in the manufacture of fiber reinforced plastic products is \$200,000. Payroll developed in the fishing pole department is \$50,000. Because the most payroll is developed in the higher pure premium rated classification, the lower pure premium rated classification may be used for the fishing pole assembly operation only if it is physically separated from the fiber reinforced plastic products manufacturing and if there is no interchange of labor between the operations. This example is illustrated in the table below.

Operation	Payroll	Interchange of Labor	Physical Separation	Assigned Classification	Hypothetical Pure Premium Rate	USRP Rule
Fiber reinforced plastic products manufacturing	\$200,000	No	Yes	4497, <i>Plastics – fiber reinforced plastic products mfg. – N.O.C.</i>	\$8.00	Section III, Rule 3a
Fishing pole assembly	\$50,000	No	Yes	3574(2), <i>Golf Club or Fishing Rod Mfg., Repair or Assembly</i>	\$6.00	Section III, Rule 3a

Example 5

The employer from Example 4 removes the physical separation between the distinct operations. Absent physical separation, the smaller, lower-rated operation must be assigned to the larger, higher-rated classification. This example is illustrated in the table below.

Operation	Payroll	Interchange of Labor	Physical Separation	Assigned Classification	Hypothetical Pure Premium Rate	USRP Rule
Fiber reinforced plastic products manufacturing	\$200,000	No	No	4497, <i>Plastics – fiber reinforced plastic products mfg. – N.O.C.</i>	\$8.00	Section III, Rule 3a
Fishing pole assembly	\$50,000	No	No	4497, <i>Plastics – fiber reinforced plastic products mfg. – N.O.C.</i>	\$8.00	Section III, Rule 3a

Example 6

The employer from Example 4 maintains the physical separation between departments, but reorganizes its staff so that all employees alternate between the two separately classifiable operations. As such, an interchange of labor exists. The employer does not maintain complete and accurate records segregating the payroll earned in various activities – thereby making it impossible to determine which operation develops the most payroll. Accordingly, all employees are assigned to the highest rated applicable classification in accordance with Section V, Rule 3, *Division of Single Employee's Payroll*.

This example is illustrated in the table below.

Operation	Payroll	Interchange of Labor	Physical Separation	Assigned Classification	Hypothetical Pure Premium Rate	USRP Rule
Fiber reinforced plastic products manufacturing	\$250,000 (Breakdown by operation)	Yes	Yes	4497, <i>Plastics – fiber reinforced plastic products mfg. – N.O.C.</i>	\$8.00	Section V, Rule 3

Part 3 – Standard Classification System**Section III – General Classification Procedures**

Operation	Payroll	Interchange of Labor	Physical Separation	Assigned Classification	Hypothetical Pure Premium Rate	USRP Rule
Fishing pole assembly	is not possible because there is no segregation of payrolls.)	Yes	Yes	4497, <i>Plastics – fiber reinforced plastic products mfg. – N.O.C.</i>	\$8.00	Section V, Rule 3

4. Standard Exceptions

Employees engaged in the clerical office or outside sales functions described below are referred to as Standard Exception Employees. If a standard classification specifically includes Clerical Office Employees, Clerical Telecommuter Employees or Outside Salespersons, such employees shall be assigned to the standard classification, regardless of whether the work is conducted at the same or at a separate location. It is not permissible to divide a single employee's payroll, within a single policy period, between a Standard Exception classification and any other classification, including another Standard Exception classification, with the exception of a single permanent job reassignment. Otherwise, the remuneration of Standard Exception Employees is subject to division of payroll in connection with all other classifications in accordance with the following:

a. Classifications 8810, *Clerical Office Employees*, and 8871, *Clerical Telecommuter Employees*

Clerical Office Employee(s) and Clerical Telecommuter Employee(s) are defined as employees whose duties are confined to keeping the books, records or cash of the employer; conducting correspondence; using computers; dispatching; recording weights; or who are engaged wholly in general office work or office drafting, having no regular duty of a non-clerical nature in the service of the employer. Except as otherwise provided in this Rule, the entire payroll of any employee who is engaged in operations performed by Clerical Office Employees or Clerical Telecommuter Employees and also is exposed (1) to any operative hazard of the business or (2) to any outside selling or collecting work, shall be assigned to the highest rated classification of work to which the employee is so exposed. Supervisors and clerks, such as time, stock or tally clerks, whose work is (1) necessary to, (2) performed in connection with, or (3) related to any operations of the business other than clerical office operations, shall not be classified as Clerical Office Employees or Clerical Telecommuter Employees.

Classification 8810, *Clerical Office Employees*, shall be applied only to the payroll of persons herein described who work exclusively in areas that are separated from all other work places of the employer by buildings, floors, partitions, railings or counters and within which no work is performed other than clerical office or drafting duties as defined in this Rule, or who engage in such work at any of their employer's office locations 50% or more of their time and devote the balance of their time to clerical office or drafting duties at their home or other office space away from any location of their employer.

Classification 8871, *Clerical Telecommuter Employees*, shall be applied only to the payroll of persons herein described who work more than 50% of their time at their home or other office space away from any location of their employer, and devote the balance of their time to clerical office or drafting duties at any of their employer's locations in areas that are separated from all other work places of the employer by buildings, floors, partitions, railings or counters and within which no work is performed other than clerical office or drafting duties as defined in this Rule.

b. Classification 8742, *Salespersons – Outside (Outside Salespersons)*

Salespersons – Outside (Outside Salespersons) are defined as those employees who are engaged exclusively in sales, collection or public relations work away from the premises of the employer or who are engaged in such work for any portion of their time and devote the balance of their time to clerical office duties in areas that are separated from all other work places of the employer by buildings, floors, partitions, railings or counters and within which no work is performed other than clerical office or drafting duties as defined in this Rule. Except as otherwise provided in this Rule, the entire

Part 3 – Standard Classification System

Section III – General Classification Procedures

payroll of any employee who is engaged in operations performed by Outside Salespersons and is also exposed to any operative hazard of the business shall be assigned to the highest rated classification of work to which the employee is so exposed.

When Outside Salespersons are required to pay their own traveling expenses out of their remuneration, not less than two-thirds of such remuneration shall be included as payroll.

c. Standard Exception Classification Procedures

- (1) Employees who otherwise qualify for assignment to a Standard Exception classification will not be disqualified from that assignment if they perform certain duties directly related to their clerical office or outside sales work as defined in Rules 4a and 4b. These duties include depositing funds at a bank, picking up or delivering the employer's mail, purchasing office supplies and entering an area exposed to the operative hazards of the business for ingress or egress purposes or for purposes in connection with clerical activities, such as delivering paychecks.
- (2) Where a classification phraseology specifically includes Clerical Office Employees, Outside Salespersons, or both, such employees shall be assigned to that classification regardless of whether their work is conducted at the same or at a separate location.

A list of classifications that include Clerical Office Employees, Outside Salespersons, or both, can be found in Appendix IV.

Example

An employer operates as a physicians' practice at 1534 Elm Street, employing doctors, nurses and receptionists. All operations at this location are assignable to Classification 8834, *Physicians' Practices and Outpatient Clinics – all employees – including Clerical Office Employees*. At a separate location, 3415 Oak Street, the employer maintains a clerical office staff who conduct all of the billing and scheduling in support of the Elm Street operations. Since the Oak Street operations support the employer's Elm Street medical office (assigned to Classification 8834), the operations at the separate Oak Street location are also assignable to Classification 8834.

- (3) When an employer's clerical office staff are engaged in operations in connection with other operations performed by the employer and such other operations are assigned to two or more classifications, one or more of which includes Clerical Office Employees and one or more of which does not include Clerical Office Employees, the payroll of the clerical office staff shall be assigned in accordance with the following:
 - (a) Compare the sum of the payroll (other than the payroll of miscellaneous employees) generated by the operations assigned to classifications that do not include Clerical Office Employees to the sum of the payroll (other than the payroll of miscellaneous employees) generated by the operations assigned to classifications that include Clerical Office Employees.
 - (b) If the sum of the payroll generated by the classifications that do not include Clerical Office Employees exceeds the sum of the payroll generated by the classifications that include Clerical Office Employees, then the payroll of the clerical office staff shall be assigned to Classification 8810, *Clerical Office Employees*.
 - (c) If the sum of the payroll generated by the classifications that include Clerical Office Employees equals or exceeds the sum of the payroll generated by the classifications that do not include Clerical Office Employees, then the payroll of the clerical office staff shall be assigned to the classification that includes Clerical Office Employees. When there is more than one such classification, the clerical office staff shall be assigned to the classification that generates the most payroll.

Part 3 – Standard Classification System**Section III – General Classification Procedures**

- (d) The procedures stated above for classifying an employer's clerical office staff shall also apply when classifying an employer's outside sales staff (see example below).

Example

At location 1, an employer operates an outpatient clinic assigned to Classification 8834, *Physicians' Practices and Outpatient Clinics – all employees – including Clerical Office Employees*. At location 2, the same employer operates a convalescent nursing facility – assigned to Classification 8829(2), *Convalescent Nursing Facilities – including supervisors and receptionists*. In an area that is separate from all other work places, the employer maintains clerical and administrative office staff to conduct payroll and billing activities in support of both the outpatient clinic and the convalescent nursing facility. Under Scenario A (below), the convalescent nursing facility assigned to Classification 8829 (which does not specifically include Clerical Office Employees) generates more payroll than the outpatient clinic and, therefore, the clerical office staff working in support of both operations are assignable to Classification 8810. Under Scenario B, since the outpatient clinic generates more payroll than the convalescent nursing facility, the clerical office staff working in support of both operations are assignable to Classification 8834. In both scenarios, regardless of which operation generates more payroll, the clerical office staff working exclusively in support of the convalescent nursing facility are assignable to Classification 8810, and the clerical office staff working exclusively in support of the outpatient clinic are assignable to Classification 8834.

Scenario	Location 1: Outpatient Clinic Payroll	Location 2: Convalescent Nursing Facility Payroll	Clerical Employees Working in Support of Both the Outpatient Clinic and the Convalescent Nursing Facility
A	\$200,000	\$655,000	8810, <i>Clerical Office Employees</i>
B	\$750,000	\$655,000	8834, <i>Physicians' Practices and Outpatient Clinics – all employees – including Clerical Office Employees</i>

Example

An employer operates an automobile and truck parts store, assignable to Classification 8046, *Stores – automobile or truck parts or accessories – wholesale or retail – including Inside Salespersons or Outside Salespersons*. This employer also maintains a department for the repair of automobiles or trucks on a fee basis, and employees engaged in these operations are assignable to Classification 8389, *Automobile or Truck Repair Facilities*. The employer maintains outside sales staff to conduct marketing and outside sales operations in support of the automobile and truck parts store and promote the service and repair operations. Under Scenario C (below), the vehicle repair operations assigned to Classification 8389 (which do not specifically include Outside Salespersons) generate more payroll than the auto parts store operations assigned to Classification 8046 and, therefore, the outside sales staff working in support of both operations are assignable to Classification 8742. Under Scenario D, since the auto parts store operations generate more payroll than the vehicle repair operations, the outside sales staff working in support of both operations are assignable to Classification 8046. In both scenarios, regardless of which operation generates more payroll, outside sales staff working exclusively in support of the repair operations are assignable to Classification 8742, and outside sales staff working exclusively in support of the auto parts store operations are assignable to Classification 8046.

Part 3 – Standard Classification System**Section III – General Classification Procedures**

Scenario	Auto Parts Store Payroll	Vehicle Repair Payroll	Assigned Classification for Outside Salespersons Working in Support of Both the Auto Parts Store and Vehicle Repair
C	\$200,000	\$655,000	8742, <i>Salespersons – Outside</i>
D	\$750,000	\$655,000	8046, <i>Stores – automobile or truck parts or accessories – wholesale or retail – including Inside Salespersons or Outside Salespersons</i>

5. General Inclusions

The operations listed below are included in all classifications other than Standard Exception classifications. Except as provided in Section VII, *Standard Classifications*, general inclusions shall not be separately classified, all other provisions contained herein notwithstanding. Any operation described by a general inclusion shall nevertheless be subject to division of payroll if conducted as a separate and distinct enterprise and having no relation to the operations described by any other classification.

- a. Aircraft travel by employees, other than members of the flying crew, including employees whose payroll is assigned to the Standard Exception classifications.
- b. Commissaries.
- c. Manufacturing of containers, such as bags, barrels, bottles, boxes, cans, cartons or packing cases.
- d. Plant dispensaries.
- e. Maintenance or ordinary repair of the employer's buildings or equipment when performed by employees of the employer.
- f. Printing and lithography.
- g. Stamping, welding, drilling and blasting.
- h. Research laboratories.
- i. Drivers and their helpers.
- j. Supervisors whose work is necessary, incidental or appurtenant to any operations of the business.
- k. Unmanned Aircraft System (aerial drone) operation – aircraft system and payload total combined weight of less than 55 pounds – all members of the operating crew. Operations performed in support of the employer's Construction or Erection operations shall be classified in accordance with Part 3, Section IV, Rule 2, *Construction or Erection Work*. Operating crew members working remotely from an office location with no exposure outside of the clerical office shall be classified as 8810, *Clerical Office Employees*, subject to the Standard Exceptions rule.

6. General Exclusions

Subject to division of payroll rules, the following operations are excluded from all classifications, including Standard Exceptions, unless specifically included in the language of the classification. Operations described by general exclusions shall require division of payroll, notwithstanding that the classification wording may include the term *all* as in such phrases as *all employees*, *all operations*, etc.

- a. Aircraft operation – all members of the flying crew.

Part 3 – Standard Classification System**Section IV – Special Industry Classification Procedures**

- b. New construction, remodeling, erection or installation work, whether done by the insured's employees or by contractors.
- c. Maintenance or repair work if performed by contractors.
- d. Foundry operations.
- e. Asbestos abatement.
- f. Day care services if provided by the employer primarily for the use of its employees' dependents.
- g. Unmanned Aircraft System (aerial drone) operation – aircraft system and payload total combined weight of 55 pounds or heavier – all members of the operating crew. Operating crew members working remotely from an office location with no exposure outside of the clerical office shall be classified as 8810, *Clerical Office Employees*, subject to the Standard Exceptions rule.

7. Coronavirus Disease 2019 (COVID-19)

- a. Effective as of the date of a California statewide stay-at-home order and concluding sixty (60) days after the order is lifted, the payroll of an employee who meets the definition of a Clerical Office Employee, as detailed in Rule 4a, *Classifications 8810, Clerical Office Employees, and 8871, Clerical Telecommuter Employees*, and whose payroll for the balance of the policy period is not assignable to a standard classification that specifically includes Clerical Office Employees, shall be assigned to Classification 8810, *Clerical Office Employees*.

A single employee's payroll may be divided between Classification 8810 and another classification only once during this time period. Once the employee's duties are no longer exclusively clerical in nature, Classification 8810 shall not be assigned.

- b. Effective as of the date of a California statewide stay-at-home order and concluding thirty (30) days after the order is lifted, payments made to an employee, including but not limited to sick or family leave payments, while the employee is performing no duties of any kind in service of the employer shall be excluded from remuneration; however, the excluded amounts shall be no greater than the employee's regular rate of pay.
- c. Employers must maintain records that document the change in duties and that segregate such payments during the timeframes specified above.

Section IV – Special Industry Classification Procedures**1. Aircraft Operation**

- a. Members of the Flying Crew

Members of the Flying Crew are defined as all personnel engaged in the operation of aircraft or the care of passengers or cargo in flight. This includes, but is not limited to, employees designated as airplane commanders, pilots, check pilots, co-pilots, flight engineers, navigators, technical or other observers, flight technicians, radio or radar operators and flight attendants.

Air travel by employees who are not members of the flying crew is classified in accordance with Section III, Rule 5, *General Inclusions*.

- b. Members of the Flying Crew – Assignment of Payroll

Except as noted in the following paragraph, the total remuneration of all employees who are members of the flying crew shall be classified in accordance with their actual flying operations.

The total remuneration of employees who are members of the flying crew of an aircraft engaged in the transportation of personnel in the business of an employer not otherwise engaged in aircraft operation (Classification 7421, *Aircraft Operation – transportation of personnel*) and who perform no other

Part 3 – Standard Classification System

Section IV – Special Industry Classification Procedures

operations for the employer shall be classified as 7421, *Aircraft Operation*. If such employees also perform other operations for the employer, their remuneration shall be classified as follows:

- (1) If the records of the employer clearly indicate the weeks in which employees have engaged in flying operations, the remuneration of such employees for each week during any part of which the employees have engaged in flying operations shall be assigned to Classification 7421, *Aircraft Operation*, unless the classification applicable to the employees' non-flying operations carries a pure premium rate higher than Classification 7421, *Aircraft Operation*, in which case the appropriate non-flying classification shall be assigned.
- (2) If the records of the employer do not clearly indicate the weeks in which flying operations are performed, the entire remuneration shall be assigned to the highest rated classification applicable to any portion of the employees' duties.

2. Construction or Erection Work

This Rule applies to the construction and erection classifications listed in Appendix I, *Construction and Erection Classifications*. Division of payroll shall be made for each separate and distinct type of construction or erection operation that is specifically described by a classification, provided separate records of payroll are maintained and provided the use of any such classification in connection with a separate job or location is not restricted by classification phraseology or footnotes. When the operations at a job or location are classified on a divided payroll basis, the remuneration of any one employee may be divided between two or more classifications provided the employer has maintained complete and accurate records supported by original time cards or time book entries which show separately, both by individual employee and in summary by operations performed, the remuneration earned by such employee. Operations for which separate records of payroll are not maintained shall be assigned to the highest rated classification applicable to the job or location if payrolls are kept separately by job within the policy period; otherwise, the highest rated classification shall be assigned based on the entire policy period. Operations that normally prevail in connection with a classification shall not be subject to division of payroll, but shall be assigned to such classification, whether or not separate records of payroll are kept.

Wrecking or demolition work where a building or structure is razed or where a floor or exterior wall is removed, the raising or moving of buildings or structures, and the deconstruction or removal of existing construction materials, including but not limited to wallboard, floor coverings, wall framing, electrical work or plumbing fixtures in connection with reconstruction, repair or remodeling operations shall be assigned in accordance with Section IV, Rule 7, *Wrecking or Demolition and Building Raising or Moving*.

When an employer retains one or more employees as members of a crew that operates Unmanned Aircraft Systems (aerial drones) with an aircraft system and payload total combined weight of less than 55 pounds in connection with its construction or erection operations, such members of the Unmanned Aircraft System (aerial drone) operating crew shall be classified as 8720(4), *Unmanned Aircraft System Operation*, provided they are engaged exclusively in such operations, or are engaged in such work for any portion of their time and devote the balance of their time to clerical office duties or outside sales. Employees who are members of an Unmanned Aircraft System (aerial drone) operating crew and also perform or supervise construction or erection operations shall be classified based on the construction or erection operations they supervise or perform. Operating crew members working remotely from an office location with no exposure outside of the clerical office shall be classified as 8810, *Clerical Office Employees*, subject to the Standard Exceptions rule.

The operating crew of Unmanned Aircraft Systems (aerial drones) with an aircraft system and payload total combined weight of 55 pounds or heavier shall be classified in accordance with Section III, Rule 6, *General Exclusions*.

When the operations at a job or location are limited to minor property repairs for other concerns on a fee basis for which no contractor's license is required, such operations shall be classified as 9015(1), *Building Operation – N.O.C. – all other employees*. Such repairs include but are not limited to patching walls, touch-up painting, faucet repair, door hardware repair and replacement of electrical switches.

Part 3 – Standard Classification System

Section IV – Special Industry Classification Procedures

In addition, the remuneration of employees assigned to construction and erection classifications is subject to the following:

a. Determination of Dual Wage Construction or Erection Classification

A classification that requires the regular hourly wage to equal or exceed a specified amount may be used only upon verification that the employee is paid an hourly wage that equals or exceeds the specified amount.

(1) Records of Payroll

For all employees, other than salaried employees, determination of the regular hourly wage must be supported by one of the following sources:

- (a) Original time cards or time book entries for each employee. Original records must include the operations performed, the total hours worked each day and the times the employee started and ended each work period throughout the workday. At job locations where all of the employer's operations cease for a uniform unpaid meal period, recording the start and stop times of the uniform break period is not required.
- (b) A valid collective bargaining agreement that shows the regular hourly wage rate by job classification of worker. If using a collective bargaining agreement, the records must include an employee roster by job classification that permits the reconciliation of individual employees to the job classifications set forth in the collective bargaining agreement.

For all employees, other than salaried employees, the payroll for which an hourly wage determination cannot be reconciled to time cards or time book entries or collective bargaining agreements as specified above shall not be assigned to a classification that requires the regular hourly wage to equal or exceed a specified amount.

For the purpose of administering this rule, a salaried employee is an employee who is remunerated at an established level of compensation on a weekly, monthly or annual basis, without regard to hours worked, sales volume, production levels or similar variables. (In addition to a base salary, salaried employees may also receive bonuses or commissions.)

(2) Total Remuneration for Regular Hourly Wage Calculation

The remuneration used to calculate the regular hourly wage for all employees, including salaried employees, shall be determined as follows:

- (a) The following remuneration shall be used to determine the hourly wage, without regard to whether such payments are included as payroll:
 - 1. Hourly wages
 - 2. Piecework
 - 3. Salary
 - 4. Bonuses, commissions and incentive payments that are calculated and paid each pay period
 - 5. Fringe benefit payments made by the employer. However, when such payments are excludable from payroll, they shall be excluded from the hourly wage calculation. (See Section V, *Payroll – Remuneration*.)
- (b) The following remuneration shall not be used to determine the hourly wage, without regard to whether such payments are included as payroll:
 - 1. Allowances
 - 2. Reimbursed business expenses
 - 3. Premium Portion of Overtime Pay

Part 3 – Standard Classification System**Section IV – Special Industry Classification Procedures**

4. Bonuses, commissions and incentive payments that are not calculated and paid each pay period
5. Any additional remuneration required to meet the annual minimum remuneration requirements in Section V, Rule 1, *Payroll – Remuneration*, Subrules j, k, l and m

(3) Regular Hourly Wage Calculation

- (a) Except as provided below, an employee's regular hourly wage shall be calculated by dividing each employee's total remuneration, determined in accordance with Rule 2a(2), *Total Remuneration for Regular Hourly Wage Calculation*, by the number of hours worked during the pay period. As necessary, the regular hourly wage shall be reconciled with other records in accordance with Rule 2a(1), *Records of Payroll*.
- (b) An employee's regular hourly wage may be separately calculated and payroll separately classified for work performed in connection with:
 1. Each job that is subject to federal, state or local prevailing wage laws; and
 2. Each separate and distinct type of construction or erection operation that is specifically described by a classification.
- (c) For salaried employees, the regular hourly wage shall be determined by dividing the total annual remuneration, determined in accordance with Rule 2a(2), *Total Remuneration for Regular Hourly Wage Calculation*, by 2,000 hours. If an employee is salaried for less than 12 months, the regular hourly wage shall be calculated for the salaried period on a prorated basis.

Example 1 – Combination Hourly Pay and Piecework

An employee of a roofing contractor is paid as follows: \$15.00 per hour for work performed at the contractor's equipment yard; \$25.00 per hour tearing off old roofs; and piecework rates when installing or repairing roofing.

The employer maintains time cards for each employee indicating the operations performed, the time the employee started and ended each work period throughout the workday, the total daily hours worked, and remuneration earned by each employee. During the pay period the employee worked 16 hours in the yard, 4 hours performing roofing tear off, and 20 hours installing or repairing roofs. The roofing piecework totaled \$585.

	Roof – patch	5	n/a	4	25.00	100.00
Total		40				\$925.00

Determination of the regular hourly wage:

Employee	Gross Pay	Hours Worked	Regular Hourly Wage
J. Smith	\$925.00	40	\$23.13

Part 3 – Standard Classification System**Section IV – Special Industry Classification Procedures****Example 2 – Commission**

An employee of a plumbing repair company is paid commissions based on billed hours and product sales. The employee earns 20% of the billed hours (hourly rate charged the customer) for each repair completed. The employer's labor rate billed to customers is \$80 per hour. The employee earns 40% commission on the sale of water heaters and plumbing fixtures. The employer maintains time cards for each employee indicating the operations performed, the time the employee started and ended each work period throughout the workday, the total daily hours worked, and remuneration earned by each employee. During the pay period the employee worked 65 hours, although only 43 hours were billed to customers. The employee also sold plumbing fixtures totaling \$1,500.

Bi-Weekly Payroll Journal: M. Jackson						
Day	Hours Worked	Billed Hours	Commission on Billed Hours	Fixture Sales	Commission on Sales	Earnings
18-Mar	0					
19-Mar	8	5	\$80.00	\$100.00	\$40.00	\$120.00

30-Mar	0					
31-Mar	0					
Total	65	43	\$688.00	\$1500.00	\$600.00	\$1288.00

Determination of the regular hourly wage:

Employee	Gross Pay	Hours Worked	Regular Hourly Wage
M. Jackson	\$1288.00	65	\$19.82

Note that in the above example, if the hourly wage calculation were based, incorrectly, on billable hours, the regular hourly wage would be overstated. Therefore, if time cards or time book entries to verify the hours worked are not available, the payroll shall not be assigned to a classification that requires the regular hourly wage to equal or exceed a specified amount. It is incorrect to base the regular hourly wage calculation on billed hours.

Example 3 – Salary

An employee of a sheet metal contractor is retained as project supervisor at an annual salary of \$60,000. The employee was retained for only three months during the policy period.

- As the employee was salaried for 3 of 12 months or 25% of the annual salary period, the regular hourly wage is calculated based on the prorated salary ($\$60,000 \times 25\% = \$15,000$), divided by the prorated number of hours ($2,000 \times 25\% = 500$). The regular hourly wage calculation is $\$15,000 / 500 = \30.00 per hour.
- During the three-month period, the project supervisor earned a one-time \$3,000 bonus that was paid at the end of the project. Although this bonus must be included as reportable payroll (see

Part 3 – Standard Classification System

Section IV – Special Industry Classification Procedures

Section V, Rule 1, *Payroll – Remuneration*), it is excluded from the regular hourly wage calculation because the bonus is not calculated and paid each pay period. The regular hourly wage remains \$30.00 per hour as calculated above.

A different employee is retained for a three-month project with the same salary. This employee earns a \$100.00 production bonus each two-week pay period ($\$100.00 \times 6 \text{ pay periods} = \600.00). As these bonuses are calculated and paid each pay period, the regular hourly wage is calculated based on the prorated salary ($\$60,000 \times 25\% = \$15,000$), including the production bonuses (\$600.00), divided by the prorated number of hours ($2,000 \times 25\% = 500$). The regular hourly wage calculation is $\$15,600 / 500 = \31.20 per hour.

An executive officer receives an annual salary of \$40,000. The applicable minimum remuneration for executive officers during the policy period is \$50,000 per annum. Although \$50,000 must be reported as payroll (see Section V, Rule 1, *Payroll – Remuneration*, Subrule j), that amount is not used to calculate the regular hourly wage; the regular hourly wage is calculated based on the salary divided by 2,000 hours. The regular hourly wage calculation is $\$40,000 / 2,000 = \20.00 per hour.

b. Governing Classification (Construction or Erection)

The governing classification shall be determined on the basis of the job within the policy period if payrolls are kept separately by job within the policy period; otherwise, on the basis of the entire policy period. Two classifications distinguishable only by the regular hourly wage of employees shall be combined to determine the governing classification.

c. Miscellaneous Employees (Construction or Erection)

If the construction or erection operations at any location are assigned to two or more classifications, the payroll of all miscellaneous employees who cannot properly be assigned to specific classifications shall be assigned to the governing classification, except that when the governing classification is determined to be the combination of two classifications distinguishable only by the regular hourly wage of employees, the payroll of a miscellaneous employee shall be assigned based on the regular hourly wage of such employee. Miscellaneous employees include but are not limited to supervisors, watchpersons, traffic control flagpersons, drivers, construction or safety engineers, construction debris clean-up employees and job site equipment maintenance and repair employees.

d. Executive Level Supervisors

Executive level supervisors oversee the insured's construction operations through second level (or higher) supervisors. In addition, on job sites where the insured subcontracts all operations to licensed subcontractors, executive level supervisors may oversee operations through subcontractors. Notwithstanding any other provisions contained herein, it is not permissible to divide a single employee's payroll, within a single policy period, between Classification 5606, *Contractors – construction or erection – executive level supervisors*, and any other classification.

Executive level supervisors over construction operations wherein the insured develops payroll in one or more construction or erection classifications shall be eligible for Classification 5606 provided not less than two levels of supervision, as defined below, are retained between the executive level supervisor and the workers performing the actual construction operations.

- (1) **First level supervisors** generally work at a job site with a single crew of workers performing a single trade and do not travel between concurrent job sites to supervise different crews. While first level supervisors may engage in construction activities alongside the crew, as supervisors they have the authority to direct and control the crew's work. This control includes training, evaluating, and disciplining crewmembers. Employees who assist with training or leading a crew, but who do not have the authority to direct and discipline crewmembers, or are not accountable for the work performed by the crew, are not considered first level supervisors.

Part 3 – Standard Classification System**Section IV – Special Industry Classification Procedures**

- (2) **Second level supervisors** generally have broad authority over the work crews at one or more job sites. Second level supervisors direct and control the work of first level supervisors. The duties of second level supervisors are exclusively supervisory in nature.

e. **Idle Time, Strike Pay, or Other Payroll Paid for Hours Not Worked**

If an employee's payroll is segregated among classifications based upon the hours worked in each operation, the payroll for idle time, strike pay, or other payroll paid for hours not worked shall be apportioned among the classifications applicable to the employee's payroll based on the earnings for time actually worked in those classifications.

Example

A construction worker engages in fence construction and conduit construction. The worker is paid \$12 per hour for fence work and \$15 per hour for conduit work. The number of hours recorded for fence work, conduit work and idle time is shown below. The earnings for time actually worked in Classification 6400 is 63.8% of the payroll for Classifications 6400 and 6325 combined ($\$264.00 / \$414.00 = 63.8\%$). The idle time apportioned to Classification 6400 is therefore 5.1 hours (8 hours idle time \times 63.8% = 5.1 hours), the payroll for idle time in this classification is \$61.22 (5.1 hours \times \$12 per hour idle time = \$61.22), and the total payroll in this classification is \$325.22 ($\264.00 payroll + \$61.22 idle time payroll = \$325.22). The earnings for time actually worked in Classification 6325 is 36.2% of the payroll for Classifications 6400 and 6325 combined ($\$150.00 / \$414.00 = 36.2\%$). The idle time apportioned to Classification 6325 is therefore 2.9 hours (8 hours idle time \times 36.2% = 2.9 hours), the payroll for idle time in this Classification is \$34.78 (2.9 hours \times \$12 per hour idle time = \$34.78), and the total payroll in this Classification is \$184.78 ($\150.00 payroll + \$34.78 idle time payroll = \$184.78).

Work Record				
Operation	Hours	Rate per Hour	Payroll	% of Payroll for Hours Worked
Fence Construction – Classification 6400	22	\$12.00	\$264.00	63.8%
Conduit Construction or Underground Wiring – Classification 6325	10	\$15.00	150.00	36.2%
Subtotal	32	N/A	\$414.00	100%
Idle Time	8	\$12.00	96.00	N/A
Total	40	N/A	\$510.00	N/A

Apportionment				
Operation	Hours	Rate per Hour	Payroll	% of Payroll for Hours Worked
Idle Time – fence construction	5.1	N/A	\$61.22	63.8%
Idle Time – conduit construction	2.9	N/A	34.78	36.2%
Total	8.0	N/A	\$96.00	100%

Part 3 – Standard Classification System**Section IV – Special Industry Classification Procedures**

Reconciliation			
Classification 6400 Payroll		Classification 6325 Payroll	
Payroll for hours worked	\$264.00	Payroll for hours worked	\$150.00
Idle time payroll	61.22	Idle time payroll	34.78
Total fence construction payroll:	\$325.22	Total conduit construction payroll:	\$184.78
Total Payroll (\$325.22 + \$184.78) = \$510.00			

f. Shop, Yard or Storage Operations

When an employer's shop, yard or storage operations are performed in connection with its construction or erection operations that are assigned to two or more classifications, one or more of which includes shop, yard or storage operations and one or more of which does not include shop, yard or storage operations, the payroll of the shop, yard or storage operations shall be assigned in accordance with the following:

- (1) Compare the sum of the payroll (other than the payroll of miscellaneous employees) assigned to construction or erection classification(s) that do not include shop, yard or storage operations to the sum of the payroll (other than the payroll of miscellaneous employees) assigned to construction or erection classification(s) that include shop, yard or storage operations.
- (2) If the sum of the payroll generated by the construction or erection classification(s) that do not include shop, yard or storage operations exceeds the sum of the payroll generated by the construction or erection classification(s) that include shop, yard or storage operations, then the payroll generated in shop, yard or storage operations shall be assigned to Classification 8227, *Construction or Erection Permanent Yards or Shops*.
- (3) If the sum of the payroll generated by the construction or erection classification(s) that include shop, yard or storage operations exceeds the sum of the payroll generated by the construction or erection classification(s) that do not include shop, yard or storage operations, then the payroll generated in shop, yard or storage operations shall be assigned to the classification that includes shop, yard or storage operations. When there is more than one such classification, the payroll generated in shop, yard or storage operations shall be assigned to the classification that generates the most payroll.

3. Electronic Products Design and Manufacturing

The *Electronics* Industry Group includes a list of classifications that apply to employers engaged in the manufacture of electronic and electrical products. These classifications contemplate manufacturing operations whether performed in connection with the employer's proprietary products or performed on a contract basis for other concerns.

Employers that design the proprietary product and subcontract manufacturing to other concerns shall be assigned to the appropriate *Electronics* Industry Group manufacturing classification provided the employer also:

1. Manufactures the prototype or subcontracts the manufacture of the prototype; or
2. Receives the manufactured product and performs quality control operations prior to shipment.

Employers that neither design nor manufacture the product, but purchase products from manufacturers for resale purposes, shall be assigned to the applicable *Stores* Industry Group classification notwithstanding that they may engage in some product preparation or quality control operations.

Part 3 – Standard Classification System**Section IV – Special Industry Classification Procedures**

4. Farms**a. Definition**

A farm, for classification purposes, shall be defined as any parcel or parcels of land used for the purpose of agriculture, horticulture, viticulture, dairying, stock or poultry raising as a business or commercial venture. This definition also includes aquaculture, hydroponics, indoor vertical farming and farming within greenhouses. This definition does not include growing or raising crops or animals for non-commercial purposes.

b. Payroll (Farms)

Notwithstanding any other provisions contained herein, when lodging is provided by the employer, the market value of such lodging to the employee shall be included as payroll.

Payroll includes all payments that are based on a price per unit (piecework), contract or measure basis. If paid on a contract basis and the contract includes amounts paid for the provision of motor vehicles or farm machinery, then no less than one-fourth (1/4) of the total contract shall be deemed to be payroll.

c. Payroll Division (Farms)

Division of payroll shall be made for each separate and distinct type of commercial farm operation, provided separate records of payroll are maintained, notwithstanding any other provision contained herein.

Payroll may be divided based upon acreage, an employee's time or other reasonable methods.

d. Miscellaneous Employees (Farms)

Miscellaneous farm employees include but are not limited to supervisors, drivers, employees engaged in general maintenance, fence repair or road building operations and employees engaged in ancillary activities, including but not limited to tilling fallow fields, growing cover crops and keeping bees to pollinate the farm's own crops.

If the farm operations are assigned to two or more *Farms* Industry Group classifications, the payroll of all miscellaneous employees shall be allocated between the *Farms* Industry Group classifications to which their work pertains; payroll may be divided based upon acreage, an employee's time or other reasonable methods.

When an employer's miscellaneous employees perform operations in connection with two or more classifications, one or more of which are *Farms* Industry Group classifications and one or more of which are not *Farms* Industry Group classifications, the payroll of such employees shall be assigned in accordance with the following:

- (1) Compare the sum of the payroll (other than the payroll of miscellaneous and standard exception employees) generated by the operations assigned to the *Farms* Industry Group classifications to the sum of the payroll (other than the payroll of miscellaneous and standard exception employees) generated by the operations not assigned to *Farms* Industry Group classifications.
- (2) If the sum of the payroll generated by the *Farms* Industry Group classifications exceeds the sum of the payroll generated by the non-*Farms* Industry Group classifications, then the payroll of the miscellaneous employees shall be assigned to the various *Farms* Industry Group classifications to which their work pertains in the same proportion as the allocated farm payroll bears to the total farm payroll.
- (3) If the sum of the payroll generated by the non-*Farms* Industry Group classifications equals or exceeds the sum of the payroll generated by the *Farms* Industry Group classifications, then the payroll of the miscellaneous employees shall be assigned to the non-*Farms* Industry Group classification to which their work pertains that generates the largest amount of payroll.

Part 3 – Standard Classification System**Section IV – Special Industry Classification Procedures**

e. Separately Classifiable Operations (Farms)

Unless otherwise specified in the applicable classification phraseology or other provisions contained herein, including division of payroll rules, the following operations shall be separately classified:

- (1) Operation of farm machinery to conduct mechanized farming operations for separate concerns on a fee basis.
- (2) Fee-based trucking provided for others.
- (3) The following operations when conducted in buildings or sheds located on or away from farm premises, whether conducted for others or in connection with the employer's farming activities: wine making; hulling, shelling or processing nuts; or grading, sorting, packing, pre-cooling, drying, dehydrating or otherwise preparing vegetables or fruit for shipment.

5. Mining**a. Payroll Basis**

No reduction in payroll shall be made on account of powder, explosives, detonator, blacksmithing tools, care of lamps or other materials or services furnished by the operators. Where employees work on the basis of a share in the future profits, their earnings must be included upon a definite agreed wage basis, which wage basis in no event shall be less than \$12.00 per shift of eight (8) hours per employee. Where the actual remuneration is less than \$12.00 per shift of eight (8) hours per employee, a wage of not less than \$12.00 per shift of eight (8) hours per employee must be used.

Notwithstanding any other provisions contained herein, when lodging is provided by the employer, the market value of such lodging to the employee shall be included in payroll.

b. Standard Exceptions

Draftspersons engaged exclusively within the office of such work and Clerical Office Employees engaged exclusively in keeping the books and records shall be treated as Standard Exceptions, and their payroll shall be assigned to Classification 8810, *Clerical Office Employees*.

c. Definition of "Surface Employees" as used in Classification 1124, *Mining – underground – surface employees*

Only those employees of underground mines whose work is exclusively on the surface shall be assigned to Classification 1124. These employees include, but are not limited to, hoist engineers, top persons, blacksmiths, compressor persons, and employees engaged in land clearing and the construction and maintenance of all buildings, roads, ditches and flumes.

d. Shops

Machine shop, blacksmith shop, sawmill or mine car repair shop shall be assigned to Classification 1122, *Mining – surface*, or Classification 1124, *Mining – underground – surface employees*, depending upon the type of mine.

6. Stores

- a. For store operations, the classification shall be separately determined for each type of store that is conducted as a separate operation without interchange of labor.
- b. The applicable store classification is determined based upon the type of merchandise sold, leased, consigned or auctioned and whether the operations are wholesale or retail. In the absence of specific instructions found in the classification phraseology or footnote, the following definitions apply when determining the applicable store classification.

(1) Type of Merchandise Sold

Part 3 – Standard Classification System**Section IV – Special Industry Classification Procedures**

If a store sells more than one type of merchandise, each of which may be subject to a different classification, the store classification shall be determined based on the highest rated category of merchandise sold, provided that category exceeds twenty-five percent (25%) of gross receipts. If a store sells lottery tickets authorized by the California State Lottery, only that portion of the sales proceeds identified by the California State Lottery as commission shall be included in determining gross receipts.

Examples

Assumptions:

Classification 8008, *Stores – clothing, shoes, linens or fabric products – retail*, carries a hypothetical pure premium rate of \$6.00.

Classification 8013(1), *Stores – jewelry – wholesale or retail*, carries a hypothetical pure premium rate of \$4.00.

The employer operates a store engaged in the sale of clothing (50%) and jewelry (50%). The store has a single entrance/exit. A department is maintained wherein employees exclusively engage in the sale of jewelry. However, in view of the common entrance/exit, the jewelry sales and clothing sales are performed as departments within a single store, not as two individual stores, and therefore all operations are assigned to Classification 8008, *Stores – clothing, shoes, linens or fabric products – retail*.

At a shopping mall (single location), the employer operates two stores: a clothing store and a jewelry store. The stores are operated from separate suites in the mall, each with its own entrances/exits. Employees do not interchange between store operations. Customers cannot move merchandise from one store to the other to make a purchase. Since each store is operated independently and without interchange of labor, separate classifications are assigned to the clothing store and the jewelry store.

(2) Wholesale vs. Retail

For purposes of classifying stores, the term wholesale is defined as the selling of merchandise to the following:

- (a) Retailers;
- (b) Manufacturers, builders, or contractors;
- (c) Industrial, agricultural, commercial, governmental, institutional, or professional users;
- (d) Other wholesalers; or
- (e) Firms acting as agents in buying merchandise for or selling merchandise to such persons or companies as those previously listed.

For purposes of classifying stores, the term retail is defined as the selling of merchandise to the general public for personal or household consumption or use. Warehouse operations incidental to the retail operations of the employer shall be assigned to the retail classifications.

A store that sells merchandise on both a wholesale and a retail basis shall be assigned to the appropriate store classification, depending upon whether the gross receipts are primarily (more than 50%) from wholesale or retail sales.

Salespersons who sell exclusively from samples to buyers for stores (no direct sales) in a salesroom or showroom location where no actual inventory (exclusive of showroom samples) is maintained, and who have no other duties of any kind in the service of the employer except clerical work or as outside salespersons, shall be classified as 8742, *Salespersons – Outside*.

- c. The incidental assembly and preparation of purchased merchandise for display or sale shall be assigned to the store classification.

Part 3 – Standard Classification System**Section IV – Special Industry Classification Procedures**

Examples

Furniture stores may receive pre-manufactured components of a dining table and assemble the table for display and sale. These operations shall be classified as 8015, *Stores – furniture*.

Jewelry stores may receive ring settings and gemstones and as purchases are made, jewelers will set and secure the gemstone selected by the customer. These operations shall be classified as 8013(1), *Stores – jewelry*.

- d. If a store maintains a department for the repair of items sold, the repair operations shall be classified in accordance with the following:
 - (1) If more than 50% of the repair jobs are for warranty repair for which no fee is charged to the customer, the repair operations are incidental to the store and the appropriate store classification shall be assigned in accordance with the Single Enterprise rule. See Section III, Rule 2, *Single Enterprise*.
 - (2) If 50% or more of the repair jobs are fee repair jobs, the store and repair department constitute Multiple Enterprises. Assign the repair operations in accordance with the Multiple Enterprises rule to either the appropriate repair or manufacturing classification or the appropriate store classification. See Section III, Rule 3, *Multiple Enterprises*.

Warranty repair work is defined as repair work for which no fee is charged to the customer. Repair work covered under a service contract or an extended warranty contract that was purchased by the customer is not considered to be warranty work.

- e. If a store maintains a department for the preparation and sale of hot foods, such operations shall be classified as 9079(1), *Restaurants or Taverns*. The payroll of employees that interchange between store operations and the department engaged in the preparation and sale of hot foods shall be assigned in accordance with Section V, Rule 3, *Division of Single Employee's Payroll*.
- f. Employers that engage in mobile food vending for the retail sale of packaged and cold foods and beverages from food trucks, trailers, carts or temporary booths, including the incidental storage of such merchandise, shall be classified as 8017(1), *Stores – retail*, 8078(1), *Sandwich Shops*, 8078(2), *Beverage Preparation Shops*, or 8078(3), *Ice Cream or Frozen Yogurt Shops*, depending on the products sold. The operation of mobile food trucks, trailers, carts or temporary booths wherein hot food is prepared for sale to customers shall be classified as 9079(1), *Restaurants or Taverns*.
- g. If a store maintains a department for the service or repair of automobiles or trucks on a fee basis, the payroll of employees engaged in such service and repair operations shall be assigned to the applicable automobile or truck service or repair classification.
- h. If a store engages in the sale of gasoline or automobile services, the appropriate store classification shall apply at each location wherein the sale of merchandise in the store, other than gasoline or automobile services, exceeds twenty-five percent (25%) of the total annual receipts for the location. Employees engaged in the fueling, service or repair of automobiles or trucks shall be assigned to the applicable gasoline station classification. Cashiers who work within the store and accept payments for store merchandise and automobile services shall be assigned to the applicable store classification.

Examples

An employer operates a combination convenience store and retail gasoline station with 30% of gross receipts developed in the sale of store merchandise. The store occupies 3,000 square feet and is open 24 hours per day. All gasoline sales are controlled from inside the store. The operations of this employer are assignable to Classification 8061, *Stores – convenience – retail*.

Part 3 – Standard Classification System**Section IV – Special Industry Classification Procedures**

At a second location, the employer operates a similar store; however, only 20% of the gross receipts are developed in the sale of store merchandise. The operations of this employer are assignable to Classification 8324, *Gasoline Stations – retail*.

Also at this second location, the employer opens a service bay to perform automobile oil changes and smog checks in addition to gasoline and store sales. The operations at this location are now assignable to Classification 8387(1), *Automobile or Truck Gasoline Service Stations*, due to the automobile service operations provided.

7. Wrecking or Demolition and Building Raising or Moving

- a. In classifying wrecking or demolition work where a building or structure is razed or where a floor or exterior wall is removed, all operations at the wrecking or demolition site, including welding or cutting, breaking up concrete foundations, sidewalks or floor slabs, and removing or loading debris, shall be assigned to one of the classifications listed in (1) through (5), below.
 - (1) Classifications 5403/5432, *Carpentry – N.O.C.* These classifications shall be assigned to wrecking or demolition and raising or moving of wooden buildings or structures.
 - (2) Classification 5213, *Concrete Construction – N.O.C.* This classification shall be assigned to wrecking or demolition and raising or moving of buildings or structures that are constructed of concrete or concrete encased steel.
 - (3) Classification 5057, *Iron or Steel Erection – N.O.C.* This classification shall be assigned to wrecking or demolition and raising or moving of steel buildings (not concrete encased steel), structures, tanks, towers or ships (of any size).
 - (4) Classifications 5027/5028, *Masonry – N.O.C.* These classifications shall be assigned to wrecking or demolition and raising or moving of masonry buildings or structures.
 - (5) Classification 6003(2), *Wharf Building*. This classification shall be assigned to wrecking or demolition and raising or moving of all piers and wharves.
- b. The deconstruction or removal of existing construction materials, including but not limited to wall-board, floor coverings, wall framing, electrical work or plumbing fixtures in connection with reconstruction, repair or remodeling operations where a building or structure is not razed or where a floor or exterior wall is not removed shall be assigned to the *Construction and Erection* classification applicable to the installation of the same materials.
- c. In classifying the raising or moving of buildings or structures, all operations involved in the raising or moving of such buildings or structures, including incidental shoring and the removal of walls, foundations, columns, piers or other structural members, shall be assigned to one of the classifications listed in 7a(1) through 7a(5).
- d. All wrecking, demolition, raising or moving work not specifically described in the classifications listed in 7a(1) through 7a(5) shall be assigned by analogy to one of those classifications. No other classification is applicable.
- e. Exceptions
 - (1) If executive level supervisors oversee the operations described in 7a through 7d, and no less than two levels of supervision are retained, or all actual wrecking, demolition, raising or moving operations, including equipment operation and debris removal, are subcontracted to licensed subcontractors, such executive level supervisors shall be assigned to Classification 5606, *Contractors – construction or erection – executive level supervisors*, in accordance with Section IV, Rule 2d, *Executive Level Supervisors*.
 - (2) If all work described in 7a through 7d, including equipment operation and debris removal, is performed by licensed subcontractors, employees who perform job site cleaning, security,

Part 3 – Standard Classification System

Section IV – Special Industry Classification Procedures

- traffic control or similar support operations shall be assigned to Classification 5610, *Contractors – construction or erection – all construction subcontracted*.
- (3) Shop, yard or storage operations maintained by wrecking, demolition, raising or moving contractors assigned to one or more construction or erection classification shall be assigned in accordance with Section IV, Rule 2f, *Shop, Yard or Storage Operations*.
 - (4) With respect to the raising or moving of buildings or structures, the rebuilding of walls, foundations, columns, piers or other structural members shall be assigned to the appropriate construction classification.
 - (5) If a subcontractor is engaged to conduct mobile crane operations in connection with a wrecking, demolition, raising or moving job, and performs no other type of work on the job, the mobile crane operations of said subcontractor shall be assigned to Classification 7219(3), *Mobile Crane and Hoisting Service Contractors*.
 - (6) If a subcontractor is engaged for the hauling of debris from a wrecking, demolition, raising or moving site, and performs no other type of work on the job, such hauling operations shall be assigned to Classification 7219(1), *Trucking Firms*.

8. Labor Contractors

The classification of workers provided to a client under any type of employee leasing arrangement (temporary or otherwise) shall be determined as though the workers are employees of the client. The limitations and conditions of the classification(s) so assigned and all Standard Classification System rules pertaining thereto shall be applicable.

Clerical office staff retained by the labor contractor to conduct its internal office functions shall be assigned to Classification 8810, *Clerical Office Employees*, subject to the Standard Exceptions rule, notwithstanding that temporary or leased workers are assigned to classifications that specifically include Clerical Office Employees.

Examples

A labor contractor provides a shipping clerk to a client that operates a woodworking shop that produces furniture and cabinets. The woodworking shop operations are assigned to Classifications 2883, *Furniture Mfg. – wood*, and 2812, *Cabinet Mfg. – wood*. The shipping clerk works exclusively in the cabinet department (2812) preparing cabinets for shipment. The shipping clerk is assigned to Classification 2812.

A labor contractor staffs an administrative office for a client operating a hospital. The hospital operations are assigned to Classification 9043, *Hospitals – all employees – including Clerical Office Employees and Outside Salespersons*. Normally, an administrative office would be assigned to Classification 8810, *Clerical Office Employees*; however, the phraseology of Classification 9043 includes Clerical Office Employees. Therefore, the administrative office staff provided to the hospital is assigned to Classification 9043.

9. Property Management/Operation

Property management firms engage in managing their own real property or properties owned by others. The *Property Management/Operation* Industry Group includes seven pairs of companion classifications. Each pair of companion classifications consists of one narrowly described, restricted classification applicable only to *property management supervisors*, and a related classification that broadly applies to *all other employees*.

The operation of residential housing where more than 75% of units are rented for longer than 30 consecutive days shall be assigned to the applicable *Property Management/Operation* Industry Group classification. The operation or management of hotels, motels or short-term residential housing where 25% or more of the housing units are rented for 30 consecutive days or less, including but not limited to vacation rentals and timeshare properties, shall be classified as 9050, *Hotels, Motels or Short-Term Residential Housing*, a classification that is not in the *Property Management/Operation* Industry Group.

Part 3 – Standard Classification System**Section IV – Special Industry Classification Procedures**

a. Property Management Supervisors

Property management supervisors are nonresident employees who perform a variety of duties, including but not limited to processing rental applications, interviewing rental applicants, collecting rent, performing tenant relations, hiring and managing vendors and subcontractors, managing maintenance, care and operations employees, performing inspections of the property for appearance and habitability and other administrative tasks if necessary.

Except for employees of Homeowners Associations, property management supervisors who exercise direction through maintenance or operations supervisors or foremen, or oversee properties at which all operation, maintenance and care activities are conducted by separate concerns shall be assigned to a *Property Management/Operation* Industry Group classification that include the designation *property management supervisors*, based on the type of property being managed or operated.

Property Management/Operation Industry Group classifications that include the designation *property management supervisors* are as follows: 8740(1), *Apartment or Condominium Complex Operation – N.O.C. – not Homeowners Associations – property management supervisors*; 8740(2), *Commercial Properties – N.O.C. – property management supervisors*; 8740(3), *Building Operation – N.O.C. – property management supervisors*; 8740(4), *Mobile Home Park Operation – property management supervisors*; 8740(5), *Warehouses – self-storage – property management supervisors*; 8740(6), *Apartment or Condominium Complex Operation for Seniors – age-restricted – not Congregate Living Facilities or Homeowners Associations – property management supervisors*, and 8740(7), *Commercial and Residential Mixed-Use Building Operation – not Homeowners Associations – property management supervisors*.

b. All Other Employees

Except as otherwise specified, all other property management and operations employees, including but not limited to maintenance, security, grounds keeping, resident employees, and property management supervisors who do not meet the requirements and limitations for assignment to one of the property management supervisors classifications shall be assigned to a *Property Management/Operation* Industry Group classification that includes the phrase *all other employees* based on the type of property being managed or operated. *Property Management/Operation* Industry Group classifications that include the phrase *all other employees* are as follows: 8290, *Warehouses – self-storage – all other employees*; 9007, *Apartment or Condominium Complex Operation for Seniors – age restricted – not Congregate Living Facilities or Homeowners Associations – all other employees*; 9009, *Commercial Properties – N.O.C. – all other employees*; 9010, *Mobile Home Park Operation – all other employees*; 9011(1), *Apartment or Condominium Complex Operation – N.O.C. – not Homeowners Associations – all other employees*; 9011(2), *Commercial and Residential Mixed-Use Building Operation – not Homeowners Associations – all other employees*, and 9015(1), *Building Operation – N.O.C. – all other employees*.

c. Division of Payroll between Property Management/Operation Industry Group Classifications

For property management firms engaged in maintenance, operation and care of different types of properties, the payrolls of those employees who interchange between separately classifiable operations shall be reported under the classification carrying the highest pure premium rate, unless the payrolls of such employees is segregated by classification in accordance with the Uniform Statistical Reporting Plan, Part 3, Section V, Rule 3, *Division of Single Employee's Payroll*.

It is not permissible to divide a single employee's payroll between Classification 8740 and any other *Property Management/Operation* Industry Group classification.

It is not permissible to divide a single employee's payroll between Classification 8741, *Real Estate Agencies*, and any other *Property Management/Operation* Industry Group classification.

d. Residing or Resident Employees

Any employee who resides at any property managed by the employer shall be assigned to the applicable *Property Management/Operation* Industry Group classification that includes the phrase *all other*

Part 3 – Standard Classification System

Section V – Payroll – Remuneration

employees based on the type of property being managed or operated without regard to the duties performed by such employee. “Resident” shall refer to any employee who resides at a property managed by the employer.

e. Leasing Agents

Non-residing employees of property management firms who are engaged exclusively in the rental or leasing of property to clients and who have no other duties of any kind in the service of the employer except clerical office work shall be separately classified as 8741, *Real Estate Agencies*, provided separate property managers are retained to manage the property.

f. Real Estate Agencies

Employees of real estate agencies who are engaged in the operation or management of rental property shall be separately classified to a *Property Management/Operation* Industry Group classification as property management supervisors if so qualified, or to a *Property Management/Operation* Industry Group classification that includes the phrase *all other employees*, based on the type of property being managed or operated.

g. Homeowners Associations

Homeowners associations are comprised of property owners who form a legal entity with a board of directors elected from the membership for the specific purpose of operating and maintaining the common areas of the premises owned by association members. Homeowners associations perform or contract with separate concerns to perform property operations, including but not limited to the maintenance of common grounds, operation of swimming pools, tennis courts, saunas, weight rooms and recreational clubhouse facilities and functions performed by security personnel. Homeowners associations shall be classified as 9066, *Homeowners Associations and Housing Cooperatives*, and are not eligible for assignment to Classification 8740.

Section V – Payroll – Remuneration

1. Payroll – Remuneration¹

As used in this Plan, payroll and remuneration are synonymous and mean the monetary value at which service is recompensed. Except as provided herein, remuneration includes all money earned and all substitutes for money earned during the policy period by employees and officers of the employer, and any other persons for whom voluntary coverage is provided under the policy, including: gross wages, salaries, commissions, bonuses, overtime payments, the market value of gifts, and vacation, holiday and sick pay.

a. Excluded Employees and Officers

Remuneration does not include the payroll of employees and officers specifically excluded from coverage under the policy.

b. Meals and Lodging

The value of meals or lodging provided to an employee shall not be included in the payroll unless:

- (1) the special industry classification procedures or the classification phraseology specifically prescribe otherwise,
- (2) the employee's wages are reduced by an amount equal to the value of such meals or lodging, or
- (3) the meals or lodging are provided expressly in lieu of wages.

¹ See Appendix II for a table that indicates whether various types of compensation should be considered payroll for statistical reporting purposes.

Part 3 – Standard Classification System**Section V – Payroll – Remuneration**

When the value of lodging is included in the payroll based on the preceding requirements, the total market value of such lodging to the employee is included. "Market value" is the cost to rent similar lodging in the open market minus any rent paid by the employee. The market value shall not be reduced based on partial business use of the housing unit, the tax value of lodging, the rent control value or similar reasons. For hotel and motel lodging, market value is the cost to rent a comparable apartment unit in the local open market, not the nightly room rate paid by hotel or motel customers.

c. Overtime Payments

Employees may receive overtime payments because of time worked on holidays, Saturdays or Sundays or because the number of hours worked in any week or day is beyond the standard for the industry. Overtime payments do not include extra pay for swing shifts or graveyard shifts, for working certain hours on the clock, or for incentive or bonus pay figured on volume without regard to hours worked.

Overtime payments are generally paid at a rate that is at least one and one-half times the employee's regular rate of pay; however, overtime may also be paid at double time or some other multiplier of the regular rate of pay. If overtime is paid at one and one-half times the regular rate of pay, one-third (1/3) of the total overtime pay is the Premium Portion of Overtime Pay. For employers that are operators of an athletic team, remuneration earned for each post season game that exceeds the average remuneration per regular season game is the Premium Portion of Overtime Pay.

The portion of overtime payments representing the regular rate of pay shall be included as payroll. The Premium Portion of Overtime Pay shall be excluded from the payroll only in the following situations:

- (1) Employers (other than operators of athletic teams) maintain records that show separately by employee and in summary by type of operation performed either:
 - (a) remuneration earned at regular rates of pay for all hours worked and the Premium Portion of Overtime Pay, or
 - (b) remuneration earned at regular rates of pay for all non-overtime hours worked and total remuneration earned for overtime hours.
- (2) Employers that are operators of an athletic team maintain records that show the average regular rate of remuneration earned per game for the regular season and remuneration received for each playoff, championship or similar post-season game.

Employers engaged in farming operations where employees are paid on a price per unit (piecework), contract or measure basis shall not deduct any payroll as the Premium Portion of Overtime Pay; payroll shall be based upon the total remuneration earned by such persons. Refer to Section IV, *Special Industry Classification Procedures*, Rule 4b, *Payroll (Farms)*.

Example 1 – Premium Portion of Overtime Pay Shown Separately

The employer compensates its workers on an hourly basis. The employer records the total hours worked at the regular rate of pay and the overtime hours worked at the overtime premium rate. An employee is paid a regular hourly rate of \$20.00 per hour. The worker works 9 hours per day, or 45 hours in a 5-day week. The worker was paid 1/2 times the regular rate for five overtime hours.

Regular Pay – 45 total hours x \$20.00 per hour = \$900.00

Overtime Premium Rate – \$20.00 x 1/2 = \$10.00 per hour

Premium Portion of Overtime Pay – \$10.00 x 5 hours overtime = \$50.00

Total Payroll before Potential Adjustment – \$900.00 (Regular Pay) + \$50.00 (Premium Portion of Overtime Pay) = \$950.00

Reportable Payroll (if conditions are met) – \$950.00 – \$50.00 (Premium Portion of Overtime Pay) = \$900.00

Part 3 – Standard Classification System

Section V – Payroll – Remuneration

In Example 1, the \$50.00 paid to the employee as the Premium Portion of Overtime Pay is eligible for exclusion.

Example 2 – Premium Portion of Overtime Pay Not Shown Separately

The employer compensates its workers on an hourly basis. The employer records the total hours worked at the regular rate of pay and the total overtime hours worked at the overtime rate (regular rate plus the overtime premium rate). An employee is paid a regular hourly rate of \$20.00 per hour. The worker works 9 hours per day, or 45 hours in a 5-day week. The worker was paid an overtime rate of 1-1/2 times the regular rate for five overtime hours.

Regular Pay – 40 regular hours x \$20.00 per hour = \$800.00

Overtime Rate – \$20.00 x 1.5 = \$30.00 per hour (\$20.00 Regular Rate + \$10.00 Overtime Premium Rate)

Overtime Payment – \$30.00 x 5 hours overtime = \$150.00

Premium Portion of Overtime Pay – \$150.00 x 1/3 = \$50.00

Total Payroll before Potential Adjustment – \$800.00 (Regular Pay) + \$150.00 (Overtime Payment) = \$950.00

Reportable Payroll (if conditions are met) – \$950.00 – \$50.00 (Premium Portion of Overtime Pay) = \$900.00

In Example 2, the \$50.00 paid to the employee as the Premium Portion of Overtime Pay is eligible for exclusion. The fraction used to determine the Premium Portion of Overtime Pay will vary depending on the overtime premium rate. For example, overtime may be paid at 1-1/2 times, 2 times or some other multiplier of the regular rate of pay. In this example, the worker was paid at 1-1/2 times the regular rate, so one-third (1/3) of the overtime payment is the Premium Portion of Overtime Pay.

Example 3 – Piecework or Commission

When the employer compensates its workers on a piece rate or commission basis in accordance with California wage and hour laws, refer to the piecework and commission wage calculation examples published by the Department of Industrial Relations, and in the Division of Labor Standards Enforcement (DLSE) Enforcement Policies and Interpretations Manual to calculate the regular rate of pay. The portion of overtime earnings that is above and in addition to the regular rate of pay is eligible for exclusion as the Premium Portion of Overtime Pay if the conditions of this rule are met.

d. Tips

Tips, voluntary or prepaid, received from other than the employer or one acting on behalf of the employer are not to be included in the payroll. With respect to an employer who operates a club, payments to club employees of funds accumulated from voluntary contributions of club members for services afforded to such members shall be considered tips and not included in the payroll.

e. Severance Pay

Except as noted herein, payments to which an employee is only entitled due to the termination of the employment relationship are not included as payroll. Payments, such as retention bonuses, that incentivize employees to remain employed for a period of time, including through termination, are included as payroll. In addition, sums, such as commissions, bonuses and accrued vacation and sick pay, paid to an employee at the time the employment relationship is terminated are included in the payroll, provided such sums would have been payable to the employee at some future date if the employment relationship had not been terminated. Such sums accrued during periods for which the employer was legally self-insured shall not be included as payroll.

f. Employer Contributory Payments

Contributory payments made by the employer in connection with group insurance, Qualified or Non-Qualified Employee Stock Purchase Plans (ESPP), qualified retirement plans, the exercise of stock

Part 3 – Standard Classification System**Section V – Payroll – Remuneration**

options other than the cashless exercise of stock options, and deferred compensation plans shall not be included as remuneration.

Payout of deferred compensation to current employees from an employer's contributions to previously deferred payroll shall be included as remuneration. Payout of deferred compensation to retired or terminated employees who are not employed during the current policy period shall not be included as remuneration provided the employer maintains records that segregate such payments.

Payments by an employer in connection with an employee's cashless exercise of stock options shall be included as remuneration.

Payments by an employer of amounts otherwise required by law to be paid by employees to statutory insurance or pension plans, such as the Federal Social Security Act, shall be included as remuneration.

g. **Salary Reduction and Cafeteria Benefit Plans**

The amount by which an employee's salary is reduced to fund a pension, deferred compensation plan, equity-based compensation plan, Qualified or Non-Qualified Employee Stock Purchase Plan (ESPP), stock options or other employee-elected deferral plan shall be included as remuneration when earned even though such plan is a portion of a cafeteria plan. The amount by which an employee's salary is reduced to fund the welfare or fringe benefit portion of a cafeteria plan qualified under Section 125 of the Internal Revenue Code shall not be included as remuneration provided the employer's books and records are maintained to show separately such amounts by employee and in summary by type of operation performed.

h. **Automobiles**

The value of an automobile furnished to an employee is not to be included in the payroll, provided the automobile is used in the conduct of the employer's business. A reimbursement to an employee for the business use of a personal automobile using a stipulated amount shall not be reported as payroll, provided the payments do not exceed the approved Internal Revenue Service (IRS) standard mileage rate for business use of a personal vehicle. An automobile allowance paid to an employee shall be included in the payroll; however, that portion of the allowance, which the employer can show is reimbursement for actual expenses incurred by the employee in the conduct of the employer's business, shall be excluded from the payroll.

i. **Risk of Loss Under Both California Laws and the United States Longshore and Harbor Workers' Compensation Act**

When an employer conducts operations that expose the employer to liability under both the California workers' compensation laws and the United States Longshore and Harbor Workers' Compensation Act, the payroll for California workers' compensation insurance shall be based upon the remuneration earned for the California operation. When the operations of a single employee expose the employer to liability under both Acts, the California workers' compensation insurance payroll for that employee shall be based only upon the employee's California earnings. If no payroll segregation is maintained, the payroll shall be apportioned between California operations and United States Longshore and Harbor Workers' Compensation Act operations, based upon a reasonable estimate.

j. **Executive Officers**

The entire remuneration earned by each executive officer during the policy period shall be used as the payroll, subject to a minimum remuneration of \$54,600 per annum and a maximum remuneration of \$139,100 per annum for each executive officer covered under the policy. This provision also applies to executive officers of a corporation while the corporation is covered as a member of a partnership or joint venture operation and to executive officers of a limited liability company.

"Executive officers", as used herein, means those officers of a corporation or a limited liability company commonly known and styled as president, vice president, secretary, assistant secretary, treasurer or assistant treasurer and shall include, in addition thereto, any other executive officers

Part 3 – Standard Classification System**Section V – Payroll – Remuneration**

enumerated in and empowered by the charter or any regularly adopted by-laws of the corporation and who are elected or appointed and empowered by the directors or set forth in the operating agreement of a limited liability company.

When such persons are not executive officers during the entire policy period, the payroll limitation shall be prorated based upon the number of weeks that such persons were executive officers during the policy period. (See example after Subrule m, *Members of a Limited Liability Company*, below.)

k. Partners

If the policy covers one or more partners as employee(s) during the policy period, the entire remuneration earned by such partner(s) during such coverage (including the annual amount of wages, salary, emoluments or profits of each such partner) shall be included in the payroll, subject to a minimum remuneration of \$54,600 per annum and a maximum remuneration of \$139,100 per annum for each partner so included. This provision also applies to partners of a partnership while such partnership is covered as a member of another partnership or joint venture.

When such persons are not partners during the entire policy period, the payroll limitation shall be prorated based upon the number of weeks that such persons were partners during the policy period. (See example after Subrule m, *Members of a Limited Liability Company*, below.)

l. Individual Employers

If an individual employer is covered under the policy, the entire remuneration earned by such person during the policy period (including the annual amount of wages, salary, emoluments or profits of such person) shall be included in payroll, subject to a minimum remuneration of \$54,600 per annum and a maximum remuneration of \$139,100 per annum for such person.

When such person is not an individual employer during the entire policy period, the payroll limitation shall be prorated based upon the number of weeks that such person was an individual employer during the policy period. (See example after Subrule m, *Members of a Limited Liability Company*, below.)

The entire remuneration earned by such individual, subject to the above qualification, shall be assigned without division to the highest rated classification described below:

- (1) A classification that describes any duty undertaken by the individual for any part of the time;
- (2) The governing classification; and
- (3) Provided further that in connection with general contracting, such pure premium rate shall in no event be less than that for Classification 5606, *Contractors – construction or erection – executive level supervisors*.

m. Members of a Limited Liability Company

If the policy covers one or more members as employee(s) during the policy period, the entire remuneration earned by such member(s) during such coverage (including the annual amount of wages, salary, emoluments or profits of each such member) shall be included in the payroll, subject to a minimum remuneration of \$54,600 per annum and a maximum remuneration of \$139,100 per annum for each member so included. This provision also applies to managers of a limited liability company when the limited liability company is manager-managed.

When such persons are not members or managers during the entire policy period, the payroll limitation shall be prorated based upon the number of weeks that such persons were members or managers during the policy period.

Examples – for Subrules j, k, l and m

A person joined a partnership as a partner effective week 27 of a 52-week policy period. The person did not work as an employee prior to becoming partner. The partner drew only \$400 per week as partner and no other earnings were distributed to the partner. (\$400 x 26, or \$10,400, was drawn during the policy period.) The prorated weekly minimum payroll for partners based upon Subrule k, above, is

Part 3 – Standard Classification System**Section V – Payroll – Remuneration**

more than \$10,400 ($\$54,600 \div 52 \times 26 = \$27,300$). The reportable payroll for this partner must therefore be increased by \$16,900 to equal the prorated minimum remuneration for this person's 26 weeks as partner ($\$10,400 + \$16,900 = \$27,300$).

An employee is promoted to an executive officer position effective week 40 during a 52-week policy period. The individual was paid an annual salary of \$150,000 for the policy period. Payroll for weeks 1 through 39 is \$112,500. The earnings for the 13-week period as executive officer are reduced to the prorated executive officer maximum remuneration based upon Subrule j above ($\$139,100 \div 52 \times 13 = \$34,775$). The total reportable payroll for this individual is $\$112,500 + \$34,775 = \$147,275$.

n. **Volunteers**

Except as otherwise provided herein, the payroll for each volunteer who serves without pay and who is subject to the Workers' Compensation Act in accordance with Sections 3363.5 or 3363.6 of the California Labor Code shall be computed as though such volunteer received the same remuneration as normally received by a regular employee of the employer doing the same or similar work.

o. **Welfare Funds**

The Federal Davis-Bacon Act and other state and local government prevailing wage laws stipulate that contractors pay specified minimum wage rates and specified fringe benefit rates (for health and welfare, vacation/holiday pay, etc.). The amount designated for fringe benefits may be paid into an approved fund or to a third-party administrator to purchase fringe benefits, or paid directly to the employee as taxable wages in lieu of benefits. All amounts paid to employees as taxable wages in lieu of benefits are considered reportable remuneration. With the exception of vacation and holiday pay which are considered reportable remuneration, fringe benefits that are paid into an approved fund or to a third-party administrator to purchase fringe benefits are not considered reportable remuneration.

p. **Payroll for Executive Officers, Partners, or Members and Managers of Multiple Entities Insured by Two or More Combinable Policies**

If the operations of a corporation, partnership or limited liability company, or of two or more corporations, partnerships or limited liability companies, or any combination thereof, are combinable for experience rating purposes in accordance with the provisions of Section IV, *Change in Status and Combination of Entities*, Rule 2, *Combination of Entities*, of the Experience Rating Plan and are insured by two or more policies issued by either the same insurer or by separate insurers, Rule 1, Subrules j, k and m, above, shall be applied so as to develop the same classification(s) and payroll for covered executive officers, partners, and members and managers of limited liability companies as would have been developed if all such operations had been insured by a single policy.

q. **Stock Options and Stock Purchase Plans**

The amount by which an employee's salary is reduced to contribute to the purchase of stock options or Qualified or Non-Qualified Employee Stock Purchase Plans (ESPP) shall be included as remuneration when earned. The difference between the market price of stock and any discounted price paid by the employee to purchase the stock shall not be included as remuneration. Contributory payments made by the employer in connection with the exercise of stock options or Qualified or Non-Qualified Employee Stock Purchase Plans (ESPP), other than the cashless exercise of stock options, shall not be included as remuneration (see Subrule f, *Employer Contributory Payments*).

Payments by an employer in connection with an employee's cashless exercise of stock options shall be included as remuneration.

r. **Equity-Based Compensation Plans (Other Than Stock Options and Stock Purchase Plans)**

The value of equity-based compensation plans (other than Stock Options and Stock Purchase Plans), including but not limited to Stock Transfers, Stock Warrants, Restricted Stock, Restricted Stock Units, Phantom Stock Plans and Stock Appreciation Rights, shall be included as remuneration at the time of vesting when vesting is on a scheduled or annual basis, such as graded vesting or scheduled cliff

Part 3 – Standard Classification System

Section V – Payroll – Remuneration

vesting, or when the vesting is based on the achievement of performance goals or milestone anniversaries. The amount by which an employee's salary is reduced to contribute to an equity-based compensation plan shall be included as remuneration. The market value of equity-based compensation plans shall not be included as remuneration when accelerated cliff vesting is triggered by (1) an Initial Public Offering (IPO) of stock, or (2) a change in majority ownership where the owner(s) prior to the change own less than a one-half interest after the change.

2. Payroll Records

If the employer fails to keep complete and accurate records of the remuneration earned by all officers and employees in sufficient detail to permit the proper classification of payroll in accordance with the provisions contained herein and to make them available for examination by the insurer, the total remuneration earned shall be assigned to the highest rated classification describing any part of the work.

3. Division of Single Employee's Payroll

When any location of an employer's business is classified on a divided payroll basis in accordance with the provisions contained herein, the remuneration of any one employee may be divided between two or more classifications, provided the employer has maintained complete and accurate records supported by original time cards or time book entries which show separately, both by individual employee and in summary by operations performed, the remuneration earned by such employee, except such division SHALL NOT BE ALLOWED:

- In connection with the Standard Exception classifications, which must be assigned in accordance with the specific rules under this Plan.
- If the division is contrary to classification phraseology.

If the employer fails to keep complete and accurate records as provided in this rule, the entire remuneration of the employee shall be assigned to the highest rated classification applicable to any part of the work performed by the employee. Payroll may not be divided by means of percentages, averages, estimates, or any basis other than specific time records.

If the employer's business is classified on a divided payroll basis as defined in this rule, payments, such as vacation pay and bonus pay, made on a basis other than actual hours worked shall be apportioned among the classifications applicable to the employee's payroll based on the actual per hour earnings in the classifications.

Example

An employee's hourly wages are divided between Classifications 2883 and 9522 as shown below. During the pay period, the employee receives \$150.00 in vacation pay and a bonus of \$500.00. The vacation pay and the bonus are apportioned among Classifications 2883 and 9522 based on the distribution of payroll earned on an hourly basis in these classifications. The payroll earned on an hourly basis in Classification 2883 is 68% of the payroll for Classifications 2883 and 9522 combined ($\$560.00 / \$824.00 = 68\%$). Therefore, \$102.00 of vacation pay ($\$150.00 \text{ vacation pay} \times 68\% = \102.00) and \$340.00 of bonus pay ($\$500.00 \text{ bonus pay} \times 68\% = \340.00) is apportioned to Classification 2883. The payroll earned on an hourly basis in Classification 9522 is 32% of the payroll for Classifications 2883 and 9522 combined ($\$264.00 / \$824.00 = 32\%$). Therefore, \$48.00 of vacation pay ($\$150.00 \text{ vacation pay} \times 32\% = \48.00) and \$160.00 of bonus pay ($\$500.00 \text{ bonus pay} \times 32\% = \160.00) are apportioned to Classification 9522.

Work Record				
Operation	Hours	Rate per Hour	Payroll	% of Payroll for Hours Worked
Furniture Mfg. – wood – 2883	28	20	\$560.00	68%
Furniture Upholstering – 9522	12	22	\$264.00	32%

4. Drivers' and Their Helpers' Payroll

Drivers and their helpers shall mean employees whose principal duties are performed in connection with the operation of motor vehicles. When drivers own or furnish vehicles such as, but not limited to, log trucks, tractor/trailer rigs, furniture vans, and bobtail trucks that have a gross vehicle weight rating of 10,000 pounds or more and pay the operating expenses in connection therewith, no less than twenty-five percent (25%) of the total amount paid for the hire of such vehicles and their operating crews shall be deemed to be the payroll of such drivers and their helpers.

When drivers own or furnish vehicles such as, but not limited to, motorcycles, passenger cars, vans, pickup trucks, sport utility vehicles and minivans that have a gross vehicle weight rating less than 10,000 pounds and pay the operating expenses in connection therewith, and when said drivers are not reimbursed for the business use of the vehicle under an accountable plan, no less than sixty percent (60%) of the total amount paid for the hire of such vehicles and drivers shall be deemed to be payroll.

The term "gross vehicle weight rating" means the weight in pounds specified by the manufacturer as the loaded weight of a single motor vehicle. Typically, passenger vehicles, such as cars, light-duty trucks, vans, and sport utility vehicles, have a gross vehicle weight rating less than 10,000 pounds. In cases where the vehicle is not equipped with a plate or marker showing the manufacturer's gross vehicle weight rating, a vehicle having less than six wheels shall be deemed the equivalent of a vehicle having a gross vehicle weight rating of less than 10,000 pounds, and a vehicle having six wheels or more shall be deemed the equivalent of a vehicle having a gross vehicle weight rating of 10,000 pounds or more.

The term "accountable plan" means a method of reimbursing an employee for the business use of a vehicle owned or furnished by said employee and used in the conduct of the employer's business that is based upon (a) actual business miles driven by such employee or (b) actual receipts for vehicle expenses and mileage records documenting the business and personal use of the vehicle. Reimbursements under an accountable plan shall not exceed the IRS standard business mileage rate unless fully supported by actual receipts for the business use of the vehicle.

Part 3 – Standard Classification System**Section VI – Administration of Classification System**

Section VI – Administration of Classification System**1. Inspection of Employer's Premises**

- a. The WCIRB has authority to inspect the premises of any employer for classification assignment purposes.
- b. The WCIRB shall be responsible for conducting a comprehensive inspection program to ensure that insurers use the proper classifications in reporting payroll and losses.
- c. Questions concerning the WCIRB's inspection program may be directed to:

2. Notification of Standard Classification Assignment

If the WCIRB has made a classification assignment as the result of a WCIRB inspection, notice of the classification(s) assigned to the employer shall be published by providing the inspection report to either the insurer of record at the time the inspection was conducted, or the insurer of record at the time the report is released. The WCIRB shall provide a copy of the inspection report to the employer within 30 days from the date the inspection report is published.

The insurer of record shall be entitled to a copy of the inspection report without charge. Additional copies of the inspection report may be made available to authorized parties at a fee and in a manner to be determined by the WCIRB.

An insurer is not relieved of the obligation to report an applicable WCIRB classification assignment because of lack of knowledge that notice has been published by the WCIRB.

3. Effective Date of Standard Classification Assignments

- a. If the classification assignment represents a reclassification of the employer's operations that is not the result of a change of operations or a reallocation or assignment of payroll to existing classifications on the policy, the classification shall be published and effective as follows:
 - (1) If the classification carries a pure premium rate that is higher than that of the erroneous classification, it shall be effective as of the effective date of the erroneous classification assignment provided:
 - (a) the classification assignment is published within three (3) months of the effective date of the erroneous assignment;
 - (b) the WCIRB was notified, in writing, within three (3) months of the effective date of the erroneous assignment of a possible error; or
 - (c) the WCIRB notified the insurer of record, in writing, within three (3) months of the effective date of the erroneous assignment that the erroneous assignment was under review.

Otherwise, the revised assignment shall be effective as of the date it is published, unless it is published less than three (3) months prior to the expiration of the outstanding policy, in which case it shall be effective as of the inception date of the policy, which replaces the outstanding policy.

- (2) If the classification carries a pure premium rate that is lower than that of the erroneous classification, it shall be effective as of the inception date of a policy outstanding on the date the insurer of record is notified by the WCIRB, in writing, that the erroneous assignment is under

Part 3 – Standard Classification System

Section VI – Administration of Classification System

- review. The assignment also shall be applied as of the inception date of a policy that expired no more than twelve (12) months prior to the date the assignment was published or the insurer of record was notified by the WCIRB, in writing, that the erroneous assignment was under review, provided the erroneous assignment was applicable to such policy.
- b. A classification assignment, due to a change of operations, shall be published and effective as of the date of the change of operations, regardless of the resulting pure premium rate.
 - c. A reallocation or assignment of payroll to existing classifications on a policy shall be effective as of the inception date of the policy.

4. Audit of Payroll

The audit and assignment of payroll shall be governed by the rules and classifications contained herein and the approved pure premium rates, subject to the following specific requirements:

- a. The insurer shall audit the employer's records for the purpose of determining the payroll in accordance with the following (See Part 1, Section II, *General Definitions*, for the definition of "Physical Audit" and "Voluntary Audit" and Part 4, Section II, *Definitions*, for the definition of "Final Premium(s)"):
 - (1) Each policy producing a final premium of \$10,500 or more shall be subject to a physical audit at least once a year. On policies subject to monthly, quarterly, or semi-annual interim audits, voluntary audits may be accepted in lieu of interim physical audits. The last audit of the policy shall be a physical audit of the complete policy period.
 - (2) Each policy producing a final premium of less than \$10,500 shall be physically audited at sufficient intervals to ensure determination of proper payrolls. For each policy that is not physically audited, a voluntary audit shall be performed.
 - (3) Each policy producing a final premium of less than \$10,500 and developing exposure in a dual wage construction or erection classification that requires the regular hourly wage to equal or exceed a specified amount shall be physically audited, unless the policy is a renewal and the insurer physically audited one of the two immediately preceding policy periods.
 - (4) Notwithstanding the above, a physical audit shall be conducted on the complete policy period of each policy insuring the holder of a C-39 license from the Contractors State License Board. See California Insurance Code Section 11665(a) for additional requirements regarding the audit of C-39 license holders.
 - (5) In every instance, the audit report shall show the source or sources from which the payrolls were obtained.
- b. If a policy is not audited as required by this rule, the insurer shall comply with the rules for reporting unaudited exposure on unit statistical reports found in Part 4, Section III, Rule 5, *Estimated Audit Code*, and Section IV, Rule 4, *Exposure Amount*, of this Plan.

5. Test Audits

The WCIRB conducts test audits of insured employers' payrolls and insurers' audits of those payrolls to (1) check the accuracy and reliability of insurers' audits and (2) examine all records relative to the insurers' audits and the premises of insured employers in order to ensure the accurate reporting of exposures and application of experience modifications, if any, by insurers pursuant to this Plan.

- a. WCIRB test audits may include:
 - (1) An examination of an insurer's entire records relating to the audits of payroll and the classification of claims.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

- (2) An examination of an employer's entire record of payroll and all other records relating thereto in order to determine the proper amounts and allocation of such payroll in accordance with the provisions of this Plan.
- (3) An examination of an employer's records in order to determine the proper allocation of losses to their respective classifications in accordance with the provisions of this Plan.
- b. In order to accomplish the purposes of this Plan, each insurer shall constitute the WCIRB its representative to inspect and examine the employer's records pursuant to the terms of its policies.

Section VII – Standard Classifications**1. Classification Section**

This section contains an alphabetical listing of classifications that describe most occupations, employments, industries and businesses. The classifications are organized as follows:

- a. Industry Groups

Some classifications are grouped alphabetically under industry groupings to assist users in identifying and assigning classifications within similar industries. Construction-related classifications are listed in Appendix I, *Construction and Erection Classifications*. The following other industry groups are incorporated into the classifications listed in Rule 2, *Standard Classifications*, below:

- (1) Aircraft Operation
- (2) Automotive Industry
- (3) Electronics Industry
- (4) Farms
- (5) Food Packaging and Processing
- (6) Health and Human Services
- (7) Metal Working Classifications
- (8) Mining
- (9) Municipal, State or Other Public Agencies
- (10) Petroleum Industry
- (11) Plastic Products Manufacturing
- (12) Printing, Publishing and Duplicating
- (13) Property Management/Operation
- (14) Recycling and Refuse Management
- (15) Sign Industry
- (16) Stores

- b. Classification Phraseology/Classification Code

The classification phraseology and its corresponding classification code are in boldface type.

- c. Footnotes

Footnotes are in regular type and are located after the classification phraseology. Footnotes give directives regarding the application of the classification or indicate activities that are subject to separate classifications.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

d. Classification Code and Suffix

The classification code is a four-digit code used for reporting the payroll and losses developed for the classification. A numerical suffix indicates that the classification code is listed under more than one wording and associates the code with a specific phraseology.

2. Standard Classifications

Part 3 – Standard Classification System**Section VII – Standard Classifications****A**

ADVERTISING COMPANIES – outdoor – selling space for advertising purposes – including shop, yard or storage operations; the erection, painting, repair and maintenance, or removal of signs; bill posting; and sign painting or lettering in or upon buildings or structures **9549**

This classification includes the production of signs, banners and related products by advertising companies and the operation of mobile billboard trucks (mobile advertising signs).

The application of painted or adhesive lettering or graphics onto surfaces on a fee basis or onto customer vehicles by employers engaged in sign painting or lettering shall be classified as 9507, *Sign Painting or Lettering and Quick Sign Shops*.

The display of hand-held advertisement signs and walking billboards (human sign holders) at locations, including but not limited to sidewalks and street corners shall be classified as 8742, *Salespersons – Outside*, subject to the Standard Exceptions rule. See Section III, Rule 4, *Standard Exceptions*.

AERIAL LINE CONSTRUCTION – by contractor – not power lines **7601**

This classification applies to the construction, maintenance or repair of aerial lines for telephone, television, communication, data, fire alarm or similar low voltage or fiber optic networks. Such operations include but are not limited to erecting poles, stringing wires, installing transmission equipment on poles and making service connections. This classification also applies to splicing overhead telephone or cable television lines.

The construction, maintenance or repair of aerial lines by electric power companies or Federal Communications Commission licensed telephone or cable television companies in connection with their own operations shall be classified as 7539, *Electric Power Companies*, or 7600, *Communication Service Providers*.

Splicing fiber optic cables at ground level for other concerns on a fee basis shall be classified as 5195, *Communications Cabling*.

Underground line construction for other concerns on a fee basis shall be classified as 6325, *Conduit Construction or Underground Wiring*.

The construction of high voltage aerial power lines for other concerns on a fee basis shall be separately classified as 7538, *Electric Power Line Construction*.

AIR CONDITIONING OR REFRIGERATION EQUIPMENT MFG. **3165(1)**

This classification applies to the manufacture or shop repair of commercial refrigeration equipment, air conditioners, air conditioning coils, evaporative coolers, ice vending machines, automobile air conditioning units or laminar clean air systems.

The installation, service or repair of commercial refrigeration equipment, when any portion of these operations is performed away from the shop, shall be classified as 5183(2)/5187(2), *Refrigeration Equipment – not household units*.

The manufacture or shop repair of self-contained metal refrigerators or freezers, refrigerated drink dispensing machines, refrigerated drinking fountains or refrigerated ice cream cabinets shall be classified as 3165(2), *Refrigerator Mfg.*

The installation, service or repair of heating or air conditioning equipment, when any portion of these operations is performed away from the shop, shall be classified as 5183(3)/5187(3), *Heating or Air Conditioning Equipment*, provided no ductwork installation is performed by the employer at the same job or location. The installation or repair of heating or air conditioning

Part 3 – Standard Classification System**Section VII – Standard Classifications**

equipment where ductwork installation is performed by the employer at the same job or location shall be classified as 5538(2)/5542(2), *Heating or Air Conditioning Ductwork*.

The installation, service or repair of household refrigerators, freezers, dehumidifiers, or portable air conditioning units shall be classified as 9519(1), *Household Appliances*.

The installation or repair of automobile air conditioning systems or truck refrigeration units involving work directly on automobiles or trucks shall be classified as 8389, *Automobile or Truck Repair Facilities*.

AIRCRAFT ENGINE MFG. OR REBUILDING**3805(1)**

Employers that remove or install engines or otherwise work directly on the aircraft shall be classified as 7428(3), *Aircraft Remanufacture, Conversion, Modification and Repair Companies*.

The manufacture or repair of machined aircraft components and accessories (not aircraft engines) by employers approved by the Federal Aviation Administration shall be classified as 3831, *Machine Shops – aircraft components*, in accordance with the provisions of the Multiple Enterprises rule.

AIRCRAFT OPERATION

Refer to Section IV, *Special Industry Classification Procedures*, Rule 1, *Aircraft Operation*.

AIRCRAFT OPERATION – agricultural – dusting, spraying or seeding – members of the flying crew**7409**

This classification applies to members of the flying crew of employers engaged in the aerial application of materials, including but not limited to pesticides, insecticides, fungicides, fertilizers, herbicides and seeds onto farmlands. This classification also includes the aerial application of insecticides for mosquito control purposes.

Also refer to companion Classification 7410, *Aircraft Operation – agricultural – dusting, spraying or seeding – not members of the flying crew*.

AIRCRAFT OPERATION – agricultural – dusting, spraying or seeding – not members of the flying crew**7410**

This classification applies to the ground operations of employers engaged in the aerial application of materials, including but not limited to pesticides, insecticides, fungicides, fertilizers, herbicides and seeds onto farmlands. This classification also includes the ground operations of employers engaged in the aerial application of insecticides for mosquito control purposes. Ground operations include but are not limited to mixing and loading materials onto the aircraft, directing pilots during application of materials and aircraft fueling, service and repair.

This classification also applies to the operating crew of Unmanned Aircraft Systems (aerial drones) with an aircraft system and payload total combined weight of 55 pounds or heavier used for agricultural operations, including but not limited to dusting, spraying and seeding, in accordance with the General Exclusions rule. See Section III, Rule 6, *General Exclusions*.

The operating crew of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier used for other than agricultural operations shall be separately classified as 7428(1), *Aircraft Operation – other than agricultural or scheduled air carriers – not members of the flying crew*, in accordance with the General Exclusions rule. See Section III, Rule 6, *General Exclusions*.

The operating crew of Unmanned Aircraft Systems (aerial drones) with a total combined weight of less than 55 pounds shall be classified in accordance with Section III, Rule 5, *General Inclusions*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The shop repair of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier by the manufacturer shall be classified as 3830(2), *Unmanned Aircraft System Mfg.*

The repair of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier on a fee basis, or repair work performed by the manufacturer away from shop shall be classified as 7428(3), *Aircraft Remanufacture, Conversion, Modification and Repair Companies.*

Unmanned Aircraft Systems (aerial drones) operating crew members working remotely from an office location with no exposure outside of the clerical office shall be classified as 8810, *Clerical Office Employees*, subject to the Standard Exceptions rule. See Section III, Rule 4, *Standard Exceptions.*

Also refer to companion Classification 7409, *Aircraft Operation – agricultural – dusting, spraying or seeding – members of flying crew.*

AIRCRAFT OPERATION – flight schools and pilot training – members of the flying crew	7424(2)
--	----------------

This classification applies to members of the flying crew of employers that provide flight instruction or training.

Instructors who are not members of the flying crew shall be separately classified as 8868, *Colleges or Schools – private – not automobile schools – professors, teachers, or academic professional employees.*

Also refer to companion Classification 7428(2), *Aircraft Operation – flight schools and pilot training – not members of the flight crew.*

AIRCRAFT OPERATION – flight schools and pilot training – not members of the flying crew – including gate and ticket counter personnel at airports	7428(2)
--	----------------

This classification applies to the ground operations of employers that provide flight instruction or training. Ground operations include but are not limited to loading or unloading baggage or freight; assisting passengers with boarding or disembarking the aircraft; assisting passengers with ticket information or checking baggage; and aircraft fueling, service or repair.

Instructors who are not members of the flying crew shall be separately classified as 8868, *Colleges or Schools – private – not automobile schools – professors, teachers or academic professional employees.*

Also refer to companion Classification 7424(2), *Aircraft Operation – flight schools and pilot training – members of the flying crew.*

AIRCRAFT OPERATION – other than agricultural or scheduled air carriers – members of the flying crew – N.O.C.	7424(1)
---	----------------

This classification applies to members of the flying crew of employers engaged in aircraft operations that are not more specifically described by another *Aircraft Operation* Industry Group classification, including but not limited to charter passenger or cargo air transport; air ambulance services; air freight services (nonscheduled); aerial firefighting; aerial exhibitions; aerial patrol; aerial advertising, skywriting, sightseeing and survey work; aerial log lifting and transport; and aerial news reporting.

Also refer to companion Classifications 7428(1), *Aircraft Operation – other than agricultural or scheduled air carriers – not members of the flying crew*, and 7428(3), *Aircraft Remanufacture, Conversion, Modification and Repair Companies.*

Part 3 – Standard Classification System**Section VII – Standard Classifications****AIRCRAFT OPERATION – other than agricultural or scheduled air carriers – not members of the flying crew – including gate and ticket counter personnel at airports – N.O.C. 7428(1)**

This classification applies to the ground operations of employers engaged in aircraft operations not more specifically described by another *Aircraft Operation* Industry Group classification, including but not limited to charter passenger or cargo air transport; air ambulance services; air freight services (nonscheduled); aerial firefighting; aerial exhibitions; aerial patrol; aerial advertising, skywriting, sightseeing or survey work; aerial log lifting and transport; and aerial news reporting. Ground operations include but are not limited to loading or unloading baggage or freight; assisting passengers with boarding or disembarking the aircraft; assisting passengers with ticket information or checking baggage; and aircraft fueling, service or repair.

This classification also applies to the operating crew of Unmanned Aircraft Systems (aerial drones) with an aircraft system and payload total combined weight of 55 pounds or heavier used for other than agricultural operations, in accordance with the General Exclusions rule. See Section III, Rule 6, *General Exclusions*.

The operating crew of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier used for agricultural operations, including but not limited to dusting, spraying or seeding, shall be separately classified as 7410, *Aircraft Operation – agricultural – dusting, spraying or seeding – not members of the flying crew*, in accordance with the General Exclusions rule. See Section III, Rule 6, *General Exclusions*.

The operating crew of Unmanned Aircraft Systems (aerial drones) with a total combined weight of less than 55 pounds shall be classified in accordance with Section III, Rule 5, *General Inclusions*.

The shop repair of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier by the manufacturer shall be classified as 3830(2), *Unmanned Aircraft System Mfg.*

The repair of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier on a fee basis, or repair work performed by the manufacturer away from shop shall be classified as 7428(3), *Aircraft Remanufacture, Conversion, Modification and Repair Companies*.

Unmanned Aircraft Systems (aerial drones) operating crew members working remotely from an office location with no exposure outside of the clerical office shall be classified as 8810, *Clerical Office Employees*, subject to the Standard Exceptions rule. See Section III, Rule 4, *Standard Exceptions*.

Instructors who are not members of the flying crew shall be separately classified as 8868, *Colleges or Schools – private – not automobile schools – professors, teachers or academic professional employees*, and ground photographic laboratory employees shall be separately classified as 4361(1), *Photographers*.

Also refer to companion Classification 7424(1), *Aircraft Operation – other than agricultural or scheduled air carriers – members of the flying crew*.

AIRCRAFT OPERATION – scheduled passenger or cargo air carriers – members of the flying crew 7405

This classification applies to members of the flying crew of commercial airlines engaged in the air transport of passengers or cargo on a scheduled basis. This classification also applies to members of the flying crew of airlines or aircraft operators that operate scheduled air routes on a contract basis.

Members of the flying crew in support of passenger or cargo air transport on a charter basis shall be classified as 7424(1), *Aircraft Operation – other than agricultural or scheduled air carriers – members of the flying crew*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Also refer to companion Classification 7403, *Aircraft Operation – scheduled passenger or cargo air carriers – not members of the flying crew.*

AIRCRAFT OPERATION – scheduled passenger or cargo air carriers – not members of the flying crew – including gate and ticket counter personnel at airports **7403**

This classification applies to the ground operations of commercial airlines engaged in the air transport of passengers or cargo on a scheduled basis. Ground operations include but are not limited to loading or unloading baggage or freight; assisting passengers with boarding or disembarking the aircraft; assisting passengers with ticket information or checking baggage; and aircraft fueling, service or repair. This classification also applies to ground operations in support of airlines or aircraft operators that operate scheduled air routes on a contract basis.

Ground operations in support of passenger or cargo air transport on a charter basis shall be classified as 7428(1), *Aircraft Operation – other than agricultural or scheduled air carriers – not members of the flying crew.*

Also refer to companion Classification 7405, *Aircraft Operation – scheduled passenger or cargo air carriers – members of the flying crew.*

AIRCRAFT OPERATION – transportation of personnel in the business of an employer not otherwise engaged in aircraft operation – members of the flying crew **7421**

AIRCRAFT OR SPACECRAFT MFG. – including foundry operations **3830(1)**

This classification applies to the manufacture of aircraft, including but not limited to fixed wing airplanes and helicopters. This classification also applies to the manufacture of aerospace products, including but not limited to missiles, rockets and other spacecraft. This classification also applies to the manufacture of light sport aircraft and hang gliders.

This classification includes foundry operations performed in connection with the aircraft or spacecraft manufacturing operations.

All members of the flying crew for aircraft operations, including but not limited to test flight operations performed by the manufacturer shall be classified in accordance with Section III, Rule 6, *General Exclusions*.

The manufacture of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier shall be classified as 3830(2), *Unmanned Aircraft System Mfg.*

The manufacture of Unmanned Aircraft Systems (aerial drones) with a total combined weight of less than 55 pounds shall be classified as 3681(1), *Instrument Mfg. – electronic.*

The manufacture of communication satellites shall be classified as 3681(3), *Telecommunications Equipment Mfg.*

Aircraft engine manufacturing or rebuilding not in connection with aircraft manufacturing by the same employer shall be classified as 3805(1), *Aircraft Engine Mfg. or Rebuilding.*

The manufacture or repair of machined aircraft components performed by employers that are approved by the Federal Aviation Administration, when such operations are not performed directly on the aircraft or in connection with components that are removed from and later reinstalled on the aircraft, shall be classified as 3831, *Machine Shops – aircraft components.*

The repair and rebuilding of aircraft components and parts, when such operations are performed directly on the aircraft or in connection with components that are removed from and later reinstalled on the aircraft by the employer, shall be classified as 7428(3), *Aircraft Remanufacture, Conversion, Modification and Repair Companies.*

Aircraft operation, demonstration or flight testing shall be separately classified.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

AIRCRAFT REMANUFACTURE, CONVERSION, MODIFICATION AND REPAIR COMPANIES – not engaged in the original manufacturing of aircraft 7428(3)

This classification applies to the repair and rebuilding of aircraft components and parts when such operations are performed directly on the aircraft or in connection with components that are removed from and later reinstalled on the aircraft by the employer. This classification also includes but is not limited to aircraft cleaning and detailing and aircraft fueling on a fee basis.

Employers that are approved by the Federal Aviation Administration and engage in the manufacture or repair of machined aircraft components and accessories shall be classified as 3831, *Machine Shops – aircraft components*, provided the employer does not remove or install parts or otherwise work directly on the aircraft.

Also refer to companion Classification 7424(1), *Aircraft Operation – other than agricultural or scheduled air carriers – members of the flying crew*.

AIRPORT OPERATORS – including gate and ticket counter personnel at airports 7429

COMMUNICATION SERVICE PROVIDERS – all employees – including installation, maintenance, repair or operation of infrastructure or equipment – including shop**7600**

This classification applies to Federal Communications Commission licensed telecommunication service companies that provide telephone, internet, or cable or satellite television connectivity services on a fee basis using wired, wireless or satellite telecommunication or broadband infrastructure.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Employers engaged in media content delivery using telecommunications or broadband infrastructure that do not provide connectivity services shall be separately classified.

The contract installation of aerial lines for telephone, television, communication, data, fire alarm or similar low voltage or fiber optic networks by contractors that are not licensed by the Federal Communications Commission shall be classified as 7601, *Aerial Line Construction*.

The contract installation or repair of telecommunications equipment by contractors that are not licensed by the Federal Communications Commission shall be classified as 5193, *Computer or Telephone System or Equipment Installation, Service or Repair*.

The contract installation of low voltage communications cabling within buildings for voice or data transmission and the contract splicing of fiber optic cables at ground level by contractors that are not licensed by the Federal Communications Commission shall be classified as 5195, *Communications Cabling*.

The contract installation of cables underground, including trenching and placing of conduit, by contractors that are not licensed by the Federal Communications Commission shall be classified as 6325, *Conduit Construction or Underground Wiring*.

The contract installation, service or repair of satellite or non-satellite antennas and antenna equipment for television and internet connectivity by contractors that are not licensed by the Federal Communications Commission shall be classified as 9531(2), *Satellite Television or Internet Antenna Equipment Installation, Service or Repair*.

The contract installation, service or repair of cable television equipment for television or internet connectivity that does not include antennas, performed by contractors that are not licensed by the Federal Communications Commission, shall be classified as 9516, *Television, Video, Audio or Radio Equipment Installation, Service or Repair*.

The operation of television studios shall be separately classified as 7610, *Radio, Television or Commercial Broadcasting Stations*.

COMMUNICATIONS CABLING – within buildings – including shop, yard or storage operations 5195

This classification applies to the installation of low voltage cable for voice or data transmission or the splicing of fiber optic cable or low voltage wire within buildings, utility vaults or boxes. This classification also applies to splicing fiber optic cables at ground level for other concerns on a fee basis.

Classification 5195 does not apply when the low voltage cable is installed in connection with the installation of equipment or systems, including but not limited to instruments, controls, telecommunication antennas, computers or telephone systems, cable or satellite television systems, building automation or energy management control systems and sound or alarm systems by the same employer. In such cases, all operations shall be assigned to the appropriate installation classification.

The installation of computer or telephone systems or equipment shall be classified as 5193, *Computer or Telephone System or Equipment Installation, Service or Repair*.

The installation of television, video, audio or radio equipment shall be classified as 9516, *Television, Video, Audio or Radio Equipment Installation, Service or Repair*.

The installation of security alarm, fire alarm or life safety systems shall be classified as 7605, *Security Alarm, Fire Alarm or Life Safety Systems Installation, Service or Repair*.

The installation of programmable industrial controls shall be classified as 5130(1), *Programmable Industrial Controls Installation, Service or Repair*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The installation of building automation or energy management control systems shall be classified as 5130(2), *Building Automation or Energy Management Control Systems Installation, Service or Repair*.

The installation of telecommunication antennas or antenna equipment that are located on rooftops, towers, structures or other exterior locations shall be classified as 9531(1), *Telecommunication Antenna Equipment Installation, Service or Repair*.

The installation of satellite or non-satellite antennas or antenna equipment for television or internet connectivity shall be classified as 9531(2), *Satellite Television or Internet Antenna Equipment Installation, Service or Repair*.

The installation of underground cabling shall be classified as 6325, *Conduit Construction or Underground Wiring*.

The installation of aerial cabling shall be classified as 7601, *Aerial Line Construction*.

**COMPUTER OR TELEPHONE SYSTEM OR EQUIPMENT INSTALLATION, SERVICE OR REPAIR 5193
– shop or outside**

This classification applies to the installation, service or repair of computer or telephone systems or equipment, including but not limited to phone speakers, cellular telephones, Voice Over Internet Protocol equipment and desktop, laptop, tablet and computer peripheral equipment, such as monitors, terminals, computer mouse devices, keyboards and computer modems. This classification includes the installation of communications cabling performed in connection with computer or telephone system installation, service or repair operations by the same employer. This classification includes the installation, service or repair of audio or video teleconferencing equipment that is connected to telephone or computer networks. Repair operations may be performed at the shop or at customers' locations.

This classification also applies to the installation, service or repair of computer or telephone systems or equipment in connection with the operation of data center colocation facilities where business customers rent space for their servers and other computing hardware or rent space on the facility's servers. The management and operation of commercial properties as data center colocation facilities shall be separately classified as 9009/8740(2), *Commercial Properties*.

The manufacture of computers or computer peripheral equipment, or shop repair of computer or computer peripheral equipment by the manufacturer, shall be classified as 3681(2), *Computer or Computer Peripheral Equipment Mfg.*

The manufacture of telephones or telephone equipment, or shop repair of telephones or telephone equipment by the manufacturer, shall be classified as 3681(3), *Telecommunications Equipment Mfg.*

The installation, service or repair of audio/video systems shall be classified as 9516, *Television, Video, Audio or Radio Equipment Installation, Service or Repair*.

The construction of aerial telephone lines shall be classified as 7601, *Aerial Line Construction*. The construction of underground telephone lines shall be classified as 6325, *Conduit Construction or Underground Wiring*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The installation of low voltage cabling within buildings that is not performed in connection with the installation, service or repair of computers or telephone systems by the same employer shall be classified as 5195, *Communications Cabling*.

The installation, service or repair of office or point of sale machines shall be classified as 5191, *Office Machine or Point of Sale Equipment Installation, Service or Repair*.

The installation, service or repair of telecommunication antennas or antenna equipment that are located on rooftops, towers, structures or other exterior locations shall be classified as 9531(1), *Telecommunication Antenna Equipment Installation, Service or Repair*.

Employers licensed by the Federal Communications Commission that provide wireline, long distance, cellular, radio paging or mobile radio services for customers on a fee basis shall be classified as 7600, *Communication Service Providers*.

COMPUTER PRINTING OR TYPEWRITER RIBBON MFG. OR REFURBISHING**4250(2)**

This classification applies to the manufacturing or refurbishing of ink ribbons used by computer printers, typewriters and similar printing machines.

The coating or laminating of paper, foil or plastic film shall be classified as 4250(1), *Paper Coating or Laminating*.

The manufacturing, refilling and refurbishing of laser printer toner and ink jet cartridges shall be classified as 3574(1), *Machine Mfg.*

The manufacture of ink shall be separately classified as 4557, *Ink, Adhesive, Polish or Wax Products Mfg.*

COMPUTER PROGRAMMING OR SOFTWARE DEVELOPMENT – all employees – including Clerical Office Employees, Clerical Telecommuter Employees and Outside Salespersons**8859(1)**

The entire remuneration of each employee shall be included, subject to a maximum of \$139,100 per year. When the policy is in force for less than a 12-month period, the maximum payroll amount shall be prorated based upon the number of weeks in the policy period.

This classification applies to those employers that engage in the development or customization of computer programs or software for other concerns on a contract basis, as well as the development of standard ("generic") programs for use by other concerns.

This classification does not apply to employers that engage in computer programming or software development in support of the employer's operations, which includes but is not limited to the development of programs for integration into a hardware product sold by the employer.

CONCESSIONAIRES – dispensing food and beverage items at ball parks, race tracks, theaters, concert venues and amusement and recreational facilities**9079(2)**

Employers that operate under concessionary agreements to sell items other than food and beverage products shall be classified depending on the products sold.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

This classification does not apply to food and beverage vendors selling at locations other than those specified. Mobile food vendors engaged in the retail sale of packaged and cold foods and beverages from food trucks, trailers, carts or temporary booths, including the incidental storage of such merchandise, shall be classified as 8017(1), *Stores – retail*, 8078(1), *Sandwich Shops*, 8078(2), *Beverage Preparation Shops*, or 8078(3), *Ice Cream or Frozen Yogurt Shops*, depending on the products sold. The operation of mobile food trucks, trailers, carts or temporary booths wherein hot food is prepared for sale to customers shall be classified as 9079(1), *Restaurants or Taverns*.

CONCRETE CONSTRUCTION – in connection with bridges or culverts where clearance exceeds 10 feet at any point or entire distance between terminal abutments exceeds 20 feet **5222(1)**

This classification applies to the construction of concrete bridges or culverts. This classification includes the incidental pouring or finishing of concrete decks (roadways), sidewalks, retaining walls and support structures. This classification also includes the incidental construction and removal of forms, falsework or concrete distributing apparatus by the employer engaged in the construction of concrete bridges or culverts.

The construction of concrete bridges that do not have a clearance that exceeds 10 feet at any point or the entire distance between terminal abutments does not exceed 20 feet shall be classified as 5506, *Street or Road Construction – paving or repaving, surfacing or resurfacing or scraping*, or 5507, *Street or Road Construction – grading*.

The construction of metal bridges shall be classified as 5040(2), *Bridge Building – metal*.

The construction of wood bridges shall be classified as 6003(3), *Bridge or Trestle Construction – wood*.

Excavation, reinforcing steel installation, pile driving and all work in tunnels, subways, caissons or cofferdams shall be separately classified.

CONCRETE CONSTRUCTION – N.O.C. **5213**

This classification applies to concrete construction operations that are not more specifically described by another construction or erection classification. This classification includes the pouring or finishing of concrete foundations, retaining walls, basement walls, footings and floors at or above ground level when performed in connection with the construction of poured in place concrete buildings, masonry commercial buildings exceeding two stories in height, multi-story structural steel buildings and residential buildings exceeding three stories in height.

This classification applies to the erection and placement of precast concrete wall panels and includes the pouring and finishing of floors above the ground floor when performed in connection with the construction of tilt-up buildings. The pouring or finishing of precast concrete wall panels, floor slabs or roof slabs at ground level, and the pouring or finishing of concrete ground floors of buildings for which precast concrete wall panels, floor slabs or roof slabs become an integral part shall be classified as 5214, *Concrete or Cement Work*.

This classification also applies to the pouring or finishing of concrete bases for communication towers, concrete median barriers, sound walls, and concrete piers, docks and wharves.

This classification also applies to raising or leveling concrete foundations, slabs, driveways, porches and patios by injecting cement below the surface (mud jacking).

This classification includes the incidental setting up and taking down of falsework or concrete distributing apparatus by the employer engaged in concrete construction. This classification also includes the installation and removal of forms at the job site whether performed by the employer engaged in concrete construction or by a separate concern.

Excavation, reinforcing steel installation, pile driving and all work in connection with sewers, tunnels, subways, bridges, streets, roads, caissons or cofferdams shall be separately classified.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The pouring or finishing of concrete floor slabs and concrete slab-type foundations in connection with residential buildings not exceeding three stories in height, one or two story wood framed or masonry commercial buildings, and single story structural steel commercial buildings shall be separately classified as 5201(2)/5205(2), *Concrete or Cement Work*.

CONCRETE OR ASPHALT SAWING OR DRILLING – N.O.C.**5029**

This classification applies to the sawing or drilling of concrete or asphalt on a fee basis.

The sawing or drilling of concrete or asphalt when performed in connection with the employer's other construction activities shall be assigned to the applicable Construction and Erection classifications.

The wrecking or demolition of concrete buildings or structures shall be classified as 5213, *Concrete Construction – N.O.C.*

CONCRETE OR CEMENT WORK – pouring or finishing of concrete floor slabs, poured in place and on the ground, and concrete slab-type foundations, for other than concrete buildings or structural steel buildings of multi-story construction – including the making or stripping of forms – employees whose regular hourly wage does not equal or exceed \$28.00 per hour

5201(2)

This classification applies to the pouring or finishing of concrete foundations, footings and slabs for residential buildings not exceeding three stories in height. This classification also applies to the pouring or finishing of concrete slab foundations, with or without integrated footings, for one or two story wood framed or masonry commercial buildings and single story structural steel commercial buildings. This classification includes the incidental installation of reinforcing steel by the employer engaged in the pouring or finishing of concrete flatwork.

This classification also applies to the installation and removal of forms at the job site whether performed by the employer engaged in the pouring or finishing of concrete or by a separate employer.

This classification also applies to the pouring or finishing of lightweight cellular concrete floors within buildings.

The pouring or finishing of concrete floor slabs, foundations, retaining walls, basement walls and/or footings in connection with the construction of poured in place concrete buildings, residential buildings exceeding three stories in height, masonry commercial buildings exceeding two stories in height, and multi-story structural steel buildings, shall be separately classified as 5213, *Concrete Construction – N.O.C.*

CONCRETE OR CEMENT WORK – pouring or finishing of concrete floor slabs, poured in place and on the ground, and concrete slab-type foundations, for other than concrete buildings or structural steel buildings of multi-story construction – including the making or stripping of forms – employees whose regular hourly wage equals or exceeds \$28.00 per hour

5205(2)

Assignment of this classification is subject to verification at the time of final audit that the employee's regular hourly wage equals or exceeds \$28.00 per hour. The payroll of an employee whose hourly wage is not shown to equal or exceed \$28.00 per hour shall be classified as 5201(2), *Concrete or Cement Work*.

This classification applies to the pouring or finishing of concrete foundations, footings and slabs for residential buildings not exceeding three stories in height. This classification also applies to the pouring or finishing of concrete slab foundations, with or without integrated footings, for one or two story wood framed or masonry commercial buildings and single story structural steel commercial buildings. This classification includes the incidental installation of reinforcing steel by the employer engaged in the pouring or finishing of concrete flatwork.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

This classification also applies to the installation and removal of forms at the job site whether performed by the employer engaged in the pouring or finishing of concrete or by a separate employer.

This classification also applies to the pouring or finishing of lightweight cellular concrete floors within buildings.

The pouring or finishing of concrete floor slabs, foundations, retaining walls, basement walls and/or footings in connection with the construction of poured in place concrete buildings, residential buildings exceeding three stories in height, masonry commercial buildings exceeding two stories in height, and multi-story structural steel buildings, shall be separately classified as 5213, *Concrete Construction – N.O.C.*

CONCRETE OR CEMENT WORK – pouring or finishing of concrete sidewalks, driveways, patios, curbs or gutters – including the making or stripping of forms – employees whose regular hourly wage does not equal or exceed \$28.00 per hour	5201(1)
---	----------------

This classification applies to the pouring or finishing of concrete flatwork, including but not limited to sidewalks, driveways, patios, curbs and gutters. This classification includes the incidental installation of reinforcing steel by the employer engaged in the pouring or finishing of concrete.

This classification also applies to the installation and removal of forms at the job site whether performed by the employer engaged in the pouring or finishing of concrete or by a separate employer.

This classification also applies to the pouring or finishing of concrete slabs, islands and driveways for gasoline service stations; the application of self-leveling cementitious polymer subflooring material; the repair of concrete flatwork using epoxy and resin materials that restore the structural integrity of the concrete; and the construction of concrete drainage gutters or concrete lined ditches for erosion control purposes.

This classification also applies to the application of plaster in swimming pools.

The pouring or finishing of concrete floor slabs, foundations, retaining walls, basement walls and/or footings in connection with the construction of poured in place concrete buildings, residential buildings exceeding three stories in height, masonry commercial buildings exceeding two stories in height, and multi-story structural steel buildings, shall be separately classified as 5213, *Concrete Construction – N.O.C.*

CONCRETE OR CEMENT WORK – pouring or finishing of concrete sidewalks, driveways, patios, curbs or gutters – including the making or stripping of forms – employees whose regular hourly wage equals or exceeds \$28.00 per hour	5205(1)
--	----------------

Assignment of this classification is subject to verification at the time of final audit that the employee's regular hourly wage equals or exceeds \$28.00 per hour. The payroll of an employee whose regular hourly wage is not shown to equal or exceed \$28.00 per hour shall be classified as 5201(1), *Concrete or Cement Work*.

This classification applies to the pouring or finishing of concrete flatwork, including but not limited to sidewalks, driveways, patios, curbs and gutters. This classification includes the incidental installation of reinforcing steel by the employer engaged in the pouring or finishing of concrete.

structural integrity of the concrete; and the construction of concrete drainage gutters or concrete lined ditches for erosion control purposes.

This classification also applies to the application of plaster in swimming pools.

The pouring or finishing of concrete floor slabs, foundations, retaining walls, basement walls and/or footings in connection with the construction of poured in place concrete buildings, residential buildings exceeding three stories in height, masonry commercial buildings exceeding two stories in height, and multi-story structural steel buildings, shall be separately classified as 5213, *Concrete Construction – N.O.C.*

CONCRETE OR CEMENT WORK – pouring or finishing of precast concrete wall panels, pre-cast floor slabs or precast roof slabs at ground level and at job site – including the making or stripping of forms	5214
--	-------------

This classification applies to ground level formwork, pouring or finishing of ground floors of buildings for which precast concrete wall panels, floor slabs or roof slabs become an integral part. This classification also applies to the operations of employers that specialize in ground level finishing of concrete wall panels and floor slabs. It does not apply to the subsequent erection and placement of panels and slabs; all concrete operations performed in connection therewith, including floors poured in place above the ground floor, shall be separately classified as 5213, *Concrete Construction – N.O.C.*

Reinforcing steel installation shall be classified as 5225, *Reinforcing Steel Installation*.

CONCRETE PRODUCTS MFG. – shop or yard work only	4034
--	-------------

This classification applies to the manufacture of concrete functional or building products, including but not limited to concrete blocks, bricks, poles, piles, beams, countertops, sewer pipes, irrigation pipes, roofing tile or similar concrete functional or building products. This classification does not apply to operations performed at construction sites.

The manufacture of non-structural ornamental plaster or concrete products shall be classified as 4038(1), *Plaster or Concrete Statuary or Ornament Mfg.*

Drivers and their helpers shall be separately classified as 8232(2), *Building Material Dealers*.

Concrete construction work at construction sites shall be separately classified.

CONCRETE PUMPING – all operations	5212
--	-------------

This classification applies to concrete pumping for other concerns on a fee basis.

Concrete pumping in connection with the employer's other classifiable operations shall not be separately classified.

CONDUIT CONSTRUCTION OR UNDERGROUND WIRING – including tunneling at street crossings	6325
---	-------------

This classification applies to the construction of conduit for underground electric power cables or wires, or for low voltage or fiber optic networks for telephone, television, communication, data, fire alarm or similar networks. This classification also applies to the installation of underground cabling within existing conduit, the installation of underground cabling without conduit or the splicing of underground cabling. This classification also applies to the installation of street lighting systems, traffic signal systems or commercial parking lot lighting systems. This classification includes excavation operations performed by the same employer in support of its conduit construction or underground wiring operations.

All tunneling other than at street crossings shall be separately classified.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Splicing fiber optic cables at ground level for other concerns on a fee basis shall be classified as 5195, *Communications Cabling*.

Aerial line construction for telephone, television, communication, data, fire alarm or similar low voltage or fiber optic networks shall be separately classified as 7601, *Aerial Line Construction*.

Aerial electric power line construction shall be separately classified as 7538, *Electric Power Line Construction*.

CONSTRUCTION OR ERECTION PERMANENT YARDS OR SHOPS – for maintenance of equipment or storage of material 8227

This classification applies only to a permanent yard or shop maintained by a construction or erection contractor assigned to one or more construction or erection classification(s) (see Appendix I, *Construction and Erection Classifications*, for applicable classifications) for the maintenance of equipment or the storage of materials or equipment and includes the delivery of materials or equipment from the yard or shop to the job site.

This classification does not apply to temporary construction or erection yards or shops located at or adjacent to the place where construction operations are conducted; such operations shall be assigned to the applicable construction or erection classification (see Appendix I, *Construction and Erection Classifications*).

When an employer's shop, yard or storage operations are performed in connection with its construction or erection operations that are assigned to two or more classifications, one or more of which includes shop, yard or storage operations and one or more of which does not include shop, yard or storage operations, the shop, yard or storage employees or operations shall be assigned in accordance with Section IV, Rule 2f, *Shop, Yard or Storage Operations*.

The sale of lumber or building materials shall be classified as 8232(1), *Lumberyards*, or 8232(2), *Building Material Dealers*, in accordance with the provisions of the Multiple Enterprises rule.

The rental of equipment or machinery shall be classified as 8028, *Equipment or Machinery Rental Yards*.

Mill operations or fabrication shall be separately classified.

CONTRACTORS – construction or erection – all construction subcontracted – all other employees 5610

This classification applies to all employees other than executive level supervisors on jobs where the employer subcontracts all operations to licensed subcontractors. This classification applies to operations, including but not limited to job site cleaning and debris removal and post-construction warranty repair operations. Otherwise, such employees are miscellaneous employees and shall be classified in accordance with Part 3, Section IV, Rule 2c, *Miscellaneous Employees (Construction or Erection)*.

Employers that perform construction job site cleaning for other concerns on a fee basis shall be classified as 9008, *Janitorial Services – by contractors*.

CONTRACTORS – construction or erection – executive level supervisors – no direct supervision – division of a single employee's payroll with any other classification is not permitted 5606

This classification may be assigned only in connection with the construction or erection classifications listed in Appendix I, *Construction and Erection Classifications*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

This classification applies to executive level supervisors of construction operations wherein the employer develops payroll in one or more construction or erection classification(s) provided not less than two levels of supervision, as defined in Section IV, Rule 2d, *Executive Level Supervisors*, are retained between the executive level supervisor and the workers performing actual construction operations.

This classification also includes management level employees, such as safety managers, project managers and engineers, who do not supervise construction operations but whose duties include walking through a construction site during the construction phase, provided the employer retains two levels of supervision over the construction crew(s) or where all operations have been subcontracted to licensed subcontractors. Otherwise, such employees are miscellaneous employees and shall be classified in accordance with Section IV, Rule 2c, *Miscellaneous Employees (Construction or Erection)*.

This classification also applies to executive level supervisors when all construction operations are subcontracted to licensed contractors and no payroll is developed under any construction classification. In such instances, executive level supervisors exercise control exclusively through licensed subcontractors.

On jobs where all construction operations are subcontracted to licensed subcontractors, Classification 5610, *Contractors – construction or erection – all construction subcontracted*, applies to all other employees, including but not limited to job site cleaning and debris removal and post-construction warranty repair operations.

Classification 5606 does not apply to employees whose job site duties are limited to estimating, outside sales or public relations. Employees whose non-clerical duties are confined to visiting job sites for the purpose of pre-construction estimating, or for meeting with clients or other project representatives, are classified as 8742, *Salespersons – Outside*, provided they have no supervisory responsibilities over construction operations, they do not walk through job sites for purposes such as assessing construction progress, evaluating quality or determining compliance with safety standards, and their activities do not exceed those of Standard Exception Employees. See Section III, Rule 4, *Standard Exceptions*.

Fee-based construction management companies that do not engage in or perform supervision over construction operations, but serve as an intermediary between the general contractor and project owner or otherwise provide expertise regarding a construction project, shall be classified as 8601(1), *Engineers – consulting*.

Also see Section IV, Rule 2, *Construction or Erection Work*.

DIE CASTING MFG.**1925**

This classification applies to die casting using automated equipment to inject molten metal into a mold cavity to produce castings. This classification also applies to the finishing of metal castings or manufacturing of dies in connection with die casting operations by the same employer.

The machining or assembly of castings to produce finished parts or components shall be separately classified.

DISTILLING – N.O.C.

See Food Packaging and Processing.

DOCUMENT DESTRUCTION – including mobile paper shredding

See Recycling and Refuse Management.

DOCUMENT DUPLICATION OR PHOTOCOPYING SERVICE – all employees – including Clerical Office Employees, Clerical Telecommuter Employees and Outside Salespersons

See Printing, Publishing and Duplicating.

DOG SHOWS – all employees other than kennel employees and employees engaged in the operation or maintenance of amusement devices, restaurants or retail stores**9016(2)**

This classification applies to all employees of dog shows other than kennel employees and employees engaged in the operation or maintenance of amusement devices, restaurants or retail stores.

Kennel employees shall be separately classified as 8831(3), *Kennels*.

The operation or maintenance of amusement devices, restaurants and retail stores shall be separately classified.

DOOR, DOOR FRAME OR PRE-GLAZED WINDOW INSTALLATION – not overhead doors**5107**

This classification applies to the installation or erection of prefabricated doors, door frames or pre-glazed windows within commercial or residential buildings, provided such operations are not performed in connection with structures framed by the employer at the same job or location.

The installation or erection of doors, door frames or pre-glazed windows in connection with wood or steel framing performed by the employer at the same job or location shall be classified as 5403/5432, *Carpentry*, or 5632/5633, *Steel Framing*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The installation, service or repair of overhead doors, including tilt-up, sectional and roll-up doors, shall be classified as 5108, *Door Installation – overhead doors*.

The installation, service or repair of automatic door openers shall be separately classified as 9519(1), *Household Appliances*.

The installation of sheet glass windows or insulated glass units at customers' locations shall be separately classified as 5467/5470, *Glaziers*.

The installation of shower doors, screen doors or mirrors shall be separately classified as 5146(1), *Cabinet, Fixture or Trim Installation*.

DOOR INSTALLATION – overhead doors**5108**

This classification applies to the installation, service or repair of overhead doors, including tilt-up, sectional and roll up doors for use in residential and commercial buildings, including but not limited to garages, warehouses, storage units, storefronts and aircraft hangars.

The installation of doors other than overhead doors shall be classified as 5107, *Door, Door Frame or Pre-Glazed Window Installation*.

The installation, service or repair of automatic door openers shall be separately classified as 9519(1), *Household Appliances*.

DOOR OR WINDOW FRAME MFG. – metal or plastic**3060(2)**

This classification applies to the manufacture of metal or plastic door or window frames. This classification also applies to the manufacture of metal or plastic frames or components for use in the manufacture of mirrors, skylights, screen doors, window screens, patio covers or sunroom enclosures.

The manufacture of metal, plastic or combination metal, plastic or glass doors or windows shall be classified as 3060(1), *Door or Window Mfg. – metal or plastic*.

The manufacture of metal or plastic framed screen doors or window screens shall be classified as 3060(3), *Door or Window Screen Mfg.*

The installation of prefabricated doors, door frames or pre-glazed windows shall be classified as 5107, *Door, Door Frame or Pre-Glazed Window Installation*, provided such operations are not performed in connection with structures framed by the employer at the same job or location. If the employer is engaged in wood or light gauge steel framing at the same job or location, the installation of doors, door frames or pre-glazed windows at such job or location shall be classified as 5403/5432, *Carpentry*, or 5632/5633, *Steel Framing*.

The installation of unglazed metal window frames shall be classified as 5102(1), *Iron, Steel, Brass, Bronze or Aluminum Erection*.

The installation of glass panes or insulated glass units within framework in connection with residential or commercial buildings, including the incidental installation of framework and glass cutting at the job site, shall be classified as 5467/5470, *Glaziers*.

The installation of screen doors or window screens shall be separately classified as 5146(1), *Cabinet, Fixture or Trim Installation*.

The manufacture of wood doors or windows shall be separately classified as 2806(1), *Door, Sash or Window Mfg.*

DOOR OR WINDOW MFG. – metal or plastic – including shop glazing**3060(1)**

This classification applies to the manufacture or shop repair of metal, plastic or combination metal, plastic or glass doors or windows, including but not limited to entry doors, patio doors, garage doors, mirrored wardrobe doors, shower doors, revolving doors, casement windows,

The installation of overhead or roll up doors shall be classified as 5108, *Door Installation*.

The installation of tub or shower enclosures, mirrored wardrobe doors, screen doors or window screens shall be separately classified as 5146(1), *Cabinet, Fixture or Trim Installation*.

The manufacture of wood doors or windows shall be separately classified as 2806(1), *Door, Sash or Window Mfg. – wood*.

DOOR OR WINDOW SCREEN MFG. – metal or plastic framed**3060(3)**

This classification applies to the manufacture of metal or plastic framed screen doors or window screens.

The manufacture of wood framed screen doors or window screens shall be classified as 2806(1), *Door, Sash or Window Mfg. – wood*.

The manufacture of metal, plastic or combination metal, plastic or glass doors or windows shall be classified as 3060(1), *Door or Window Mfg. – metal or plastic*.

The manufacture of metal or plastic door or window frames shall be classified as 3060(2), *Door or Window Frame Mfg. – metal or plastic*.

The installation of screen doors or window screens shall be separately classified as 5146(1), *Cabinet, Fixture or Trim Installation*.

DOOR, SASH OR WINDOW MFG. – wood**2806(1)**

This classification applies to the manufacture of wood doors or windows, including but not limited to prehung doors, garage doors, door cores, door or window frame assemblies and window sash.

This classification also applies to the manufacture of stair components, including but not limited to wood handrails, balusters, treads, bottoms, risers and steps.

When an employer deals in any lumber, building materials or solid combustible fuel materials in addition to products it manufactures, yard operations, including drivers and their helpers, shall be separately classified as 8232(1), *Lumberyards*, 8232(2), *Building Material Dealers*, or 8232(3), *Fuel and Material Dealers*, depending on the products sold.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The manufacture of metal or plastic doors or windows shall be separately classified as 3060(1), *Door or Window Mfg. – metal or plastic*.

The manufacture of metal or plastic door or window frames shall be separately classified as 3060(2), *Door or Window Frame Mfg. – metal or plastic*.

The installation of doors or windows shall be separately classified.

The manufacture of wood or plastic shutters shall be classified as 2806(2), *Shutter Mfg. – wood or plastic*.

DREDGING – including maintenance and repair of dredging equipment**4000(4)**

This classification applies to the removal of silt, sand and gravel from waterways, including but not limited to harbors, marinas, deltas, irrigation canals, lakes, rivers and streams using suction, dragline, clamshell or similar methods.

For dredging operations conducted on navigable waterways on which interstate or international commerce is conducted, refer to the Advisory California Rules for the Recording and Reporting of United States Longshore and Harbor Workers' Compensation Act Coverage.

The storage and delivery of dredged materials shall be separately classified as 8232(2), *Building Material Dealers*.

DRILLING – geothermal wells – including installation of casing**6235(3)**

This classification applies to the drilling of geothermal wells for the production of hot water or steam. This classification includes the installation of well casing and the maintenance or repair of drilling equipment at job sites in connection with the drilling operations.

Drilling oil or gas wells shall be classified as 6235(1), *Oil or Gas Wells – drilling or redrilling*.

Drilling water wells shall be classified as 6204, *Drilling – N.O.C.*

Drilling in connection with foundation preparation work shall be classified as 6258, *Foundation Preparation Work*.

Drilling concrete shall be classified as 5029, *Concrete or Asphalt Sawing or Drilling*.

DRILLING – N.O.C. – not geothermal, oil or gas producing, mining or quarrying**6204**

This classification applies to drilling, including but not limited to drilling water wells and soil samples for other concerns on a fee basis. This classification includes the installation of well casing and pumps when performed in connection with drilling operations.

Drilling operations conducted in connection with the employer's other classifiable operations shall not be separately classified.

The installation or repair of submersible pumps on a fee basis shall be classified as 3724(1), *Millwright Work*, provided such operations are not performed in connection with drilling operations performed by the employer at the same job or location.

Drilling oil or gas wells shall be classified as 6235(1), *Oil or Gas Wells – drilling or redrilling*.

Drilling geothermal wells shall be classified as 6235(3), *Drilling – geothermal wells*.

Drilling in connection with foundation preparation work shall be classified as 6258, *Foundation Preparation Work*.

Drilling concrete shall be classified as 5029, *Concrete or Asphalt Sawing or Drilling*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Drilling in connection with mining or quarrying shall be assigned to the applicable mining or quarrying classification.

DRUG, MEDICINE OR PHARMACEUTICAL PREPARATIONS MFG. – compounding, blending or packaging only – not manufacturing ingredients – N.O.C. 4611

This classification applies to the manufacturing, blending or packaging of drugs, medicines or pharmaceutical preparations that are intended for use in the diagnosis, cure, mitigation, treatment or prevention of disease. This classification also applies to the manufacture of reagents, testing solutions, enzymes, peptides, culture media, dental preparations (impression compounds, denture adhesives, or tooth restoration materials), contact lens solutions or orthopedics' coating materials.

Compounding pharmacies that combine, mix or alter ingredients in response to a prescription to create a medication tailored to the medical needs of an individual patient shall be classified as 8017(1), *Stores – retail*.

The manufacture of cosmetics or personal care products, such as makeup, lotions, perfumes and colognes, as well as products such as fluoride toothpaste, antidandruff shampoo, sun block and antiperspirant that possess characteristics of drugs or medicinal preparations shall be classified as 4623, *Cosmetic, Personal Care or Perfumery Products Mfg.*

The manufacture of vitamins or food supplements shall be classified as 4831, *Vitamin or Dietary Supplement Mfg.*

The manufacture of test kits utilized for the diagnosis of medical conditions shall be classified as 5951, *Serum, Antitoxin or Virus Mfg.*

DRY CLEANING – N.O.C. – including repairing or pressing, and cash and carry departments on plant premises 2589(2)

Commercial laundry operations, including the rental and laundering of towels, linens, diapers and similar items shall be classified as 2585(1), *Laundries*.

DRY CLEANING OR LAUNDRY – retail – including alterations, repairing or pressing, and cash and carry departments on premises 2589(1)

This classification shall not be used for division of payroll in connection with any other classification (other than the Standard Exceptions or General Exclusions) unless the operations described by Classification 2585(2) constitute a separate and distinct enterprise having no connection with the operations covered by any other applicable classification.

Dyeing of textile fabrics, not finished garments, shall be classified as 2413, *Textiles*.

Part 3 – Standard Classification System**Section VII – Standard Classifications****E****ELECTRIC APPLIANCE MFG. – N.O.C.****3570**

This classification applies to the manufacture of electric appliances, including but not limited to domestic appliances and portable cooking appliances. Electric appliances include but are not limited to lighting apparatus, flashlights, heating elements, portable space heaters, battery chargers, battery pack assemblies, vacuum cleaners, hair dryers, microwave ovens, food processors, toaster ovens, waffle irons and slow cookers. This classification includes the shop repair of electric appliances by the manufacturer.

The shop repair of electric appliances by repair shops that are not the manufacturer shall be classified as 9519(1), *Household Appliances*.

The installation, service or repair of electric appliances away from the shop shall be separately classified as 9519(1), *Household Appliances*.

ELECTRIC CONTROL PANEL OR SWITCHGEAR MFG.

See Electronics Industry.

ELECTRIC MOTOR MFG. OR REPAIR**3569**

This classification applies to the manufacture or repair of electric motors, including the cleaning and rewinding of armatures, field coils, rotors and similar parts.

Dealers that sell or repair new electric motors that are used in industrial machinery or equipment shall be classified as 8107, *Machinery and Equipment Dealers*.

Dealers that sell or repair used electric motors that are used in industrial machinery or equipment shall be classified as 8267, *Machinery and Equipment Dealers – secondhand*.

ELECTRIC POWER COMPANIES – all operations – including construction or extension of lines**7539**

This classification applies to publicly or privately operated electric power companies that supply electrical power to customers. This classification includes the operation of all types of power generation plants or systems, including but not limited to hydro, solar, wind, geothermal, biomass and landfill gas power plants. This classification also includes the construction, operation, maintenance or repair of substations or transmission lines and the reading, installation or repair of electric meters.

The erection of aerial power lines by separate concerns shall be classified as 7538, *Electric Power Line Construction*.

The construction of buildings, dams or reservoirs shall be separately classified.

ELECTRIC POWER LINE CONSTRUCTION – by contractor**7538**

This classification applies to the construction, maintenance or repair of aerial power lines, including but not limited to erecting poles or towers, installing service transformers, stringing wires and making service connections. This classification also applies to the installation of aerial power lines for electric trams, trolleys or buses.

The construction, maintenance or repair of aerial power lines by electric power companies in connection with their own operations shall be classified as 7539, *Electric Power Companies*.

The installation of electrical wiring within buildings shall be separately classified as 5140/5190, *Electrical Wiring*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The construction of underground power lines shall be separately classified as 6325, *Conduit Construction or Underground Wiring*.

Aerial line construction for telephone, television, communication, data, fire alarm or similar low voltage or fiber optic networks shall be separately classified as 7601, *Aerial Line Construction*.

ELECTRICAL MACHINERY OR AUXILIARY APPARATUS – installation, service or repair – including incidental wiring **3724(2)**

This classification applies to the outside installation, service or repair of electrical machinery or auxiliary apparatus that convert, regulate, store or create electrical power, including but not limited to transformers, generators, control panels, temporary power poles at construction sites, industrial fans or blowers, photovoltaic solar panels and wind powered generators.

This classification does not apply to the installation or repair of machinery or electrical apparatus at facilities both occupied and operated by the employer; such operations shall be classified based on the employer's other classifiable operations.

Operations performed in connection with the installation of aerial power lines, including erecting poles, stringing wires, making service connections or installing service transformers on poles or on the outside of buildings shall be classified as 7538, *Electric Power Line Construction*.

Shop manufacturing or repair operations shall be separately classified.

ELECTRICAL WIRE HARNESS MFG.

See Electronics Industry.

ELECTRICAL WIRING – within buildings – including installation or repair of fixtures or appliances – including shop, yard or storage operations – employees whose regular hourly wage does not equal or exceed \$32.00 per hour **5190**

This classification also applies to the installation of lighting fixtures onto exterior building surfaces or the maintenance of interior or exterior lighting.

The installation of electrical machinery or auxiliary apparatus shall be separately classified.

The installation of aerial electric power lines shall be classified as 7538, *Electric Power Line Construction*.

The installation of electrical wiring underground, including trenching and the placement of conduit, shall be classified as 6325, *Conduit Construction or Underground Wiring*.

The installation of exterior pole mounted lighting, including but not limited to street lights and traffic signals, shall be classified as 6325, *Conduit Construction or Underground Wiring*.

The installation of low voltage communications cabling within buildings for voice or data transmission shall be classified as 5195, *Communications Cabling*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

ELECTRICAL WIRING – within buildings – including installation or repair of fixtures or appliances – including shop, yard or storage operations – employees whose regular hourly wage equals or exceeds \$32.00 per hour **5140**

Assignment of this classification is subject to verification at the time of final audit that the employee's regular hourly wage equals or exceeds \$32.00 per hour. The payroll of an employee whose regular hourly wage is not shown to equal or exceed \$32.00 per hour shall be classified as 5190, *Electrical Wiring*.

This classification also applies to the installation of lighting fixtures onto exterior building surfaces or the maintenance of interior or exterior lighting.

The installation of electrical machinery or auxiliary apparatus shall be separately classified.

The installation of aerial electric power lines shall be classified as 7538, *Electric Power Line Construction*.

The installation of electrical wiring underground, including trenching and the placement of conduit, shall be classified as 6325, *Conduit Construction or Underground Wiring*.

The installation of exterior pole mounted lighting, including but not limited to street lights and traffic signals, shall be classified as 6325, *Conduit Construction or Underground Wiring*.

The installation of low voltage communications cabling within buildings for voice or data transmission shall be classified as 5195, *Communications Cabling*.

<p>ELECTRIC POWER OR TRANSMISSION EQUIPMENT MFG. – N.O.C.</p> <p>This classification applies to the manufacture or shop repair of electric power or transmission equipment, including but not limited to generators, converters, electromagnetic components, solenoids, turbines, transformers and power supplies with a power rating of 746 watts (one horsepower) or more that is not specifically described by another classification.</p> <p>The manufacture or repair of generators, converters, transformers and power supplies rated at less than 746 watts shall be classified as 3179, <i>Electrical Apparatus Mfg.</i> The manufacture or repair of electric or power transmission equipment that is rated both at less than 746 watts and at 746 watts and above shall be classified based on the primary (over 50% of shop time) operation.</p> <p>The manufacture or shop repair of electric motors shall be classified as 3569, <i>Electric Motor Mfg. or Repair.</i></p> <p>The installation or repair of generators, converters, transformers and power supplies away from the shop shall be classified as 3724(2), <i>Electrical Machinery or Auxiliary Apparatus.</i></p>	3643(1)

Part 3 – Standard Classification System**Section VII – Standard Classifications**

<p>ELECTRICAL APPARATUS MFG. – N.O.C.</p> <p>This classification applies to the manufacture or shop repair of electrical apparatus, including but not limited to electric controls, switchboard assemblies, solenoids, electrical-mechanical switches, actuators and relays with a power rating of less than 746 watts (one horsepower) that is not specifically described by another classification.</p> <p>The manufacture or shop repair of electrical apparatus, including but not limited to electric controls, switchboard assemblies, solenoids, electrical-mechanical switches and relays with a power rating of 746 watts or more shall be classified as 3643(1), <i>Electric Power or Transmission Equipment Mfg.</i>, or 3643(2), <i>Electric Control Panel or Switchgear Mfg.</i> The manufacture or shop repair of electrical apparatus that are rated both at less than 746 watts and at 746 watts and above shall be classified based on the primary (over 50% of shop time) operation.</p> <p>The manufacture or shop repair of electric motors shall be classified as 3569, <i>Electric Motor Mfg. or Repair.</i></p> <p>The manufacture of portable electric appliances that are not specifically described by another classification shall be classified as 3570, <i>Electric Appliance Mfg.</i></p> <p>The installation or repair of electrical apparatus away from the shop shall be classified as 3724(2), <i>Electrical Machinery or Auxiliary Apparatus.</i></p>	<p>3179</p>
<p>ELECTRICAL CONNECTOR MFG.</p> <p>This classification applies to the manufacture or assembly of electrical connectors, connector assemblies and contacts used to connect wire or wire harnesses to electrical components.</p> <p>The manufacture of electrical connectors for use in electrical wire harnesses manufactured by the employer shall be classified as 3651, <i>Electrical Wire Harness Mfg.</i></p> <p>The manufacture or assembly of glass hermetically sealed electrical connectors shall be classified as 4111(2), <i>Incandescent Lamp and Fluorescent Tube Mfg.</i></p>	<p>3568</p>
<p>ELECTRICAL WIRE HARNESS MFG.</p> <p>This classification applies to the manufacture or assembly of electrical wire harnesses, connector cable assemblies and electrical cords, and includes the manufacture or assembly of electrical connectors, connector assemblies and contacts that are used in the employer's manufacturing operations.</p> <p>The manufacture of electrical wire or cable involving wire drawing shall be separately classified as 3241, <i>Wire, Wire Rope or Wire Cable Mfg. – including wire drawing.</i> The manufacture of electrical wire or cable involving no wire drawing shall be separately classified as 4470, <i>Wire, Wire Rope or Wire Cable Mfg. – no wire drawing.</i></p>	<p>3651</p>
<p>ELECTRONIC ELEMENT MFG. – N.O.C.</p> <p>This classification applies to the manufacture of electronic elements with a power rating of less than 746 watts (one horsepower) used to receive, store, govern or direct the flow of current within an electrical circuit. Electronic elements assigned to this classification include but are not limited to transistors, resistors, capacitors, diodes, light emitting diodes (LED), coils, transformers, filters, magnetic recording heads, potentiometers and transducers.</p> <p>The manufacture of electronic elements used to receive, store, govern or direct the flow of current within an electrical circuit with a power rating of 746 watts or more shall be classified as 3643(1), <i>Electric Power or Transmission Equipment Mfg.</i>, or 3643(2), <i>Electric Control Panel or Switchgear Mfg.</i> The manufacture of electronic elements that are rated both at less than 746 watts and at 746 watts and above shall be classified based on the primary (over 50% of shop time) operation.</p>	<p>3178</p>

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The manufacture of electronic elements for inclusion in an electrical or electronic product manufactured by the employer shall be assigned to the applicable electrical or electronic product manufacturing classification.

The manufacture of electronic integrated circuit chips or semiconductor wafers shall be classified as 4112, *Integrated Circuit and Semiconductor Wafer Mfg.*

INSTRUMENT MFG. – electronic – professional or scientific – N.O.C.**3681(1)**

This classification applies to the manufacture or shop repair of electronic instruments that are not specifically described by another classification, including but not limited to electronic altimeters, air speed indicators and telemetry instruments, electronic centrifuges, cell sequencers, bio-sensor equipment, mass spectrometers, electronic scales, programmable electronic control systems, electronic point of sale (POS) systems, calculators, electron and laser microscopes, electron accelerators and fraction collectors, electronic toxic gas or vapor detection systems, radiation monitoring equipment, ohm meters, frequency synthesizers and printed circuit board test equipment. This classification also applies to the manufacture of electronic or electronically controlled manufacturing equipment for the semiconductor industry, including but not limited to vapor ovens, wafer inspection stations, wafer probe systems, wet processing equipment, photo mask inspection equipment, diffusion etching machines, wafer cleaning equipment, wafer dicing saws and plasma etching machines.

This classification also applies to the manufacture or fee-based shop repair of Unmanned Aircraft Systems (aerial drones) with an aircraft system and payload total combined weight of less than 55 pounds.

The operating crew of Unmanned Aircraft Systems (aerial drones) with a total combined weight of less than 55 pounds, including but not limited to test flight operations performed by the manufacturer shall be classified in accordance with Section III, Rule 5, *General Inclusions*.

The installation or repair of instruments, or the repair of Unmanned Aircraft Systems (aerial drones) with a total combined weight of less than 55 pounds, away from shop shall be separately classified as 5128, *Instrument Installation, Service or Repair*.

The manufacture of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier shall be classified as 3830(2), *Unmanned Aircraft System Mfg.*

The manufacture of electronic medical equipment used for diagnostic or treatment purposes shall be classified as 3572, *Medical Instrument Mfg.*

The manufacture of non-electronic instruments shall be classified as 3682, *Instrument Mfg. – non-electronic*.

The manufacture of industrial robotic systems shall be classified as 3560(2), *Machinery Mfg. – industrial*, or 3560(3), *Machinery Mfg. – material handling equipment*.

INTEGRATED CIRCUIT AND SEMICONDUCTOR WAFER MFG.**4112**

This classification applies to the manufacture of integrated circuits using semiconductor processing methods, including but not limited to thin film deposition, high temperature oxidation and diffusion, micron-range photo-lithography, and wet and dry etching. Each integrated circuit or wafer may contain tens of thousands of miniaturized electronic components, including but not limited to transistors, resistors, capacitors and diodes. This classification also applies to the manufacture of semiconductor wafers and chipsets consisting of grouped microchips.

This classification also applies to the hermetic packaging of integrated circuits within pin grid arrays.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The manufacture of transistors, resistors, capacitors, diodes and similar electronic components that are not contained on an integrated circuit chip or semiconductor wafer shall be classified as 3178, *Electronic Element Mfg.*

MEDICAL INSTRUMENT MFG. – electronic – diagnostic or treatment**3572**

This classification applies to the manufacture or shop repair of electronic medical equipment used for diagnostic or treatment purposes, including but not limited to medical X-ray equipment, blood pressure monitors, pulse monitors, magnetic resonance imaging (MRI) equipment, heart scan systems, ophthalmology diagnostic and eye surgery equipment, endoscopes, vital sign monitoring equipment, radiation treatment equipment, blood and gas analyzers, brain analyzers, surgical lasers, computerized axial tomography (CAT) scanners, ultrasound imagers and defibrillators.

The manufacture of non-electronic medical instruments shall be classified as 3682, *Instrument Mfg. – non-electronic.*

The installation or repair of instruments away from the shop shall be separately classified as 5128, *Instrument.*

POWER SUPPLY MFG.**3573**

This classification applies to the manufacture or shop repair of power supplies with a power rating of less than 746 watts (one horsepower).

The manufacture or shop repair of power supplies with a power rating of 746 watts or more shall be classified as 3643(1), *Electric Power or Transmission Equipment Mfg.* The manufacture of power supplies that are rated both at less than 746 watts and at 746 watts and above shall be classified based on the primary (over 50% of shop time) operation.

The manufacture of power supplies for inclusion in an electrical or electronic product manufactured by the employer shall be assigned to the applicable electrical or electronic product manufacturing classification.

The installation or repair of power supplies away from the shop shall be separately classified.

PRINTED CIRCUIT BOARD ASSEMBLING – by contractor**3577**

This classification applies to the assembling of components onto printed circuit boards on a fee basis.

The assembly of printed circuit boards for inclusion in an electrical or electronic product manufactured by the employer shall be assigned to the applicable electrical or electronic product manufacturing classification. The manufacture of proprietary printed circuit board electronic sub-assemblies that have been designed by the employer shall be assigned to the applicable electronic product manufacturing classification.

The manufacture (etching and plating) of printed circuit boards shall be classified as 4354, *Printed Circuit Board Mfg.*

PRINTED CIRCUIT BOARD MFG.**4354**

This classification applies to the manufacture (etching and plating) of printed circuit boards.

The manufacture of printed circuit boards for inclusion in an electrical or electronic product manufactured by the employer shall be assigned to the applicable electrical or electronic product manufacturing classification.

The assembling of components onto printed circuit boards on a fee basis shall be classified as 3577, *Printed Circuit Board Assembling.*

Part 3 – Standard Classification System**Section VII – Standard Classifications****TELECOMMUNICATIONS EQUIPMENT MFG.****3681(3)**

This classification applies to the manufacture of electronic telecommunications equipment, including telephones, cellular telephones, telephone equipment, telephone answering systems, military communication equipment, professional broadcasting/receiving equipment, wireless communication equipment, and related equipment used to transmit, receive, route or amplify data. This classification includes the shop repair of telecommunications equipment by the manufacturer.

The installation or repair of telecommunications equipment away from the shop shall be separately classified as 5193, *Computer or Telephone System or Equipment Installation, Service or Repair*.

The manufacture of consumer and professional audio and video equipment shall be classified as 3681(4), *Audio/Video Electronic Products Mfg.*

ELECTROPLATING, ELECTROGALVANIZING OR ANODIZING**3372(1)**

This classification applies to electroplating, which is the process of applying a metallic coating to a metal surface by electrodeposition, performed for other concerns on a fee basis. Electroplated coatings include but are not limited to gold, silver, nickel, copper and chromium. This classification also applies to electrogalvanizing, which is the process of applying a zinc coating to a metal surface by electrodeposition, performed for other concerns on a fee basis. This classification also applies to anodizing, detinning, electropolishing, passivation or chemical milling operations performed for other concerns on a fee basis.

Electroplating, electrogalvanizing, anodizing, detinning, electropolishing, passivation or chemical milling operations, when performed by the same employer in connection with its manufacturing, repair or service operations, shall be assigned to the applicable manufacturing, repair or service classification.

Hot dip galvanizing shall be classified as 3372(4), *Galvanizing – hot dip*.

ELEVATOR ERECTION OR REPAIR**5160**

This classification applies to the erection or repair of elevators and all elevator components, including but not limited to elevator cabinets, elevator guides, hydraulic pump assemblies, motor assemblies, elevator car platforms, control units, wiring, elevator cables, limit switches, silencers and door operators.

Elevator service inspection, oiling or adjusting (no repair) shall be classified as 8729, *Elevator Service Inspections, Oiling and Adjusting*.

The inspection of elevators, including crane elevators, for other concerns on a fee basis for certification purposes only (no service inspections, oiling, adjusting or repairing) shall be classified as 8720(2), *Elevator Inspecting*.

The installation or removal of hoists or construction elevators for other concerns on a fee basis shall be classified as 9529(1), *Scaffolds, Shoring, Concrete or Cement Distributing Towers, Hoist Hoists or Construction Elevators*. The installation or removal of hoists or construction elevators when performed by the employer in connection with its own operations shall be assigned to the applicable construction or erection classification.

The installation or repair of escalators shall be classified as 3724(1), *Millwright Work*.

ELEVATOR INSPECTING – including Outside Salespersons – no service inspections, oiling, adjusting or repairing**8720(2)**

This classification applies to the inspection of elevators, including crane elevators on a fee basis for certification by the state.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Elevator service inspection, oiling and adjusting shall be classified as 8729, *Elevator Service Inspections, Oiling and Adjusting*.

Elevator erection or repair shall be classified as 5160, *Elevator Erection or Repair*.

ELEVATOR SERVICE INSPECTIONS, OILING AND ADJUSTING – no repair**8729**

This classification applies to elevator inspection, service or maintenance, including but not limited to oiling and adjusting.

The inspection of elevators for certification by the state with no repair or maintenance shall be classified as 8720(2), *Elevator Inspecting*.

Elevator repair operations shall be separately classified as 5160, *Elevator Erection or Repair*.

ENGINEERS – consulting – mechanical, civil, electrical or mining engineers or architects – not engaged in actual construction or operation – including Clerical Office Employees, Clerical Telecommuter Employees and Outside Salespersons**8601(1)**

This classification applies to engineering or architectural consultants who provide technical advice to construction companies, land development companies, building contractors or similar concerns on a fee basis, or to the testing of construction building materials in connection with consulting engineering performed by the same employer. This classification also applies to land surveying prior to or during construction for separate concerns on a fee basis.

Engineering, when performed in support of an employer's own manufacturing, processing or construction operations, is assigned to the applicable manufacturing, processing or construction classification or to the applicable Standard Exception classification.

This classification also applies to fee-based construction management companies that do not engage in or supervise construction operations, but serve as an intermediary between the general contractor and project owner, or otherwise provide expertise regarding a construction project.

Forest engineers shall be classified as 8601(4), *Forest Engineers*.

Oil or gas geologists or scouts shall be classified as 8601(2), *Oil or Gas Geologists or Scouts*.

Fee-based testing operations, including but not limited to the testing of air, water, soil, metal, concrete and other building materials not resulting in recommendations, remediation options or design advice shall be classified as 4511, *Analytical or Testing Laboratories*.

ENGRAVING, LASER CUTTING OR LASER WELDING**3131(2)**

This classification applies to the engraving, laser cutting or laser welding of materials other than stone for other concerns on a fee basis. This classification also applies to waterjet cutting of materials other than stone for other concerns on a fee basis. This classification also applies to the manufacture of engraved instrument panels, including incidental metal working and electrical wiring.

Engraving, laser cutting, laser welding or waterjet cutting operations, when performed by the same employer in connection with its manufacturing, processing, store or dealer operations, shall be assigned to the applicable manufacturing, processing, store or dealer classification.

Photographic engraving, photomask manufacturing, rubber printing plate and stamp manufacturing, lithograph plate manufacturing and polymer plate manufacturing shall be classified as 4351, *Photo Engraving*.

The engraving or cutting of stone, including headstones and stone monuments, shall be classified as 1803, *Stone Cutting or Fabrication*.

Part 3 – Standard Classification System**Section VII – Standard Classifications****ENVELOPE MFG.****4251**

This classification applies to the manufacture of envelopes. This classification also applies to incidental printing in connection with envelope manufacturing operations.

Envelope manufacturing, when performed to produce packaging materials in connection with other manufacturing, processing, store or dealer operations, shall be assigned to the applicable manufacturing, processing, store or dealer classification for the other operations.

The conversion of paper to produce finished goods, including but not limited to notebook paper, paper towels, napkins, cups, plates, diapers, medical gowns, paper tubes, air filter elements and coffee filters shall be classified as 4279(1), *Paper Goods Mfg.*

EQUIPMENT OR MACHINERY RENTAL YARDS – not dealers in new or used equipment – all employees – including counterpersons**8028**

This classification applies to employers engaged in the rental, delivery or set up of equipment or machinery, including but not limited to portable air compressors, augurs, jacks, chain saws, compactors, wheel barrows, electric drills, grinders, sanders, ladders, hammers, garden tools and equipment, paint compressors, plumbing tools, sandblasting equipment, portable generators, rototillers, portable concrete mixers, vibrators, tractors, backhoes, temporary fences, scaffolds, shoring, concrete or cement distributing towers, hod hoists, construction elevators, loaders and trenchers.

This classification also applies to the rental or installation of temporary signs, including but not limited to real estate and construction site signs.

The erection of scaffolds, shoring, concrete or cement distributing towers, hod hoists, or construction elevators shall be separately classified as 9529(1), *Scaffolds, Shoring, Concrete or Cement Distributing Towers, Hod Hoists or Construction Elevators.*

The rental of mobile cranes or hoisting equipment with operators shall be classified as 7219(3), *Mobile Crane and Hoisting Service Contractors.*

EVENT MARKET, FESTIVAL OR TRADE SHOW OPERATION – all employees – N.O.C.**9095**

This classification applies to employers that organize and operate events or rent spaces to vendors that sell products or provide information to customers. Such events include but are not limited to farmers' markets, flea markets, street fairs, swap meets, art or antique festivals and trade shows (public or private). This classification also applies to the operation of events, including but not limited to fun runs, foot races, cycling events, marathons, triathlons and athletic charity events.

Employers that promote or market events but do not operate events shall be separately classified.

Traveling carnivals or circuses shall be classified as 9185, *Carnivals or Circuses.*

The rental, delivery and set up of temporary chain link fences or road traffic safety barricades when performed by separate concerns shall be classified as 8028, *Equipment or Machinery Rental Yards.*

The rental, service or repair of portable toilets when performed by separate concerns shall be classified as 9426, *Septic or Portable Toilet Services.*

Vendors, performers, entertainers, retail stores and the preparation and sale of food shall be separately classified.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

EXCAVATION – N.O.C. – including borrowing, filling or backfilling – employees whose regular hourly wage does not equal or exceed \$34.00 per hour 6218(1)

This classification applies to the excavation of land to prepare sites for the construction of buildings or structures, including but not limited to residential and commercial buildings, bridges, aerial line towers, driveways, parking lots and swimming pools. This classification includes incidental grading operations. This classification also applies to excavation for removal of contaminated soil.

Excavation in connection with the construction of streets, roads, highways or airport runways, or the excavation of all other areas in preparation for asphalt paving shall be classified as 5507, *Street or Road Construction – grading*.

Trenching operations conducted in connection with the construction of canals, irrigation systems, cross-country water pipelines, oil or gas pipelines or sewers shall be assigned to the applicable construction classification.

Mass rock excavation, pile driving, shaft sinking, caisson or cofferdam work shall be separately classified.

EXCAVATION – N.O.C. – including borrowing, filling or backfilling – employees whose regular hourly wage equals or exceeds \$34.00 per hour 6220(1)

Assignment of this classification is subject to verification at the time of final audit that the employee's regular hourly wage equals or exceeds \$34.00 per hour. The payroll of an employee whose regular hourly wage is not shown to equal or exceed \$34.00 per hour shall be classified as 6218(1), *Excavation – N.O.C.*

This classification applies to the excavation of land to prepare sites for the construction of buildings or structures, including but not limited to residential and commercial buildings, bridges, aerial line towers, driveways, parking lots and swimming pools. This classification includes incidental grading operations. This classification also applies to excavation for removal of contaminated soil.

Excavation in connection with the construction of streets roads, highways or airport runways, or the excavation of all other areas in preparation for asphalt paving shall be classified as 5507, *Street or Road Construction – grading*.

Trenching operations conducted in connection with the construction of canals, irrigation systems, cross-country water pipelines, oil or gas pipelines or sewers shall be assigned to the applicable construction classification.

Mass rock excavation, pile driving, shaft sinking, or caisson or cofferdam work shall be separately classified.

EXCAVATION – rock – no tunneling 1624(2)

This classification applies to rock excavation in connection with construction projects.

Crushing operations shall be separately classified.

Tunneling shall be classified as 6251, *Tunneling*.

Rock quarrying operations shall be classified as 1624(1), *Quarries*.

EXHIBITIONS

See Event Market, Festival or Trade Show Operation.

Part 3 – Standard Classification System**Section VII – Standard Classifications****EXPLOSIVE MFG. – N.O.C.****4771(1)**

This classification applies to the manufacture of explosives, including but not limited to fuses, detonators, flares, blasting agents, pyrotechnics, munitions and ammonium nitrate when no other classification more accurately describes the operations. This classification includes the packaging of blasting agents, propellants or explosives into shells or casings. This classification also applies to the identification and removal of ordnance at military installations.

The manufacturing, mixing or blending of gasses, including but not limited to oxygen, acetylene, arsine and carbonic acid gas, dry ice and liquefied hydrogen and nitrogen shall be classified as 4635, *Oxygen or Hydrogen Mfg.*

The manufacture of solid propellant rocket fuel shall be classified as 4771(2), *Rocket Propellant Mfg.*

EXPRESS COMPANIES – including terminal employees and mechanics**7219(2)**

This classification applies to the same-day and overnight delivery of freight for other concerns on a contract basis, including hauling freight between shipping points such as ports, airports and railroad stations.

When employees furnish the vehicles utilized in these operations, the determination of reportable remuneration shall be made in accordance with Section V, Rule 4, *Drivers' and Their Helpers' Payroll*.

The transport of the United States mail under contract to the United States Postal Service shall be classified as 7232, *Mail Delivery Service Companies*.

The contract delivery of parcels shall be classified as 7198(1), *Parcel Delivery and Messenger Service Companies*, if (1) less than 10% of the individual parcels and packages delivered weigh in excess of one hundred pounds, and (2) less than 10% of all deliveries have a total combined weight of all items delivered at any one stop exceeding two hundred pounds.

The contract hauling and disposal of waste shall be classified as 9403(1), *Garbage or Refuse Collecting*.

The transporting of household goods and furniture, office furniture and fixtures for separate concerns on a fee basis shall be classified as 8293(2), *Furniture Moving*.

F**FARM MACHINERY DEALERS OR REPAIR FACILITIES – shop or outside – including demonstration****8116**

This classification applies to dealers engaged in the sale or repair of new farm machinery or equipment, including but not limited to tractors, balers, combines and implements such as plows, discs and cultivators. This classification also applies to independent farm machinery repair facilities that are not dealers. Repair operations can be performed at the shop or at customers' locations on a job or warranty basis. This classification includes the display and sale of machines, equipment or parts and the operation of farm machinery for demonstration purposes. This classification also includes the incidental sale of used machinery received as trade-in merchandise.

Dealers whose sales of used machinery exceed 25% of gross receipts shall be classified as 8267, *Machinery and Equipment Dealers – secondhand*.

The sale of non-agricultural machinery shall be classified as 8107, *Machinery and Equipment Dealers*.

Part 3 – Standard Classification System**Section VII – Standard Classifications****FARM MACHINERY OPERATION – by contractors – including yard employees**

See Farms.

FARMS

Refer to Section IV, *Special Industry Classification Procedures*, Rule 4, *Farms*.

BUSH BERRY CROPS**0079(2)**

This classification applies to all acreage devoted to the cultivation and harvesting, including field packing, of bush berries, such as raspberries, olallieberries (blackberries), blueberries and boysenberries.

The washing, sorting, sizing, grading, packing, precooling or otherwise preparing of fresh fruit for shipment (not field packing) shall be separately classified as 2107, *Fruit – fresh fruit packing and handling*.

The cultivation and harvesting, including field packing, of strawberries shall be classified as 0079(1), *Strawberry Crops*.

Providing machinery and operating crews to conduct mechanized farming or harvesting operations for separate concerns on a fee basis shall be classified as 0050, *Farm Machinery Operation*.

COTTON FARMS**0044**

This classification applies to all acreage devoted to the cultivation and harvesting of cotton.

Cotton gin operations, including cotton compressing, shall be separately classified as 0401, *Cotton Gin Operation*.

The contract storage of baled cotton or the purchase and sale of cotton, including cotton compressing, when no ginning operations are performed, shall be classified as 0400, *Warehouses – cotton*.

Providing machinery and operating crews to conduct mechanized farming or harvesting operations for separate concerns on a fee basis shall be classified as 0050, *Farm Machinery Operation*.

DAIRY FARMS**0036**

This classification applies to all acreage devoted to the raising of cows for the production of milk or cream, or the raising of replacement dairy heifers. This classification also includes acreage devoted to the raising of goats for milk, cream or meat production. This classification includes the slaughtering of animals when performed by the employer.

This classification includes growing feed, hay or grain crops when more than 50% of such crops are used by the employer. Cultivation or harvesting of crops that are primarily sold to others shall be assigned to the appropriate *Farms* Industry Group classification.

Milk pasteurization, processing or bottling; dairy products manufacturing; or route drivers who deliver bottled milk to customers and perform no other duties on the farm premises shall be separately classified as 2063, *Dairy Products or Ice Mfg.*

The raising of beef cattle shall be classified as 0038(1), *Stock Farms*.

The raising of calves for others shall be classified as 0034(2), *Sheep, Hog or Calf Farms*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

<p>FARM MACHINERY OPERATION – by contractors – including yard employees</p> <p>This classification applies to employers that provide machinery and operating crews to conduct mechanized farming operations for separate concerns on a fee basis. Such operations include but are not limited to soil preparation, harvesting, pruning, baling, threshing and the application of insecticides, fertilizers, herbicides or seeds using farm machinery.</p> <p>The aerial application of insecticides, fertilizers, herbicides or seeds onto farmlands shall be classified as 7409, <i>Aircraft Operation – agricultural – dusting, spraying or seeding – members of the flying crew</i>, and 7410, <i>Aircraft Operation – agricultural – dusting, spraying or seeding – not members of the flying crew</i>.</p> <p>Contract grading of farm land shall be classified as 6218(3)/6220(3), <i>Land Leveling – grading farm lands</i>.</p>	0050
<p>FIELD CROPS</p> <p>This classification applies to all acreage devoted to the cultivation and harvesting of hay; alfalfa; flax; safflower; maize; all sorghums; or all the cereal grains, including but not limited to wheat, barley, rice, feed corn and oats.</p> <p>The cultivation and harvesting, including field packing, of sweet (edible) corn shall be classified as 0172, <i>Truck Farms</i>.</p> <p>The cultivation and harvesting of grass sod for use in landscaping shall be classified as 0005, <i>Nurseries</i>.</p> <p>Providing machinery and operating crews to conduct mechanized farming or harvesting operations for separate concerns on a fee basis shall be classified as 0050, <i>Farm Machinery Operation</i>.</p>	0171
<p>FLORISTS – cultivating or gardening</p> <p>This classification applies to employers that cultivate or garden flowers, potted flower plants, ferns or similar potted plants that are sold for indoor decorative purposes. This classification also applies to the cultivation of herbs, edible flowers, microgreens or cannabis.</p> <p>Employers engaged in the sale of cut flowers, potted flower plants, ferns or similar potted plants for indoor decorative purposes shall be classified as 8001, <i>Stores – florists</i>.</p> <p>Employers engaged in the propagation and cultivation of nursery stock, bedding plants, bulbs or trees that are sold for outdoor planting or decorative purposes shall be classified as 0005, <i>Nurseries</i>.</p>	0035
<p>LIVESTOCK FEED YARDS – including the milling or blending of feed for use in operations</p> <p>This classification applies to the feeding or fattening of livestock, including but not limited to cattle, sheep and hogs, on a fee basis prior to slaughter by separate concerns. This classification includes the transport of animals to and from the feed yard location.</p> <p>This classification includes growing feed, hay or grain crops when more than 50% of such crops are used by the employer. Cultivation and harvesting of crops that are primarily sold to others shall be assigned to the appropriate <i>Farms</i> Industry Group classification.</p> <p>Breeding and raising of livestock shall be separately classified.</p> <p>Livestock butchering operations, including feed yard operations by the same employer, shall be classified as 2081(1), <i>Butchering</i>.</p> <p>The fee-based care and feeding of livestock that are en route to slaughterhouses or to market shall be classified as 2081(2), <i>Stockyards</i>.</p>	0038(2)

Part 3 – Standard Classification System**Section VII – Standard Classifications**

<p>NURSERIES – propagation and cultivation of nursery stock</p> <p>0005</p> <p>This classification applies to the propagation and cultivation of nursery stock, bedding plants, vegetable plants, bulbs or trees that are sold for outdoor planting or decorative purposes. This classification also applies to the cultivation and harvesting of grass sod for sale to separate concerns.</p> <p>This classification includes the growing of seedlings, clones or starter plants for sale to separate concerns, including but not limited to farms.</p> <p>This classification also applies to the raising of bees for sale, honey production or rental to other concerns for pollinating crops. The processing of honey shall be separately classified as 6504, <i>Food Products Mfg. or Processing</i>.</p> <p>The cultivation of flowers, potted flower plants, ferns or similar potted plants that are sold for indoor decorative purposes, as well as herbs, edible flowers, microgreens or cannabis shall be classified as 0035, <i>Florists</i>.</p> <p>The operation of a garden supply store shall be separately classified as 8004, <i>Stores – garden supplies</i>.</p>
<p>ORCHARDS – citrus or deciduous fruits</p> <p>0016</p> <p>This classification applies to all acreage devoted to the cultivation and harvesting, including field packing, of citrus or deciduous fruit crops, including but not limited to oranges, lemons, limes, tangerines, kumquats, grapefruit, plums, peaches, cherries and nectarines, and includes the use of trellis systems or dwarf trees. This classification also applies to the cultivation and harvesting of avocados, figs (other than Kadota figs) and olives.</p> <p>The washing, sorting, sizing, grading, packing, precooling or otherwise preparing of deciduous fruit, olives or avocados for shipment (not field packing) shall be separately classified as 2107, <i>Fruit – fresh fruit packing and handling</i>.</p> <p>The washing, sorting, sizing, grading, packing, precooling or otherwise preparing of citrus fruit for shipment (not field packing) shall be separately classified as 2108, <i>Fruit – citrus fruit packing and handling</i>.</p> <p>Providing machinery and operating crews to conduct mechanized farming or harvesting operations for separate concerns on a fee basis shall be classified as 0050, <i>Farm Machinery Operation</i>.</p>
<p>ORCHARDS – nut crops</p> <p>0045</p> <p>This classification applies to all acreage devoted to the cultivation and harvesting of nut tree crops, including but not limited to almonds, walnuts and pistachios.</p> <p>Hulling, shelling or processing nuts shall be separately classified as 0096, <i>Nut Hulling, Shelling or Processing</i>.</p> <p>The cultivation and harvesting of peanuts shall be classified as 0041, <i>Potato Crops</i>.</p> <p>Providing machinery and operating crews to conduct mechanized farming or harvesting operations for separate concerns on a fee basis shall be classified as 0050, <i>Farm Machinery Operation</i>.</p>
<p>POTATO CROPS</p> <p>0041</p> <p>This classification applies to all acreage devoted to the cultivation and harvesting, including field packing, of all types of potatoes, sweet potatoes or yams. This classification applies to the manufacture of meat products, including but not limited to sausage; bacon; hot dogs; hamburger patties; ground meat; bologna; jerky and cured, smoked, dried or canned meats. This classification also applies to the manufacture of pet food from meat products.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

<p>Employers engaged in the cutting of sides or quarters of beef to produce steaks, roasts, chops and other meat portions, including ground meat in connection therewith, for sale to others shall be classified as 8021, <i>Stores – meat, fish or poultry – wholesale</i>, or 8031, <i>Stores – meat, fish or poultry – retail</i>.</p> <p>Can manufacturing shall be separately classified.</p>	
NUT HULLING, SHELLING OR PROCESSING	0096
<p>This classification applies to the hulling, shelling, cleaning, drying, sorting or packaging of nuts, including but not limited to peanuts, almonds, walnuts, pecans, pistachios and cashews. This classification also applies to nut processing, including but not limited to roasting, smoking, salt-ing and flavoring; the manufacture of peanut butter or other nut butters; or grinding nuts to produce meal or pastes for baking.</p> <p>Growing or harvesting, including field packing of crops, shall be assigned to the applicable <i>Farms Industry Group</i> classification.</p>	
OLIVE HANDLING – sorting, curing and canning	2111(2)
<p>This classification applies to the processing, including but not limited to washing, sorting, grading, pitting, stuffing, curing and canning or bottling of olives.</p> <p>The preserving and canning of fruit and vegetables shall be classified as 2111(1), <i>Fruit or Vegetable Preserving</i>.</p> <p>The curing, pickling and canning of vegetables and fruits shall be classified as 2111(3), <i>Fruit or Vegetable Pickling</i>.</p> <p>The extraction and refining of olive oil shall be classified as 4683(1), <i>Vegetable Oil Mfg. or Refining</i>.</p> <p>Can manufacturing shall be separately classified.</p> <p>Growing or harvesting of olives shall be classified as 0016, <i>Orchards – citrus or deciduous fruits</i>.</p>	
SUGAR MFG. OR REFINING – beet or cane – including beet dumps	2030
<p>This classification applies to the manufacture or refining of sugar, including granulated, powdered, raw, brown and liquid sugar and molasses.</p>	
VEGETABLE OIL MFG. OR REFINING – N.O.C.	4683(1)
<p>This classification applies to the extraction and refining of oil from vegetables, seeds (not cottonseed) and nuts, including but not limited to olives, peanuts, safflower seed, coconut meat and soy beans.</p> <p>This classification also applies to processing and refining waste cooking oil to produce fuel oil, including biodiesel.</p> <p>The extraction and refining of cottonseed oil shall be classified as 4683(2), <i>Cottonseed Oil Mfg. or Refining</i>.</p>	
VEGETABLES – fresh vegetable or tomato packing and handling – including storage	8209
<p>This classification applies to the washing, sorting, sizing, grading, packing, precooling and storage of fresh vegetables, including but not limited to lettuce, cabbage, celery, potatoes, broccoli, onions, yams, radishes, asparagus, sweet corn, mushrooms or tomatoes. This classification also applies to employers that resort, resize, regrade and repack previously packed fresh vegetables or tomatoes.</p>	

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The processing of “ready-to-eat” fruits or vegetables that are packaged as “ready-to-eat” or “pre-washed” and sold for immediate consumption without need for further peeling, trimming, washing or cooking shall be classified as 2123, *Fruit or Vegetable Processing – fresh – ready-to-eat*.

Pre-cooling or cold storage of produce that is exclusively field packed or received prepacked from separate concerns shall be classified as 8291(1), *Warehouses – cold storage*.

The packing and handling of fresh deciduous fruit shall be separately classified as 2107, *Fruit – fresh fruit packing and handling*.

The packing and handling of fresh citrus fruit shall be separately classified as 2108, *Fruit – citrus fruit packing and handling*.

The processing and canning of olives shall be classified as 2111(2), *Olive Handling*.

Growing or harvesting, including field packing, of crops shall be assigned to the applicable *Farms Industry Group* classification.

VINEGAR MFG.**2142(3)**

This classification applies to the manufacture of various types of vinegar, including but not limited to distilled, cider, malt, balsamic, rice and wine vinegar.

The production of wine, sparkling wine or alcoholic cider shall be classified as 2142(1), *Wineries*.

The production of distilled spirits shall be classified as 2142(2), *Distilling*.

Bottle manufacturing shall be separately classified.

VITAMIN OR DIETARY SUPPLEMENT MFG. – compounding, blending or packaging only – not manufacturing ingredients**4831**

This classification applies to the production or packaging of vitamins or dietary supplements involving mixing, blending, forming or packaging purchased dietary ingredients, including but not limited to vitamins, minerals, herbs or other botanicals, enzymes and amino acids. Vitamins or dietary supplements may be produced in various forms, including but not limited to tablet, caplet, capsule, powder or liquid form. Vitamins and dietary supplements have only negligible caloric value and are not a substitute for food. This classification includes the manufacture of containers that are used in the employer's production operations.

This classification also applies to the growing, harvesting and processing of algae to produce algae-based dietary supplements.

The manufacture or processing of food products shall be classified as 6504, *Food Products Mfg. or Processing*, unless the operations are more specifically described by another *Food Packaging and Processing Industry Group* classification.

The manufacturing, blending or packaging of drugs, medicines or pharmaceutical preparations that are intended for use in the diagnosis, cure, mitigation, treatment or prevention of disease shall be classified as 4611, *Drug, Medicine or Pharmaceutical Preparations Mfg.*

Compounding pharmacies that combine, mix or alter ingredients in response to a prescription to create a medication tailored to the medical needs of an individual patient shall be classified as 8017(1), *Stores – retail*.

The production or packaging of products intended to be rubbed, poured, sprinkled or sprayed on, or otherwise applied to, the human body for cleansing, beautifying, promoting attractiveness or altering appearance shall be classified as 4623, *Cosmetic, Personal Care or Perfumery Products Mfg.*

Part 3 – Standard Classification System**Section VII – Standard Classifications****WINERIES****2142(1)**

This classification applies to the production of wine, sparkling wine or alcoholic cider.

This classification includes employees who provide tours of the production operations, including tours where product tasting samples are provided to customers not in connection with tasting room, retail store, or restaurant or tavern operations.

Tasting rooms shall be separately classified as 8060, *Stores – wine, beer or spirits – retail*.

Restaurants, taverns or the preparation and serving of hot food shall be separately classified as 9079(1), *Restaurants or Taverns*.

The production of beer or similarly brewed beverages shall be classified as 2121, *Breweries*.

The production of distilled spirits shall be classified as 2142(2), *Distilling*.

The manufacture of vinegar shall be classified as 2142(3), *Vinegar Mfg.*

The production of nonalcoholic fruit juice or cider shall be classified as 2116, *Fruit or Vegetable Juice or Concentrate Mfg.*

Blending and bottling purchased wine or distilled spirits shall be classified as 8041, *Stores – wine or spirits – wholesale*.

Bottle manufacturing shall be separately classified.

Retail stores shall be separately classified.

Growing or harvesting, including field packing, of crops shall be assigned to the applicable *Farms Industry Group* classification.

FOOD PRODUCTS MFG. OR PROCESSING – N.O.C.

See Food Packaging and Processing.

FOREST ENGINEERS – including Clerical Office Employees, Clerical Telecommuter Employees and Outside Salespersons**8601(4)**

This classification includes timber cruising.

Commercial timber harvesting shall be separately classified as 2702(1), *Logging*.

FORGING WORKS – drop or machine – including trimming or grinding, heat treating and die making operations**3110(1)**

This classification applies to the heating and shaping of metal using compressive forces. This classification includes incidental processing operations, including but not limited to heat treating and trimming and grinding to remove excess metal. This classification also includes the manufacture of tool parts or dies that are used in the employer's operations.

The manufacture of hand-forged iron, brass, bronze or steel products shall be classified as 3110(3), *Blacksmithing*.

The casting of iron shall be classified as 3081, *Foundries – iron*.

The casting of steel shall be classified as 3082, *Foundries – steel castings*.

The casting of nonferrous metal shall be classified as 3085, *Foundries – nonferrous*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The machining of forged parts to produce finished parts or products, including but not limited to connectors, fittings, valves, couplings, connecting rods, cylinders, engine mounts, pliers, hammers, sledges, wrenches and sockets shall be separately classified.

FOUNDATION PREPARATION WORK – including foundation drilling – all operations to completion of substructure 6258

This classification applies to the preparation of construction sites for subsequent foundation construction, including but not limited to the drilling of foundation holes, construction of poured in place foundation piers, installation of shoring systems and incidental concrete work, masonry or pile driving, and all other operations to completion of the substructure. This classification also applies to the repair or strengthening of existing foundations.

This classification also applies to caisson and cofferdam work.

Building site excavation shall be separately classified as 6218(1)/6220(1), *Excavation – N.O.C.*

FOUNDRIES – investment casting – ferrous or nonferrous – all operations – including pattern and mold mfg. 3339

This classification applies to the manufacture of metal castings, either ferrous or nonferrous, by the lost wax or investment process.

Foundry operations are General Exclusions; therefore, unless specifically included in the phraseology of a classification, foundry operations shall be separately classified. See Part 3, Section III, Rule 6, *General Exclusions*.

The manufacture of metal castings, either ferrous or nonferrous, by die casting shall be classified as 1925, *Die Casting Mfg.*

The manufacture of iron castings by methods other than die casting or the lost wax or investment process shall be classified as 3081, *Foundries – iron*.

The manufacture of steel castings by methods other than die casting or the lost wax or investment process shall be classified as 3082, *Foundries – steel castings*.

The manufacture of castings from nonferrous metals, including but not limited to aluminum, brass, zinc or bronze by methods other than die casting or the lost wax or investment process shall be classified as 3085, *Foundries – nonferrous*.

FOUNDRIES – iron – N.O.C. 3081

This classification applies to foundries that produce iron castings, including incidental processing operations such as the removal of gates, risers, burrs and flash.

This classification includes the manufacture of foundry sand cores that are used in the employer's foundry operations.

The machining and assembly of castings to produce finished parts or products, including but not limited to water meter covers, pump housings, fire grates, weights, bolt anchors and gas burners shall be separately classified.

The manufacture of patterns for use in foundry operations shall be separately classified as 2790, *Pattern or Model Mfg.*

The casting of nonferrous metal shall be separately classified as 3085, *Foundries – nonferrous*, in accordance with the provisions of the Multiple Enterprises rule.

The casting of steel shall be separately classified as 3082, *Foundries – steel castings*, in accordance with the provisions of the Multiple Enterprises rule.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Die casting shall be classified as 1925, *Die Casting Mfg.*

The manufacture of metal castings, either ferrous or nonferrous, by the lost wax or investment process shall be classified as 3339, *Foundries – investment casting.*

FOUNDRIES – nonferrous – N.O.C.**3085**

This classification applies to foundries that produce nonferrous castings from metals, including but not limited to aluminum, brass, zinc, bronze and precious metals. This classification includes incidental processing operations such as the removal of gates, risers, burrs and flash.

This classification includes the manufacture of foundry sand cores that are used in the employer's foundry operations.

The machining and assembly of castings to produce finished parts or components, including but not limited to skateboard trucks, propellers, fittings, pump housings, billets, pulleys and valves shall be separately classified.

The manufacture of patterns for use in foundry operations shall be separately classified as 2790, *Pattern or Model Mfg.*

The casting of steel shall be separately classified as 3082, *Foundries – steel castings*, in accordance with the provisions of the Multiple Enterprises rule.

The casting of iron shall be separately classified as 3081, *Foundries – iron*, in accordance with the provisions of the Multiple Enterprises rule.

Smelting, sintering, refining or alloying metals shall be classified as 1438, *Smelting, Sintering, Refining or Alloying.*

FOUNDRIES – steel castings**3082**

This classification applies to foundries that produce steel castings, including incidental processing operations such as the removal of gates, risers, burrs and flash.

This classification includes the manufacture of foundry sand cores that are used in the employer's foundry operations.

The machining and assembly of castings to produce finished parts or products, including but not limited to suspension components, impellers, hinges, golf club heads, valves and rods shall be separately classified.

The manufacture of patterns for use in foundry operations shall be separately classified as 2790, *Pattern or Model Mfg.*

The casting of nonferrous metal shall be separately classified as 3085, *Foundries – nonferrous*, in accordance with the provisions of the Multiple Enterprises rule.

The casting of iron shall be separately classified as 3081, *Foundries – iron*, in accordance with the provisions of the Multiple Enterprises rule.

Die casting shall be classified as 1925, *Die Casting Mfg.*

The manufacture of metal castings, either ferrous or nonferrous, by the lost wax or investment process shall be classified as 3339, *Foundries – investment casting.*

FREIGHT FORWARDERS OR CONSOLIDATORS – N.O.C.**7360(2)**

This classification applies to the consolidation or deconsolidation of freight at a terminal location in preparation for shipping by truck, air, rail or ship for other concerns on a fee basis. This classification includes the incidental pickup of freight for consolidation and forwarding purposes.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Unloading, consolidating and loading services performed for other concerns on a fee basis at customers' shipping or receiving terminals shall be classified as 7360(1), *Freight Handlers*.

The hauling of freight for other concerns on a fee basis and all incidental freight handling activities shall be separately classified.

The storage of freight for other concerns on a fee basis shall be separately classified.

**FREIGHT HANDLERS – packing or handling merchandise at shipping or receiving terminals – 7360(1)
N.O.C.**

This classification applies to unloading, consolidating and loading services for other concerns on a fee basis at customers' shipping or receiving terminals. This classification also applies to baggage handlers who load and unload aircraft for other concerns on a fee basis.

The consolidation or deconsolidation of freight at a terminal location by freight forwarders in preparation for shipping by truck, air, rail or ship for other concerns on a fee basis shall be classified as 7360(2), *Freight Forwarders or Consolidators*.

The hauling of freight for other concerns on a fee basis and all incidental freight handling activities shall be separately classified.

The storage of freight for other concerns on a fee basis shall be separately classified.

FRUIT – citrus fruit packing and handling – including storage

See Food Packaging and Processing.

FRUIT – dried fruit packing and handling

See Food Packaging and Processing.

FRUIT – fresh fruit packing and handling – including storage – N.O.C.

See Food Packaging and Processing.

FRUIT OR VEGETABLE EVAPORATION OR DEHYDRATING

See Food Packaging and Processing.

FRUIT OR VEGETABLE JUICE OR CONCENTRATE MFG.

See Food Packaging and Processing.

FRUIT OR VEGETABLE PICKLING

See Food Packaging and Processing.

FRUIT OR VEGETABLE PRESERVING – including canning

See Food Packaging and Processing.

FRUIT OR VEGETABLE PROCESSING – fresh – ready-to-eat

See Food Packaging and Processing.

FRUIT OR VEGETABLE PROCESSING – frozen

See Food Packaging and Processing.

Part 3 – Standard Classification System**Section VII – Standard Classifications****FUEL AND MATERIAL DEALERS – N.O.C. – including counterpersons****8232(3)**

This classification applies to dealers of solid combustible fuel materials, including but not limited to coal, charcoal, firewood, bark, sawdust and wood chips. This classification also applies to dealers of compost and green waste materials, including incidental composting.

The processing of green waste, including but not limited to grass clippings, leaves, weeds, tree trimmings and similar yard waste at garbage or refuse landfill, transfer station or material recovery facility locations that are operated by the same employer shall be classified as 9424(1), *Garbage or Refuse Landfill, Transfer Station and Material Recovery Facility Operations*.

The manufacturing or blending of bark, sawdust, compost, wood chips and other soil amendments that include manure or other animal by-products shall be classified as 4665, *Rendering or Fertilizer Mfg.*

The wholesale distribution of gasoline, oil, propane or other types of petroleum products shall be classified as 8350, *Gasoline or Oil Dealers*.

The manufacture of wood chips for sale to co-generation plants shall be classified as 2710(2), *Log Chipping*.

Commercial lumberyards shall be classified as 8232(1), *Lumberyards*.

The sale of building materials, including secondhand building materials, shall be classified as 8232(2), *Building Material Dealers*.

FUNERAL DIRECTORS – all employees – including receptionists**9620**

This classification applies to funeral directors engaged in activities, including but not limited to scheduling funerals, assisting customers with the selection of caskets, arranging for the interment of bodies, embalming and preparing bodies for funeral services and transporting deceased persons, or funeral attendees in connection with funeral directing services.

Cemetery operations shall be classified as 9220(1), *Cemetery Operation*.

Crematorium operations shall be classified as 9220(2), *Crematory Operation*.

Transporting deceased persons or funeral attendees, not performed in connection with funeral directing by the same employer shall be classified as 7382, *Bus, Shuttle Van or Limousine Operations*.

Providing motorcycle escorts to funeral homes on a contract basis shall be classified as 7365, *Taxicab Operations*.

FURNACE OR HEATER MFG.**3175**

This classification applies to the manufacture of industrial ovens or kilns, or commercial or household furnaces. This classification also applies to the manufacture of metal fireplaces, gas or propane space heaters, paint booth heaters, industrial clothes dryers or crematory equipment.

The installation, service or repair of heaters or furnaces within commercial or residential buildings away from the shop shall be classified as 5183(3)/5187(3), *Heating or Air Conditioning Equipment*, provided the same employer does not engage in the installation of ductwork at the same job or location. The installation or repair of heating or air conditioning equipment where ductwork installation is performed by the employer at the same job or location shall be classified as 5538(2)/5542(2), *Heating or Air Conditioning Ductwork*.

The manufacture or shop repair by the manufacturer of portable electric space heaters shall be classified as 3570, *Electric Appliance Mfg.*

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The manufacture of wood burning stoves, or gas or electric commercial or household stoves or ovens used in cooking or baking food shall be classified as 3169(1), *Stove or Oven Mfg.*

The manufacture of commercial or household water heaters if 50% or more of the metal used is lighter than #9 gauge shall be classified as 3169(2), *Water Heater Mfg.* If more than 50% of the metal used is #9 gauge or heavier, the manufacture of commercial or household water heaters shall be classified as 3620(1), *Boiler Mfg.*

The manufacture or shop repair of swimming pool or spa water heaters shall be classified as 3501(2), *Machinery Mfg. – swimming pool or spa.*

The manufacture or shop repair of industrial autoclaves shall be classified as 3560(2), *Machinery Mfg. – industrial.*

The installation, service or repair of industrial ovens or kilns shall be separately classified.

FURNITURE ASSEMBLING – wood – including finishing**2881(1)**

This classification applies to the assembly of wood furniture, including but not limited to tables, chairs, desks, bookcases, bed frames, entertainment cabinets, game tables, credenzas and church pews exclusively from parts manufactured by other concerns. This classification also applies to the assembly of bamboo, caning, wicker or reed products and woven wood products.

This classification also applies to the assembly of wood brooms and brushes.

Upholstery operations shall be separately classified as 9522(2), *Upholstering – furniture.*

The manufacture of wood furniture involving the manufacture and subsequent assembly of wood parts shall be classified as 2883, *Furniture Mfg. – wood.*

The manufacture of unassembled wood furniture parts shall be classified as 2842, *Wood Products Mfg.*

The manufacture of metal furniture shall be classified as 3076(1), *Furniture Mfg. – metal.* The manufacture of combination metal and wood furniture shall be classified based on the predominant material used.

The manufacture of plastic furniture shall be separately classified.

FURNITURE MFG. – metal**3076(1)**

This classification applies to the manufacture of metal furniture, including but not limited to tables, chairs, desks, bed frames, bookcases and storage, filing or medicine cabinets. This classification also applies to the manufacture of metal bicycles, coffins and caskets, garment racks, display racks and vending machines.

Furniture upholstery operations shall be separately classified as 9522(2), *Upholstering – furniture.*

The upholstery of coffins and caskets shall be separately classified as 9522(4), *Upholstering – coffin or casket.*

The manufacture of wood furniture involving the manufacture and subsequent assembly of wood parts shall be classified as 2883, *Furniture Mfg. – wood.*

The assembly of wood furniture exclusively from parts manufactured by other concerns shall be classified as 2881(1), *Furniture Assembling.*

The manufacture of combination metal and wood furniture shall be classified based on the predominant material used.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The manufacture of metal wheelchairs shall be classified as 3076(6), *Wheelchair Mfg.*

FURNITURE MFG. – wood – including assembling or finishing**2883**

This classification applies to the manufacture of freestanding wood furniture, including but not limited to tables, chairs, desks, bookcases, bed frames, entertainment cabinets, game tables, credenzas, church pews and furniture frames. This classification also applies to incidental veneer operations.

Upholstery operations shall be separately classified as 9522(2), *Upholstering – furniture*.

The manufacture of cabinets and fixtures that are designed to be affixed to building walls or floors shall be classified as 2812, *Cabinet Mfg.*

The assembly of wood furniture exclusively from parts manufactured by other concerns shall be classified as 2881(1), *Furniture Assembling*.

The manufacture of metal furniture shall be classified as 3076(1), *Furniture Mfg. – metal*. The manufacture of combination metal and wood furniture shall be classified based on the predominant material used.

The manufacture of plastic furniture shall be separately classified.

FURNITURE MOVING – including packing or handling**8293(2)**

This classification applies to transporting, preparing or packing furniture or household goods for other concerns on a fee basis. This classification also applies to transporting, preparing or packing office furniture or fixtures for other concerns on a fee basis.

The storage of new furniture for furniture manufacturers or stores shall be classified as 8292, *Warehouses – general merchandise*.

The storage of furniture or household goods for other concerns on a fee basis shall be classified as 8293(1), *Warehouses – furniture*.

The storage of portable storage units, regardless of their contents, shall be classified as 8292, *Warehouses – general merchandise*.

The transporting of furniture under contract for furniture manufacturers or stores shall be classified as 7219(1), *Trucking Firms*.

The disassembly and reinstallation of modular furniture, partitions or workstations in connection with moving office furniture shall be separately classified as 5146(1), *Cabinet, Fixture or Trim Installation*.

G

GALVANIZING – hot dip**3372(4)**

This classification applies to hot dip galvanizing, which is the process of coating iron or steel with a layer of zinc by immersing the metal in a bath of molten zinc, for other concerns on a fee basis.

Galvanizing operations, when performed by the same employer in connection with its manufacturing, repair or service operations, shall be assigned to the applicable manufacturing, repair or service classification.

Electrogalvanizing shall be classified as 3372(1), *Electroplating, Electrogalvanizing or Anodizing*.

Part 3 – Standard Classification System**Section VII – Standard Classifications****GARBAGE OR REFUSE COLLECTING**

See Recycling and Refuse Management.

GARBAGE OR REFUSE LANDFILL, TRANSFER STATION AND MATERIAL RECOVERY FACILITY OPERATIONS

See Recycling and Refuse Management.

GAS MAINS OR CONNECTIONS CONSTRUCTION – including tunneling at street crossings – employees whose regular hourly wage does not equal or exceed \$34.00 per hour 6315(2)

This classification applies to the construction of gas mains and laterals from the main line to the property line, and includes incidental trenching, shoring and tunneling at street crossings. This classification also applies to the installation of gas lines within property lines when the gas pipe exceeds 6" in diameter.

The installation of gas lines within property lines using pipe that does not exceed 6" in diameter shall be classified as 5183(1)/5187(1), *Plumbing*.

The construction of cross-country pipelines between natural gas producing fields and points of connection with local distributing systems shall be separately classified as 6233, *Oil or Gas Pipeline Construction*.

All tunneling other than at street crossings shall be separately classified.

GAS MAINS OR CONNECTIONS CONSTRUCTION – including tunneling at street crossings – employees whose regular hourly wage equals or exceeds \$34.00 per hour 6316(2)

Assignment of this classification is subject to verification at the time of final audit that the employee's regular hourly wage equals or exceeds \$34.00 per hour. The payroll of an employee whose regular hourly wage is not shown to equal or exceed \$34.00 per hour shall be classified as 6315(2), *Gas Mains or Connections Construction*.

This classification applies to the construction of gas mains and laterals from the main line to the property line, and includes incidental trenching, shoring and tunneling at street crossings. This classification also applies to the installation of gas lines within property lines when the gas pipe exceeds 6" in diameter.

The installation of gas lines within property lines using pipe that does not exceed 6" in diameter shall be classified as 5183(1)/5187(1), *Plumbing*.

The construction of cross-country pipelines between natural gas producing fields and points of connection with local distributing systems shall be separately classified as 6233, *Oil or Gas Pipeline Construction*.

All tunneling other than at street crossings shall be separately classified.

GAS WORKS – all operations – including construction or extension of lines 7500

This classification applies to the operations of publicly or privately operated natural gas utility companies. The operations include but are not limited to the operation and maintenance of gas processing and storage plants; construction or repair of gas lines and valves; installation, repair and replacement of flow regulation and metering devices; meter reading activities; and the sale and delivery of containerized propane or liquefied petroleum gas.

The sale and delivery of containerized propane or liquefied petroleum gas by separate concerns shall be classified as 8350, *Gasoline or Oil Dealers*.

The operation of gas pipelines on a fee basis shall be classified as 7515, *Oil or Gas Pipeline Operation*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The construction of gas pipelines between natural gas producing fields and points of connection with local distributing systems by separate concerns shall be classified as 6233, *Oil or Gas Pipeline Construction*.

The construction of gas mains along streets or roads by separate concerns shall be classified as 6315(2)/6316(2), *Gas Mains or Connections Construction*.

GASKET MFG.**4983**

This classification applies to the manufacture of gaskets or o-rings from materials, including but not limited to metal, rubber, plastic, cork, paper or composite materials. This classification includes the laminating of gasket materials.

The manufacture of stamped metal washers from metal sheet stock shall be classified as 3400, *Metal Goods Mfg.*

The manufacture of various metal hardware items, including but not limited to builders' hardware; electrical outlet and switch boxes; hinges; locks; pipe or cable hangers; brackets, latches, and casters; door, window and cabinet hardware; and drawer slides hardware shall be classified as 3146(1), *Hardware Mfg.*

GASOLINE OR OIL DEALERS – wholesale – including mixing or blending

See Petroleum Industry.

GASOLINE RECOVERY

See Petroleum Industry.

GASOLINE STATIONS – retail – all employees – including cashiers

See Automotive Industry.

GATE OR CORRAL MFG. – tube or pipe stock**3401(2)**

This classification applies to the manufacture of metal gates, corrals, stanchions and fence sections if more than 50% of the metal used is tube or pipe stock.

The manufacture of metal products not more specifically described by another classification shall be classified as 3401(1), *Tube or Pipe Products Mfg.*, if more than 50% of the metal used is tube or pipe stock.

The fabrication of structural iron or steel components used in the framing of buildings, whether or not tubular stock is utilized, shall be classified as 3030, *Iron or Steel Works – structural*.

The fabrication of non-structural architectural or ornamental iron or steel components, whether or not tubular stock is utilized, shall be classified as 3040, *Iron or Steel Works – non-structural*.

GLASS MERCHANTS – including bending, grinding, beveling or silvering plate glass – including counterpersons**4130**

This classification applies to glass merchants that sell glass stock or insulated glass units to other concerns. This classification also applies to related fabrication, including but not limited to the cutting, beveling, tempering, laminating and polishing of glass as required by customer orders, and the incidental engraving of the fabricated glass. This classification also applies to the manufacture of mirrored glass by silvering. This classification includes the shop repair of glass items, including but not limited to windows, mirrors and table tops.

Glass cutting operations that are performed in connection with door or window manufacturing operations by the same employer shall be classified as 3060(1), *Door or Window Mfg. – metal or plastic*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The manufacture of hand-blown or hand-assembled glass products shall be classified as 4111(1), *Glassware Mfg. – no automatic or semi-automatic machines*.

The manufacture of glass products by use of automatic or semi-automatic machines shall be classified as 4114, *Glassware Mfg. – N.O.C.*

The manufacture of stained glass windows, leaded glass windows, art glass panels, glass mosaics or lampshades shall be classified as 4111(3), *Cathedral or Art Glass Products Mfg.*

The installation of tub or shower enclosures, mirrors, mirrored wardrobe doors or window screens shall be separately classified as 5146(1), *Cabinet, Fixture or Trim Installation*.

The repair or replacement of automobile or truck glass shall be separately classified as 8389, *Automobile or Truck Repair Facilities*.

The installation of glass panes or insulated glass units at customers' locations shall be separately classified as 5467/5470, *Glaziers*.

GLASSWARE MFG. – no automatic or semi-automatic machines**4111(1)**

This classification applies to the manufacture of hand-blown or hand-assembled glass products, including but not limited to figurines, jewelry boxes, picture frames, aquariums, tile, laboratory beakers and test tubes.

The manufacture of glass products using automatic or semi-automatic machines shall be classified as 4114, *Glassware Mfg. – N.O.C.*

The manufacture of stained glass windows, leaded glass windows, art glass panels, glass mosaics and lampshades shall be classified as 4111(3), *Cathedral or Art Glass Products Mfg.*

The manufacture of glass lamps or tubes, including but not limited to incandescent lamps, fluorescent tubes, electronic tubes and arc lamps shall be classified as 4111(2), *Incandescent Lamp and Fluorescent Tube Mfg.*

The manufacture of optical goods from optical grade glass, plastic or metal, including but not limited to light filters, prisms and reflectors shall be classified as 4150(1), *Optical Goods Mfg.*

The manufacture of optical lenses shall be classified as 4150(2), *Lens Mfg.*

Sand or gravel digging, clay digging, or quarrying shall be separately classified.

GLASSWARE MFG. – N.O.C.**4114**

This classification applies to the manufacture of glass products, including but not limited to bottles, jars, blocks, bricks, tile, glass fiber, automobile windshields and sheet, rod and tube stock by use of automatic or semi-automatic machines.

The manufacture of hand-blown or hand-assembled glass products, including but not limited to figurines, jewelry boxes, picture frames, aquariums, tile, laboratory beakers and test tubes, shall be classified as 4111(1), *Glassware Mfg. – no automatic or semi-automatic machines*.

**INSTRUMENT INSTALLATION, SERVICE OR REPAIR – medical, professional or scientific –
away from shop – not office machines** **5128**

This classification applies to the installation, service or repair of electronic instruments used in the medical, biomedical or healthcare industries, including but not limited to medical imaging and scanning equipment, health monitors, surgical or treatment equipment and sample analyzers. This classification also applies to the installation, service or repair of professional or scientific instruments used for research, testing, measuring or calibration in the geological, petroleum, biomedical, pharmaceutical, aerospace or defense industries or by other military or governmental entities. This classification includes the installation of low voltage cabling that is performed in connection with instrument installation, service or repair operations by the same employer.

This classification also applies to the fee-based repair away from the shop of Unmanned Aircraft Systems (aerial drones) with an aircraft system and payload total combined weight of less than 55 pounds.

The installation, service or repair of machinery, equipment or instruments used in the manufacturing or processing of integrated circuit chips or semiconductor wafers shall be classified as 5129, *Integrated Circuit or Semiconductor Processing Equipment Installation, Service or Repair*.

The installation, service or repair of programmable industrial controls shall be classified as 5130(1), *Programmable Industrial Controls Installation, Service or Repair*.

The installation of low voltage communications cabling within buildings that is not performed in connection with the installation, service or repair of instruments by the same employer shall be classified as 5195, *Communications Cabling*.

The installation of electrical wiring within buildings shall be classified as 5140/5190, *Electrical Wiring – within buildings*.

The manufacture or fee-based shop repair of Unmanned Aircraft Systems (aerial drones) with a total combined weight of less than 55 pounds shall be separately classified as 3681(1), *Instrument Mfg. – electronic*.

The operating crew of Unmanned Aircraft Systems (aerial drones) with a total combined weight of less than 55 pounds, including but not limited to test flight operations performed in connection with repair or by the manufacturer shall be classified in accordance with Section III, Rule 5, *General Inclusions*.

The shop repair of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier by the manufacturer shall be classified as 3830(2), *Unmanned Aircraft System Mfg.*

The repair of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier on a fee basis, or repair work performed by the manufacturer away from shop shall be classified as 7428(3), *Aircraft Remanufacture, Conversion, Modification and Repair Companies*.

The manufacture or shop repair of electronic professional or scientific instruments other than medical instruments shall be classified as 3681(1), *Instrument Mfg. – electronic*.

The manufacture of electronic medical instruments used for diagnostic or treatment purposes shall be classified as 3572, *Medical Instrument Mfg.*

The manufacture of non-electronic scientific or medical instruments shall be classified as 3682, *Instrument Mfg. – non-electronic*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The shop repair of instruments shall be assigned to the applicable instrument manufacturing classification.

The installation or repair of industrial machinery, including but not limited to pumps, generators, printing presses, sawmill equipment and food processing equipment away from the shop shall be classified as 3724(1), *Millwright Work*.

The installation, service or repair of computers, servers or computer peripheral equipment shall be classified as 5193, *Computer or Telephone System or Equipment Installation, Service or Repair*.

The installation, service or repair of office machines shall be classified as 5191, *Office Machine or Point of Sale Equipment Installation, Service or Repair*.

INSTRUMENT MFG. – electronic – professional or scientific – N.O.C.

See Electronics Industry.

INSTRUMENT MFG. – non-electronic – scientific or medical – N.O.C.**3682**

This classification applies to the manufacture or shop repair of non-electronic instruments, including but not limited to micrometers, surveying levels, sighting rods, hypodermic syringes, scalpels and microscopes. This classification also applies to the manufacture of catheters, binoculars, compasses, telescopes, implantable medical devices, orthodontic components, medical hand tools, non-electronic scales, measuring tapes or rifle scopes.

This classification also applies to employers that design proprietary, non-electronic instruments and subcontract manufacturing to other concerns provided the employer also:

1. Manufactures the prototype or subcontracts the manufacture of the prototype; or
2. Receives the manufactured product and performs quality control operations prior to shipment.

Employers that neither design nor manufacture the product, but purchase products from manufacturers for resale purposes, shall be assigned to the applicable *Stores* Industry Group classification notwithstanding that they may engage in some product preparation or quality control operations.

The manufacture of electronic medical instruments shall be classified as 3572, *Medical Instrument Mfg.*

The manufacture of electronic professional or scientific instruments shall be classified as 3681(1), *Instrument Mfg. – electronic*.

The repair of instruments away from the shop shall be separately classified.

INSULATION WORK – installation or application of acoustical or thermal insulating materials in buildings or within building walls – N.O.C.**5479**

This classification applies to the installation of insulating materials within buildings for the purpose of mitigating acoustic and thermal transfer.

The installation of insulation materials when performed by the same employer that performs wood framing or light gauge steel framing at the same job or location shall be classified as 5403/5432, *Carpentry*, or 5632/5633, *Steel Framing*.

The installation of insulation materials when performed by the same employer that performs wallboard installation and no wood framing or light gauge steel framing at the same job or location shall be classified as 5446/5447, *Wallboard Installation*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The installation of insulation materials onto steam pipes, boilers and heat exchangers shall be classified as 5184, *Steam Pipe or Boiler Insulation*.

The installation of firestop materials, including firestop caulking, shall be classified as 5474(2)/5482(2), *Waterproofing*.

INSURANCE COMPANIES – all employees – including Clerical Office Employees, Clerical Telecommuter Employees and Outside Salespersons 8822

This classification applies to employers licensed by the California Department of Insurance as insurance companies to underwrite a variety of commercial or personal coverages, including but not limited to health, disability, automobile, property, title, liability, workers' compensation, life and annuity insurance, and surety bonds.

MACHINE MFG. – office or sewing – N.O.C.**3574(1)**

This classification applies to the manufacture of mechanical and electrical-mechanical machines, including but not limited to photocopiers, staplers, labelers, postage affixers, money counters, sewing machines and film developing equipment. This classification also applies to the manufacture of cash registers, carburetors, speedometers, small arms and air pressure regulators. This classification also applies to refurbishing and refilling used printer toner and ink cartridges.

The manufacture of electronic office machines shall be assigned to the applicable *Electronics Industry Group* classification.

MACHINE SHOPS – aircraft components**3831**

This classification applies to employers that are approved by the Federal Aviation Administration and engage in the manufacture or repair of machined aircraft components and accessories provided the employer does not remove or install parts or otherwise work directly on the aircraft.

Employers that remove or install parts or otherwise work directly on the aircraft shall be classified as 7428(3), *Aircraft Remanufacture, Conversion, Modification and Repair Companies*.

MACHINE SHOPS – N.O.C.**3632**

This classification applies to machining operations performed on a contract or proprietary basis when such operations are not specifically described by another machining, manufacturing or assembly classification. This classification includes the drilling of printed circuit boards on a contract basis.

Manufacturing screw machine products, including but not limited to connectors, fittings, spacers, pins and bushings, on a fee basis or as proprietary products using fully automatic screw machines for some or all of the machining operations shall be classified as 3152(3), *Screw Machine Products Mfg.*

Manufacturing nuts, bolts, screws or similar threaded fasteners shall be classified as 3152(2), *Nut, Bolt or Screw Mfg.*

The manufacture of machined aircraft parts by employers that are approved by the Federal Aviation Administration shall be classified as 3831, *Machine Shops – aircraft components*.

Manufacturing new automobile, truck or motorcycle parts shall be classified as 3840, *Automobile, Truck or Motorcycle Parts Mfg.*

The machining or rebuilding of used automotive parts shall be classified as 3828, *Automobile or Truck Parts Rebuilding*.

MACHINERY AND EQUIPMENT DEALERS – N.O.C.**8107**

This classification applies to dealers of new machinery or equipment, including but not limited to excavators, loaders, graders, conveyors, pumps, generators, mobile cranes, bulldozers, ma-

ing or chemical industries. This includes industrial machinery such as lathes, drills, compressors, autoclaves, printing equipment, bindery equipment, power presses, plating units, chemical mixers and robotic systems that are not material handling systems.

The manufacture or shop repair of portable power tools or machinery shall be classified as 3501(1), *Machinery Mfg. – portable tools*.

The manufacture of commercial food processing equipment or machinery shall be classified as 3560(1), *Machinery Mfg. – commercial food processing equipment*.

The manufacture or shop repair of material handling equipment, including robotic material handling systems, shall be classified as 3560(3), *Machinery Mfg. – material handling equipment*.

The manufacture or shop repair of agricultural, construction, mining or ore milling equipment shall be classified as 3507, *Machinery or Equipment Mfg.*

Installation, service or repair operations away from the shop shall be separately classified.

MACHINERY MFG. – material handling equipment**3560(3)**

This classification applies to the manufacture or shop repair of material handling equipment, including but not limited to conveyors, pallet jacks, loading and unloading equipment, industrial carts, robotic material handling systems, and packaging or labeling equipment.

The manufacture of forklift trucks shall be classified as 3815(1), *Truck, Truck Trailer or Bus Mfg. or Assembling*.

The manufacture of portable power tools shall be classified as 3501(1), *Machinery Mfg. – portable tools*.

The manufacture or shop repair of agricultural, construction, mining or ore milling equipment shall be classified as 3507, *Machinery or Equipment Mfg.*

Installation or repair operations away from the shop shall be separately classified.

MACHINERY MFG. – portable tools**3501(1)**

This classification applies to the manufacture or shop repair of portable power tools or machinery, including but not limited to spray guns, pneumatic tools, air compressors, compactors, grinders, vibrators, chain saws, saws, staple guns, hand drills, routers, sanders, and portable lawn care equipment such as leaf blowers, lawn mowers, lawn edgers, hedgers and seeders. This classification also applies to the manufacture or shop repair of household lawn or garden tractors.

The manufacture of non-powered cutting, machining or hand tools shall be classified as 3099, *Tool Mfg.*

The manufacture or shop repair of swimming pool or spa equipment shall be classified as 3501(2), *Machinery Mfg. – swimming pool or spa*.

The manufacture or shop repair of agricultural, construction or ore mining or milling equipment shall be classified as 3507, *Machinery or Equipment Mfg.*

The manufacture of stationary industrial machinery shall be classified as 3560(2), *Machinery Mfg. – industrial*.

Installation, service or repair operations away from the shop shall be separately classified.

Part 3 – Standard Classification System**Section VII – Standard Classifications****MACHINERY MFG. – swimming pool or spa****3501(2)**

This classification applies to the manufacture or shop repair of swimming pool or spa equipment, including but not limited to pumps, filters, heaters, pool sweeps and air blowers. This classification also applies to the assembly of components, including but not limited to pumps, filters, heaters, tubing, controls, electrical wire, spa shells and cabinet panels to produce portable spas.

The repair of swimming pool or spa equipment away from the shop shall be separately classified.

The manufacture of plastic spa shells shall be separately classified as 4497, *Plastics – fiber reinforced plastic products mfg.*

The manufacture of wood cabinet panels for use in the manufacture of portable spas shall be separately classified as 2842, *Wood Products Mfg.*

The construction of inground swimming pools or spas shall be separately classified.

MACHINERY OR EQUIPMENT MFG. – agricultural, construction, mining or ore milling**3507**

This classification applies to the manufacture or shop repair of agricultural, construction, mining or ore milling equipment, including but not limited to tractors, combines, harvesters, road construction equipment, boom cranes, personnel lifts, plaster spraying equipment, bridge crane trucks, oil well drilling equipment, earth moving equipment, paving equipment, jaw crushers, hammer mills and grinding mills.

The manufacture or shop repair of portable power tools, portable power machinery or household lawn or garden tractors shall be classified as 3501(1) *Machinery Mfg. – portable tools.*

The manufacture of commercial food processing equipment or machinery shall be classified as 3560(1), *Machinery Mfg. – commercial food processing equipment.*

The manufacture of stationary industrial machinery utilized in metal working, woodworking, plastics manufacturing, textiles, paper producing, printing or chemical industries shall be classified as 3560(2), *Machinery Mfg. – industrial.*

The manufacture of material handling equipment shall be classified as 3560(3), *Machinery Mfg. – material handling equipment.*

The repair of agricultural, construction, mining or ore milling machinery or equipment away from the shop shall be separately classified as 3724(1), *Millwright Work.*

MAIL DELIVERY SERVICE COMPANIES – firms operating under contract to the United States Postal Service – all employees**7232**

This classification applies to delivery service companies that contract with the United States Postal Service to transport parcels, packages and bulk mail between regional mail processing facilities, from regional mail processing facilities to local post offices, or from local post offices to addressees.

Messenger services and parcel and mail delivery services that are not performed under contract with the United States Postal Service shall be classified as 7198(1), *Parcel Delivery and Messenger Service Companies*, subject to the applicable weight limitations provided in that classification.

MAILING OR ADDRESSING COMPANIES – including Clerical Office Employees and Clerical Telecommuter Employees**8800**

This classification applies to companies that contract with customers to prepare and mail various items, including but not limited to promotional literature, flyers, advertisements, billing statements and business forms.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

This classification also includes printing operations if more than 50% of the printed materials are addressed or mailed by the employer. If 50% or more of the printed materials are not addressed or mailed by the insured, the printing operations and the mailing or addressing operations constitute Multiple Enterprises and shall be assigned in accordance with the provisions of the Multiple Enterprises rule.

MARINE APPRAISERS OR SURVEYORS**7248**

This classification applies to the inspection and surveying of marine vessels, including but not limited to ships, boats and barges for safety and to determine seaworthiness for insurance or valuation purposes on a fee basis.

This classification also applies to the fee inspection and surveying of cargo that may have been damaged in marine transit.

Inspection for insurance, safety or valuation purposes that is not performed in connection with marine vessels shall be classified as 8720(1), *Inspection for Insurance, Safety or Valuation Purposes*.

The weighing, grading, inspecting and sampling of merchandise other than marine cargo shall be classified as 8720(3), *Weighers, Samplers or Inspectors of Merchandise on Docks or at Railway Stations or Warehouses*.

MASONRY – employees whose regular hourly wage does not equal or exceed \$28.00 per hour – N.O.C. 5027

This classification applies to the construction of structures, load bearing or non-load bearing walls, fences, fireplaces, walkways, retaining walls, barbecues, enclosures or similar items using masonry materials, including but not limited to brick, natural or manufactured stone, concrete block and glass block. This classification also applies to the installation of swimming pool coping, fireproofing tile or cemetery monuments.

The installation of adhered or bonded lightweight architectural non-load bearing stone or brick veneer products shall be classified as 5348, *Tile, Stone, Mosaic or Terrazzo Work*.

Masonry work performed in connection with sewer construction shall be classified as 6307/6308, *Sewer Construction*.

MASONRY – employees whose regular hourly wage equals or exceeds \$28.00 per hour – N.O.C. 5028

Assignment of this classification is subject to verification at the time of final audit that the employee's regular hourly wage equals or exceeds \$28.00 per hour. The payroll of an employee whose regular hourly wage is not shown to equal or exceed \$28.00 per hour shall be classified as 5027, *Masonry*.

This classification applies to the construction of structures, load bearing or non-load bearing walls, fences, fireplaces, walkways, retaining walls, barbecues, enclosures or similar items using masonry materials, including but not limited to brick, natural or manufactured stone, concrete block and glass block. This classification also applies to the installation of swimming pool coping, fireproofing tile or cemetery monuments.

The installation of adhered or bonded lightweight architectural non-load bearing stone or brick veneer products shall be classified as 5348, *Tile, Stone, Mosaic or Terrazzo Work*.

Masonry work performed in connection with sewer construction shall be classified as 6307/6308, *Sewer Construction*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

MATTRESS OR BOX SPRINGS MFG. – including pillow, quilt, comforter or cushion manufacturing **2570**

This classification applies to the manufacture of mattresses and box springs, including incidental sewing operations. This classification applies to the manufacture of foam mattresses with sewn fabric covers. This classification also applies to the reconditioning of mattresses and box springs, and the manufacture of pillows, quilts, comforters or cushions when performed in connection with mattress and box spring manufacturing.

The manufacture of water bed bladders and inflatable mattresses shall be classified as 2501(1), *Clothing Mfg.*

The fabrication of foam material to manufacture mattress pads without sewn fabric covers shall be classified as 4496, *Plastics – fabricated products mfg.*

The manufacture of bed spring and wire mattress assemblies and the repair of springs in connection with the reconditioning of mattresses and box springs shall be separately classified as 3257, *Wire Goods Mfg.*

The manufacture of pillows, quilts, comforters or cushions not in connection with mattress and box spring manufacturing shall be classified as 2571, *Pillow, Quilt, Comforter or Cushion Mfg. – no mattress or box spring manufacturing.*

METAL SCRAP DEALERS

See Recycling and Refuse Management.

METAL STOCK DEALERS – ferrous or nonferrous – not metal scrap dealers **8106**

This classification applies to the sale of new ferrous or nonferrous metal stock, including but not limited to iron, steel, aluminum, brass and bronze. This classification also applies to the sale of load bearing metal wire rope or cable. This classification includes cutting, shearing, slitting, bending and straightening that is performed in connection with metal sales.

The fabrication of structural iron or steel components shall be classified as 3030, *Iron or Steel Works – structural.*

The fabrication of non-structural architectural or ornamental iron, steel, brass or bronze items shall be classified as 3040, *Iron or Steel Works – non-structural.*

Dealers of ferrous, nonferrous or stainless steel scrap metal shall be classified as 8500, *Metal Scrap Dealers.*

Fixed locations (not mobile) where employers collect or purchase, sort, consolidate and sell recovered recyclable raw materials, including but not limited to glass, plastic, paper and rubber, and where the sale of ferrous or nonferrous scrap metal does not equal or exceed 25% of gross receipts shall be classified as 9424(2), *Recycled Material Dealers.*

Part 3 – Standard Classification System**Section VII – Standard Classifications****METAL WORKING CLASSIFICATIONS**

The following grouping includes classifications applicable to the manufacturing and machining of metal stock to produce an end-product that is not specifically described by another classification. Pursuant to Part 3, Section II, Rule 17, a classification having a N.O.C. (not otherwise classified) qualifier shall not be used if another classification more accurately describes the operation. As such, the following group does not include all possible classifications applicable to the manufacture or machining of metal products. For classifications that describe the manufacture or assembly of specific products, refer to the alphabetical listing of classifications. Foundry operations shall be classified in accordance with the provisions of Part 3, Section III, Rule 6, *General Exclusions*.

ALUMINUM WARE MFG. – shop only – from sheet aluminum**3066(3)**

This classification applies to the manufacture of various aluminum products from sheet stock, including but not limited to aluminum cookware, foil baking pans and aluminum baseball bats.

The shop fabrication of aluminum sheet metal products in connection with installation, construction or erection operations by the same employer shall be classified as 5538(1)/5542(1), *Sheet Metal Work*.

If more than 50% of the metal used is sheet copper or brass, the operations shall be classified as 3066(4), *Coppersmithing*.

BOILER MFG. – plate steel – shop only**3620(1)**

This classification applies to the manufacture or shop repair of boilers, water heaters and tube and shell type heat exchangers if more than 50% of the metal used is #9 gauge or heavier. If 50% or more of the metal used is lighter than #9 gauge, the operations shall be classified as 3169(2), *Water Heater Mfg.*

Payroll of a tool and die department shall be assigned to Classification 3099, *Tool Mfg.*, if more than 50% of the tools and dies are sold commercially and are not used in any way in the employer's production operations. Otherwise, the payroll of a tool and die department shall be assigned to Classification 3620(1).

The manufacture of industrial ovens or kilns and commercial or household furnaces or heaters shall be classified as 3175, *Furnace or Heater Mfg.*

The installation and outside repair of boilers, water heaters and tube and shell type heat exchangers shall be classified as 3726, *Boiler Installation, Service or Repair*.

COPPERSMITHING – shop only**3066(4)**

This classification applies to the manufacture of various copper and brass products from sheet stock, including but not limited to cookware, architectural metalwork, sculptural and ornamental items, and metal musical instruments such as trumpets, cornets, horns and tubas.

Shop manufacture of copper or brass sheet metal products in connection with installation, construction or erection operations by the same employer shall be classified as 5538(1)/5542(1), *Sheet Metal Work*.

If more than 50% of the metal used is sheet aluminum, the operations shall be classified as 3066(3), *Aluminum Ware Mfg.*

IRON OR STEEL WORKS – non-structural – shop – fabricating, assembling or manufacturing ornamental brass, bronze or iron work; railings; balconies; fire escapes; staircases; iron shutters or other non-structural iron or steel work**3040**

This classification applies to the fabrication of non-structural architectural or ornamental iron, steel, brass or bronze products, including but not limited to railings, balconies, fire escapes,

Part 3 – Standard Classification System**Section VII – Standard Classifications**

staircases, shutters, and window and door grillwork from materials such as rod, bar, tube, square, angle and channel stock.

Employers engaged in the fabrication of both non-structural and structural iron or steel products shall be classified as 3040 if more than 50% of the shop time is devoted to the fabrication of non-structural iron or steel products. If 50% or more of the shop time is devoted to the fabrication of structural iron or steel products, the operations shall be classified as 3030, *Iron or Steel Works – structural*.

The manufacture of metal gates, corrals, stanchions and fence sections shall be classified as 3401(2), *Gate or Corral Mfg.*, if more than 50% of the metal used is tube or pipe stock.

The fabrication of miscellaneous non-structural metal products shall be classified as 3620(2), *Plate Steel Products Fabrication*, if more than 50% of the metal used is #9 gauge or heavier.

The cutting, bending, forming and assembly of reinforcing steel at a permanent shop or yard shall be classified as 3039, *Reinforcing Steel Fabrication*.

Casting of steel or rolling mills shall be separately classified.

IRON OR STEEL WORKS – structural – shop – fabricating or assembling girders, beams, columns, trusses, stringers or other structural iron or steel	3030
--	-------------

This classification applies to the fabrication of structural iron or steel components, including but not limited to girders, beams, columns, trusses, communications towers, light standards and stringers from materials such as “I”, “H” and “C” beams; channel, angle and bar stock; pipe; tubing; and sheet plate.

The erection of structural steel shall be separately classified.

Employers engaged in the fabrication of both structural and non-structural iron or steel products shall be classified as 3030 if 50% or more of the shop time is devoted to the fabrication of structural iron or steel products. If more than 50% of the shop time is devoted to the fabrication of non-structural iron or steel products, the operations shall be classified as 3040, *Iron or Steel Works – non-structural*.

The fabrication of miscellaneous non-structural metal products shall be classified as 3620(2), *Plate Steel Products Fabrication*, if more than 50% of the metal used is #9 gauge or heavier.

The cutting, bending, forming and assembly of reinforcing steel at a permanent shop or yard shall be classified as 3039, *Reinforcing Steel Fabrication*.

LEAD MFG., RECLAIMING OR ALLOYING – including litharge and lead oxide manufacturing	3647(2)
--	----------------

METAL GOODS MFG. – N.O.C.	3400
----------------------------------	-------------

This classification applies to the fabrication of miscellaneous metal products, including but not limited to brackets, clips, panels, washers, drums, tanks and chassis from metal sheet stock if more than 50% of the metal used is #10 to #14 gauge, or if more than 50% of the metal used is #15 or lighter and metal stamping payroll exceeds 10% of the total manufacturing payroll.

Metal stamping is defined as the operation of power-driven presses or brakes, or foot- or hand-power presses or brakes, used for blanking, forming, trimming, drawing, punching or assembling metal where the operator places each piece under the point of operation at each complete press or brake stroke.

Operations performed on power presses that may be interchangeably hand fed or automatically fed shall be considered metal stamping.

Metal stamping does not include (1) rotary punches, whether computer or manually controlled, which require only the loading and unloading of the work piece by the operator and do not require the operator to place or reposition the work piece after each stroke, or (2) hydraulic

Part 3 – Standard Classification System**Section VII – Standard Classifications**

presses or brakes where the ram travel will automatically stop upon release of the activating mechanism.

Payroll of a tool and die department shall be assigned to Classification 3099, *Tool Mfg.*, if more than 50% of the tools and dies are sold commercially and are not used in any way in the employer's production operations. Otherwise, the payroll of a tool and die department shall be assigned to Classification 3400.

Employers engaged in rolling or drawing metal shall be classified as follows:

1. Employers engaged in the heating and rolling of metal stock shall be classified as 3018, *Steel Making or Processing*.
2. Employers engaged in the rerolling of metal stock shall be classified as 3018, *Steel Making or Processing*, if 50% or more of the metal stock used is #9 gauge or heavier.
3. Employers engaged in the rerolling of cold metal stock shall be classified as 3400, if more than 50% of the metal stock used is lighter than #9 gauge.
4. Employers engaged in the drawing of metal to produce rod stock 1/2" in diameter or larger shall be classified as 3018, *Steel Making or Processing*.
5. Employers engaged in the drawing of metal to produce wire or rod stock less than 1/2" in diameter shall be classified as 3241, *Wire, Wire Rope or Wire Cable Mfg.*

Also refer to Classifications 3066(1), *Sheet Metal Products Mfg.*, and 3620(2), *Plate Steel Products Fabrication*.

PIPE, TUBE OR EXTRUSION MFG. – metal – not iron or steel**3022**

This classification applies to the manufacture of extruded metal forms, including but not limited to pipe, square and round tube, angle, channel, molding and picture framing stock from nonferrous metals such as copper, brass, bronze or aluminum.

The manufacture of iron or steel stock shall be classified as 3018, *Steel Making or Processing*.

The manufacture of iron or steel pipe shall be classified as 3400, *Metal Goods Mfg.*, if more than 50% of the metal used is lighter than #9 gauge. If 50% or more of the metal used is #9 gauge or heavier, the operations shall be classified as 3018, *Steel Making or Processing*.

PLATE STEEL PRODUCTS FABRICATION – N.O.C.**3620(2)**

This classification applies to the fabrication of miscellaneous plate steel products and metal tanks when more than 50% of the metal used is #9 gauge or heavier.

Payroll of a tool and die department shall be as assigned to Classification 3099, *Tool Mfg.*, if more than 50% of the tools and dies are sold commercially and are not used in any way in the employer's production operations. Otherwise, the payroll of a tool and die department shall be assigned to Classification 3620(2).

The manufacture of boilers from plate steel stock shall be classified as 3620(1), *Boiler Mfg.*

Also refer to Classifications 3400, *Metal Goods Mfg.*, and 3066(1), *Sheet Metal Products Mfg.*

REINFORCING STEEL FABRICATION – at permanent shop or yard location**3039**

This classification applies to the cutting, bending, forming and assembly of reinforcing steel at a permanent shop or yard location.

The fabrication of reinforcing steel at job sites shall be assigned to the appropriate construction classification.

Part 3 – Standard Classification System**Section VII – Standard Classifications****SHEET METAL PRODUCTS MFG. – shop only – N.O.C.****3066(1)**

This classification applies to the manufacture of sheet metal products, including but not limited to brackets, chassis, panels and covers when more than 50% of the metal used is #15 gauge or lighter and metal stamping payroll, if any, does not exceed 10% of the total manufacturing payroll. If 50% or more of the metal used is #10 to #14 gauge, or if more than 50% of the metal used is #15 gauge or lighter and metal stamping payroll exceeds 10% of the total manufacturing payroll, operations shall be classified as 3400, *Metal Goods Mfg.*

Metal stamping is defined as the operation of power-driven presses or brakes and foot- or hand-power presses or brakes used for blanking, forming, trimming, drawing, punching or assembling metal where the operator places each piece under the point of operation at each complete press or brake stroke.

Operations performed on power presses that may be interchangeably hand fed or automatically fed shall be considered as metal stamping.

Metal stamping does not include (1) rotary punches, whether computer or manually controlled, which require only the loading and unloading of the work piece by the operator and does not require the operator to place or reposition the work piece after each stroke, or (2) hydraulic presses or brakes where the ram travel will automatically stop upon release of the activating mechanism.

Sheet metal products assignable to this classification include but are not limited to heating, ventilation and air conditioning duct work; electrical and electronic chassis and enclosures; metal musical instruments; and kitchen and restaurant equipment such as sinks, steam tables and overhead hoods.

The shop fabrication of sheet metal products in connection with installation, construction or erection operations by the same employer shall be classified as 5538(1)/5542(1), *Sheet Metal Work*.

If more than 50% of the metal used is sheet aluminum, the operations shall be classified as 3066(3), *Aluminum Ware Mfg.*

If more than 50% of the metal used is sheet copper or brass, the operations shall be classified as 3066(4), *Coppersmithing*.

Also refer to Classifications 3400, *Metal Goods Mfg.*, and 3620(2), *Plate Steel Products Fabrication*.

STEEL MAKING OR PROCESSING**3018**

This classification applies to the reduction or casting of metal and the subsequent rolling or re-rolling of hot or cold steel to produce steel products, including but not limited to plate, sheet, rod, tube, pipe or coil stock.

Employers engaged in rolling or drawing metal shall be classified as follows:

1. Employers engaged in the heating and rolling of metal stock shall be classified as 3018.
2. Employers engaged in the re-rolling of metal stock shall be classified as 3018 if 50% or more of the metal stock used is #9 gauge or heavier.
3. Employers engaged in the re-rolling of cold metal stock shall be classified as 3400, *Metal Goods Mfg.*, if more than 50% of the metal stock used is lighter than #9 gauge.
4. Employers engaged in the drawing of metal to produce rod stock 1/2" in diameter or larger shall be classified as 3018.
5. Employers engaged in the drawing of metal to produce wire or rod stock less than 1/2" in diameter shall be classified as 3241, *Wire, Wire Rope or Wire Cable Mfg.*

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The manufacture of nonferrous extruded metal forms shall be classified as 3022, *Pipe, Tube or Extrusion Mfg.*

The fabrication of miscellaneous plate steel products or metal tanks when more than 50% of the metal used is #9 gauge or heavier shall be classified as 3620(2), *Plate Steel Products Fabrication.*

TUBE OR PIPE PRODUCTS MFG. – N.O.C.**3401(1)**

This classification applies to the manufacture of metal products not more specifically described by another classification, including but not limited to awning framework, bike frames, tent frames, luggage racks and scaffolding if more than 50% of the metal used is tubular stock. It also applies to employers engaged in bending, cutting, threading or perforating tube or pipe on a fee basis when more than 50% of the metal is tube or pipe stock.

The fabrication of gates, corrals and fence sections from tube stock shall be classified as 3401(2), *Gate or Corral Mfg.*

The fabrication of structural steel components used in the framing of buildings, whether or not tubular stock is utilized, shall be classified as 3030, *Iron or Steel Works – structural.*

The fabrication of non-structural architectural or ornamental iron or steel components, whether or not tubular stock is utilized, shall be classified as 3040, *Iron or Steel Works – non-structural.*

The manufacture of nonferrous pipe or tube stock shall be classified as 3022, *Pipe, Tube or Extrusion Mfg.*

WIRE GOODS MFG. – N.O.C.**3257**

This classification applies to the manufacture of products from wire stock, including but not limited to springs; wire display racks; wire cloth; guitar strings; wire brush; classifying and grading screens; wire mattress assemblies; barbed wire and chain link fence fabric.

The manufacture of mattresses and box springs shall be classified as 2570, *Mattress or Box Springs Mfg.*

Also refer to Classifications 3241, *Wire, Wire Rope or Wire Cable Mfg. – including wire drawing,* and 4470, *Wire, Wire Rope or Wire Cable Mfg. – no wire drawing.*

MILLWRIGHT WORK – N.O.C. – erection or repair of machinery or equipment at customers' locations**3724(1)**

This classification applies to the operation, installation, service or repair of machinery or equipment, including but not limited to agricultural, construction, industrial, sawmill, food processing and commercial equipment at customers' locations unless the work is specifically described by another classification. This classification also applies to the installation, service or repair of machinery or equipment, including but not limited to pumps (such as gasoline, oil or water pumps), conveyor systems, printing presses, automated "pick and place" machinery, industrial laundry equipment, filling and bottling equipment, industrial scales, escalators, gate openers and air compressors, unless the work is specifically described by another classification. This classification also applies to stump grinding; rigging operations; or the installation or repair of spa or pool equipment when performed on a fee basis and not in connection with the employer's other operations at the same job or location.

This classification does not apply to the operation, installation or repair of machinery or equipment at facilities both occupied and operated by the employer; such operations shall be classified based on the employer's other classifiable operations.

The installation, service or repair of countertop appliances used in commercial kitchens shall be classified as 9519(1), *Household Appliances.*

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Shop manufacturing or repair operations shall be separately classified.

MINING

Refer to Section IV, *Special Industry Classification Procedures*, Rule 5, *Mining*.

MINING – ore milling – including sample analysis, crushing, concentration and separation 1452

This classification applies to the processing of ore for the purpose of recovering metals and minerals, including but not limited to gold, silver, nickel, graphite, coke, zinc and iron.

Smelting, sintering, refining or alloying operations shall be classified as 1438, *Smelting, Sintering, Refining or Alloying*.

MINING – surface – no shafts, tunnels, or drifts – all employees 1122

This classification applies to surface mining (open pit method) of ores and minerals, including but not limited to gold, borax, graphite, gypsum and perlite. This classification includes all activities involved in the construction or operation of the mine, including but not limited to the construction of buildings, roads, water systems, power lines or tramways; the installation, operation or maintenance of machinery or equipment; the operation of commissaries and blasting when performed by the mine operator. This classification includes mining engineers engaged in geophysical exploration, surveying and mapping of sites.

Subsequent ore milling operations shall be separately classified as 1452, *Mining – ore milling*.

Underground mining operations shall be classified as 1123, *Mining – underground – with shafts, tunnels or drifts; all employees with exposure to underground mining operations*, and 1124, *Mining – underground – surface employees*.

Rock quarrying operations shall be classified as 1624(1), *Quarries*.

Blasting operations performed on a fee basis are classified as 1330, *Blasting*.

MINING – underground – surface employees 1124

This classification applies to surface employees, including mining engineers engaged in geophysical exploration, surveying and mapping of sites, of employers engaged in the underground extraction of ore and minerals, including but not limited to gold, borax, graphite, gypsum and perlite. This classification includes but is not limited to the following aboveground operations: installation, operation or maintenance of surface machinery or equipment; operation of commissaries and preparation of explosives.

This classification does not apply to any employee who is required to go underground at any time. Employees with exposure to underground mining operations shall be classified as 1123, *Mining – underground – with shafts, tunnels or drifts; all employees with exposure to underground mining operations*.

Surface mining operations shall be classified as 1122, *Mining – surface*.

Ore milling shall be separately classified as 1452, *Mining – ore milling*.

Also refer to companion Classification 1123, *Mining – underground – with shafts, tunnels or drifts; all employees with exposure to underground mining operations*.

MINING – underground – with shafts, tunnels or drifts; all employees with exposure to underground mining operations 1123

This classification applies to employers engaged in the underground extraction of ores and minerals, including but not limited to gold, borax, graphite, gypsum and perlite. This classification includes all underground operations, including but not limited to the drilling of shafts, tunnels or drifts; the erection of shoring and supports; the construction of underground tramways; and the

Part 3 – Standard Classification System**Section VII – Standard Classifications**

installation, operation and maintenance of underground equipment or machinery. This classification includes all employees, including mining engineers engaged in geophysical exploration, surveying and mapping of sites, who are required to go underground at any time.

Also refer to companion Classification 1124, *Mining – underground – surface employees*.

MOBILE CRANE AND HOISTING SERVICE CONTRACTORS – N.O.C. – all operations – including yard employees 7219(3)

This classification applies to hoisting or lifting operations requiring the use of mobile hoisting equipment, including but not limited to cranes, block and fall, jacks, shoring timbers, rollers, ropes and cables. This classification includes rigging operations performed by employees of the mobile crane and hoisting contractor and the transportation of equipment to and from work sites.

This classification also applies to excavating, transporting and transplanting trees using mobile cranes or mobile hoisting equipment.

This classification also applies to the provision of mobile crane and hoisting equipment with operators on a rental basis, including subcontractors engaged in connection with wrecking, demolition or raising or moving buildings or structures who perform no other type of work at the job or location.

Rigging operations performed for other concerns on a fee basis by an employer not engaged in hoisting or lifting operations at a particular job or location shall be classified as 3724(1), *Millwright Work*.

Hoisting and lifting operations performed by an employer in connection with the employer's other classifiable operations shall not be separately classified.

MOBILE, MODULAR OR MANUFACTURED HOME OR BUILDING MFG. – shop or yard work only 2797(1)

This classification applies to the manufacture of mobile, modular or manufactured buildings, at a permanent shop or yard location, whether the buildings are shipped to customers in assembled, partially assembled or kitted condition. Such buildings include but are not limited to barns, mobile homes, portable classrooms and construction office trailers.

The construction, erection or assembly of modular or manufactured homes or buildings away from the shop shall be separately classified.

The manufacture of individual wooden building components (not complete buildings) shall be classified as 2819, *Truss or Building Components Mfg.*

The manufacture of campers, travel trailers or motor homes shall be classified as 2797(3), *Recreational Vehicle Mfg.*

MOBILE HOME PARK OPERATION – all other employees

See Property Management/Operation.

MOBILE HOME PARK OPERATION – property management supervisors

See Property Management/Operation.

MORTGAGE BANKERS – all employees – including Clerical Office Employees, Clerical Telecommuter Employees and Outside Salespersons 8749

This classification applies to companies that specialize in direct lending of funds for residential or commercial mortgages. This classification includes loaning money held on deposit and funding loans through a line of credit.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Commissioned loan brokers engaged exclusively in matching qualified mortgage applicants with lenders with no direct lending of funds shall be classified as 8743, *Mortgage Brokers*.

Real estate agencies that represent buyers, sellers, lessees and lessors in real estate transactions shall be classified as 8741, *Real Estate Agencies*.

The operation of depository financial institutions that are licensed as banks to perform financial services, including but not limited to accepting deposits, paying interest, clearing checks, making loans and exchanging currency, shall be classified as 8808, *Banks*.

MORTGAGE BROKERS – no direct lending – all employees – including Clerical Office Employees, Clerical Telecommuter Employees and Outside Salespersons	8743
---	-------------

The entire remuneration of each employee shall be included, subject to a maximum of \$139,100 per year. When the policy is in force for less than a 12-month period, the maximum payroll amount shall be prorated based upon the number of weeks in the policy period.

This classification applies to commissioned loan brokers engaged in matching qualified mortgage applicants with lenders.

Companies that specialize in direct lending of funds for residential or commercial mortgages shall be classified as 8749, *Mortgage Bankers*.

Real estate agencies that represent buyers, sellers, lessees and lessors in real estate transactions shall be classified as 8741, *Real Estate Agencies*.

The operation of depository financial institutions that are licensed as banks to perform financial services, including but not limited to accepting deposits, paying interest, clearing checks, making loans and exchanging currency, shall be classified as 8808, *Banks*.

MOTION PICTURES – negative and print processors, distributors and film exchanges – not motion picture production companies	4362
---	-------------

This classification applies to firms that specialize in the developing, printing or distribution of motion pictures for other concerns on a fee basis. This classification also includes motion picture film restoration.

MOTION PICTURES – production – in studios and outside – all employees	9610
--	-------------

The entire remuneration of actors, musicians, producers and the motion picture director shall be included subject to a maximum of \$139,100 per year per person. When such employees do not work the entire year, the payroll limitation shall be prorated based upon the number of weeks in which such employees worked during the policy period.

This classification applies to companies that specialize in the production of motion pictures, television features, commercials, music videos, videotaped depositions, videotaped court proceedings or industrial films that are recorded on motion picture film stock, videotape, digital or other media.

Employees engaged exclusively in the electronic editing of digital files using computerized editing equipment are assignable to Classification 8810, *Clerical Office Employees*, subject to the Standard Exceptions rule. See Section III, Rule 4, *Standard Exceptions*.

Employees who create animation using computer or digital applications are assignable to Classification 8810, *Clerical Office Employees*, subject to the Standard Exceptions rule. See Section III, Rule 4, *Standard Exceptions*.

The payroll limitation of this classification is applicable to the director responsible for all aspects of production. The payroll for all other directors such as assistant and associate directors is not subject to limitation.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The payroll limitation also applies to motion picture producers responsible for overseeing the financial, administrative or creative aspects of a motion picture.

MOTORCYCLE DEALERS OR REPAIR FACILITIES – all operations – including accessory or spare parts sales and Outside Salespersons 8400

This classification applies to dealers engaged in the sale or service of new or used motorcycles. This classification also applies to independent motorcycle repair shops that are not dealers. This classification also applies to the sale or service of new or used all-terrain vehicles, snowmobiles and personal watercraft. Personal watercraft are motorized vessels, including waterbikes, designed to carry one to three riders.

Dealers engaged in the sale of motor vehicles, including but not limited to automobiles, trucks, buses, forklift trucks, golf carts, motor homes and trailers shall be classified as 8391, *Automobile or Truck Dealers – all employees other than vehicle salespersons*.

The sale of new or used boats, including the service or repair of boats when performed by the boat dealer, shall be classified as 8057, *Boat Dealers*.

MUNICIPAL, STATE OR OTHER PUBLIC AGENCIES
AIRPORT OPERATORS – all employees – including field or hangar instructors

See Classification 7429, *Airport Operators*.

BUS, SHUTTLE VAN OR LIMOUSINE OPERATIONS – all employees

See Classification 7382, *Bus, Shuttle Van or Limousine Operations*.

CEMETERY OPERATION – all employees

See Classification 9220(1), *Cemetery Operation*.

CREMATORY OPERATION – all employees

See Classification 9220(2), *Crematory Operation*.

FIREFIGHTING OPERATIONS – not volunteers – all employees of Fire Department 7706

This classification applies to firefighting operations, including but not limited to emergency fire and rescue operations, fire hydrant testing, fire investigations and fire prevention services.

Volunteers serving with or without remuneration shall be separately classified as 7707, *Firefighting Operations – volunteers, serving with or without remuneration*.

Logging or lumbering shall be separately classified as 2702(1), *Logging.*

PARCEL DELIVERY AND MESSENGER SERVICE COMPANIES – including terminal employees and mechanics – no handling of bulk merchandise or freight **7198(1)**

This classification does not apply: (1) if 10% or more of the individual parcels and packages delivered weigh in excess of one hundred pounds, or (2) if the total combined weight of all items delivered at any one stop exceeds two hundred pounds for 10% or more of all deliveries.

When employees furnish the vehicles utilized in the delivery of parcels, the determination of reportable remuneration shall be made in accordance with Section V, Rule 4, *Drivers' and Their Helpers' Payroll.*

The transport of the United States mail under contract to the United States Postal Service shall be classified as 7232, *Mail Delivery Service Companies.*

PATTERN OR MODEL MFG.

2790

This classification applies to the manufacture of custom patterns, models and architectural displays; non-functional prototypes of various items, including but not limited to automobile parts, toys and medical devices; and the manufacture of animatronics, masks, special effects, props and models for use in the theater, entertainment and motion picture industries. The patterns, models and prototypes are made from a variety of materials, including but not limited to metal, plastic, wood, rubber, plaster, ceramic, paper, cardboard or foam and may include electronics, hydraulics, pneumatics and controls.

This classification also applies to the manufacture of patterns for use in foundry operations.

Pattern or model manufacturing performed in connection with the employer's other classifiable operations shall not be separately classified.

The manufacture of functional prototype products on a contract basis shall be assigned to the applicable manufacturing classification.

The manufacture of theatrical settings and backdrops shall be separately classified.

PEN OR MECHANICAL PENCIL MFG.

4432

This classification applies to the manufacture of writing instruments, including but not limited to ballpoint pens, felt tip pens, fountain pens, pen refills and mechanical pencils. This classification includes incidental embossing or printing on pens or mechanical pencils. This classification also applies to the manufacture of pencil type applicators that dispense cosmetic products, including but not limited to eyeliner, lip liner and eyebrow liner.

The manufacture of wood pencils (not mechanical) shall be classified as 2842, *Wood Products Mfg.*

The manufacture of ink shall be classified as 4557, *Ink, Adhesive, Polish or Wax Products Mfg.*

Part 3 – Standard Classification System**Section VII – Standard Classifications****PEST OR NUISANCE WILDLIFE CONTROL – including yard employees, Outside Salespersons and estimators 9031**

This classification applies to operations involving the lethal or non-lethal control or exclusion of pests or nuisance wildlife by using repellents, pesticides, rodenticides, fumigants, traps or mechanical devices. This classification includes minor property repairs or alterations to exclude pests or nuisance wildlife from buildings.

Termite control work shall be separately classified as 5650, *Termite Control Work*.

The spraying of orchards or farm crops (not aerial) on a fee basis shall be classified as 0050, *Farm Machinery Operation*.

The aerial spraying of orchards or farm crops shall be classified as 7409, *Aircraft Operation – agricultural – dusting, spraying or seeding – members of flying crew*.

The spraying or spreading of lawn fertilizers or herbicides shall be classified as 0042, *Land-scape Gardening*.

PETROLEUM INDUSTRY**GASOLINE OR OIL DEALERS – wholesale – including mixing or blending 8350**

This classification applies to the wholesale distribution of gasoline or oil and other types of petroleum products, including but not limited to grease, road oil, fuel oil, propane gas, butane gas and kerosene. This classification includes the collection, filtering and redistribution of reclaimed oil, and the mixing and blending of various grades and viscosities of oil, grease or gasoline to achieve a custom blend per customer specifications.

This classification also applies to the sale and delivery of propane or liquefied petroleum gas to household and commercial accounts and the delivery and set up of liquefied petroleum gas tanks when performed in support of propane sales.

The sale, installation, service or repair of propane heaters, stoves and other appliances shall be separately classified.

The hauling of gasoline or oil under contract shall be classified as 7219(1), *Trucking Firms*.

GASOLINE RECOVERY – from casing head or natural gas 4740(3)

This classification applies to the production of various grades of petroleum gas by processing natural gas through absorption, fractionation, dehydration and cryogenic processing to produce liquefied petroleum gas components such as propane, butane, ethane, pentanes and raw gasoline.

OIL FIELD EQUIPMENT TRUCKING

See Trucking Firms.

OIL OR GAS GEOLOGISTS OR SCOUTS – including mapping of subsurface areas – including Clerical Office Employees, Clerical Telecommuter Employees and Outside Salespersons 8601(2)

This classification applies to geologists or scouts who travel to potential oil drilling sites to observe and gather data that is compiled into reports that describe the probability that oil or gas deposits are present. This classification includes analyzing technical data from monitoring instruments and analyzing drilling mud or well cuttings to identify the types of subsurface formations in the region and the presence of hydrocarbons. This classification also applies to the geophysical exploration of subsurface areas using physical methods, including but not limited to seismic, gravitational, magnetic, electrical and electromagnetic methods to measure the physical properties of rock.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Consulting engineers, including but not limited to civil, electrical, mechanical and mining engineers who do not perform oil or gas related operations as described above shall be classified as 8601(1), *Engineers*.

Geologists or scouts who perform outside operations in connection with oil or gas well drilling or redrilling, oil or gas lease operations, or oil or gas pipeline operations by the employer shall be assigned to the applicable *Petroleum* Industry Group classification.

OIL OR GAS LEASE OPERATORS – all operations**1320**

This classification applies to operations performed by oil or gas lease operators at lease sites including but not limited to clearing land; building lease roads, slush pits, levees or fire walls; laying or taking up flow lines and water lines; installing and repairing oil field equipment, such as central pumping units, compressors, engines, oil and water separation units and steam generators; building maintenance; and lease beautification work.

Drilling or redrilling, installation or recovery of casing, cementing, gravel packing, acidizing or hydraulic fracturing, tank building, refinery operations or gasoline recovery shall be separately classified.

Contractors that perform a variety of operations at oil or gas lease sites shall be classified as 6216, *Oil or Gas Lease Work*.

OIL OR GAS LEASE WORK – N.O.C. – not lease operators**6216**

This classification applies to contractors that perform a variety of operations at oil or gas lease sites for lease owners, including but not limited to clearing land; building lease roads, slush pits, levees or fire walls; laying or taking up flow lines and water lines; installing and repairing oil field equipment, such as central pumping units, compressors, engines, oil and water separation units and steam generators; building maintenance; and lease beautification work.

This classification does not apply to a specialty contractor who performs a single construction or erection activity on an oil or gas lease site; such activity shall be assigned to the applicable construction or erection classification.

The operation of oil or gas leases by the lease operator shall be classified as 1320, *Oil or Gas Lease Operators*.

Pipeline construction, tank building, oil or gas storage tank painting, installation or recovery of casing, drilling or redrilling, cementing, gravel packing, acidizing or hydraulic fracturing and all downhole well servicing, such as pulling and replacing rods, tubing and pumps, well cleaning and swabbing, shall be separately classified.

OIL OR GAS PIPELINE CONSTRUCTION – all operations**6233**

This classification applies to the construction of above and below ground oil or gas pipelines for other concerns on a fee basis. Construction operations include but are not limited to constructing pipe supports, excavating and backfilling trenches, connecting pipe and fittings and testing pipelines for leaks.

Pile driving, dredging or tunneling shall be separately classified.

OIL OR GAS PIPELINE OPERATION**7515**

This classification applies to employers that operate oil or gas pipelines to transport petroleum products from oil or gas lease sites to refineries and from refineries to ports or rail terminals for other concerns on a fee basis. This classification includes the repair and replacement of pipes and pipeline equipment, including but not limited to valves, compressors, pumps and flow meters.

The operation of wells or oil refining shall be separately classified.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

OIL OR GAS REFINERIES – erection or repair – all operations	3719
<p>This classification applies to the erection and repair of oil or gas refineries and associated refinery equipment, including but not limited to casing head plants, cracking plants, polymerizing units, distillation units, compressor units, power plants, pumping units and piping.</p> <p>This classification does not apply to a specialty contractor that performs a single construction or erection activity at an oil or gas refinery; such activity shall be assigned to the applicable construction or erection classification.</p> <p>This classification shall not apply to storage tanks or pumping equipment that are not an integral part of the oil or gas refinery.</p>	
OIL OR GAS WELL SERVICING – N.O.C. – by contractors using well service or work-over rigs – no drilling or redrilling – including Outside Salespersons	1322
<p>This classification applies to oil or gas well servicing contractors who perform downhole services, including but not limited to pulling and replacing rods, tubing and pumps, well cleaning or swabbing.</p> <p>This classification does not apply to ancillary downhole services performed by the contractor engaged in well drilling or redrilling operations.</p>	
OIL OR GAS WELLS – acidizing or hydraulic fracturing – all operations	6206(2)
<p>This classification applies to the pumping of acid and other fluids into oil or gas wells to stimulate or restore the flow of oil or gas.</p>	
OIL OR GAS WELLS – cementing	6206(1)
<p>This classification applies to the pumping of cement into oil or gas wells to seal all or a portion of the well.</p> <p>Oil or gas well cementing in connection with oil or gas well drilling or redrilling operations by the employer shall be classified as 6235(1), <i>Oil or Gas Wells – drilling or redrilling</i>.</p>	
OIL OR GAS WELLS – drilling or redrilling – including installation of casing	6235(1)
<p>This classification applies to the drilling or redrilling of oil or gas wells and includes but is not limited to preparing the drill site, digging slush pits, installing well casings and maintaining or repairing the drill rig at the drill site.</p>	
OIL OR GAS WELLS – gravel packing	6206(4)
<p>This classification applies to the packing of gravel into oil or gas wells to enable the flow of oil or gas while reducing formation sand from entering the well stream.</p> <p>Oil or gas well gravel packing in connection with oil or gas well drilling or redrilling operations by the employer shall be classified as 6235(1), <i>Oil or Gas Wells – drilling or redrilling</i>.</p>	
OIL OR GAS WELLS – installation or recovery of casing	6235(2)
<p>This classification applies to the installation or removal of oil or gas well casing.</p>	
OIL OR GAS WELLS – perforating of casing – all operations	6237(2)
<p>This classification applies to the perforating of oil or gas well casing to allow the flow of oil or gas into the well.</p>	

Part 3 – Standard Classification System**Section VII – Standard Classifications****OIL OR GAS WELLS – specialty tool companies – N.O.C. – all employees – including shop, yard or storage operations and outside supervisors 6213**

This classification applies to oil or gas well specialty tool companies who lease, without operating crews, special equipment, including but not limited to drilling, fishing or casing-cutting tools. This classification includes outside supervisors who provide advice to the customer as to the function and proper operation of the tool.

Specialty oil or gas well tool companies that furnish operating crews with such equipment shall be separately classified.

OIL OR GAS WELLS – vacuum truck service companies – all operations 6206(3)

This classification applies to the removal of materials, including but not limited to petroleum sludge, salt water and drilling mud, from oil or gas well drilling sites by use of vacuum trucks. This classification also applies to the removal of petroleum products from underground storage tanks by use of vacuum trucks.

OIL OR GAS WELLS – wireline service companies – including instrument logging or survey work in wells 6237(1)

This classification applies to oil or gas well wireline operations, including but not limited to instrument logging or surveying. This classification also includes the use of slicklines to deliver and retrieve tools downhole.

Oil or gas well wireline service operations in connection with oil or gas well drilling or redrilling operations by the employer shall be classified as 6235(1), *Oil or Gas Wells – drilling or redrilling*.

OIL REFINING – petroleum 4740(1)

This classification applies to the processing and refining of crude oil and reclaimed oil through a series of operations such as heating, distilling, fractionating, vaporizing and condensing to produce products such as gasoline, diesel fuel, petroleum naphtha, kerosene, heating oil, asphalt base and liquefied petroleum gas.

Oil producing shall be separately classified.

The refining of vegetable oil or waste cooking oil shall be classified as 4683(1), *Vegetable Oil Mfg. or Refining*.

PICTURE FRAME ASSEMBLY 2840(1)

This classification applies to the assembly of picture frames, including the cutting and assembly of frame stock, matting and glass.

The manufacture of wood picture frame stock shall be separately classified as 2731, *Planing or Moulding Mills*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The custom framing of pictures and artwork, including incidental picture frame assembly, shall be classified as 2840(2), *Picture or Artwork Framing*.

Retail store operations shall be separately classified.

The manufacture of molded plastic components shall be separately classified.

PICTURE OR ARTWORK FRAMING – including frame assembly **2840(2)**

This classification applies to the custom framing of pictures or artwork and includes the cutting and assembly of frame stock, matting and glass and the incidental assembly of picture frames.

The manufacture of wood picture frame stock shall be separately classified as 2731, *Planing or Moulding Mills*.

The assembly of picture frames not in connection with picture or artwork framing shall be classified as 2840(1), *Picture Frame Assembly*.

Retail store operations shall be separately classified.

The manufacture of molded plastic components shall be separately classified.

PILE DRIVING **6003(1)**

This classification applies to driving concrete, steel or wood piles into the earth to provide foundation support for buildings or other structures.

Pile driving operations in connection with wharf building shall be classified as 6003(2), *Wharf Building*.

Building foundation preparation work, including but not limited to the drilling of foundation holes and the subsequent construction of poured in place foundation piers to completion of the sub-structure, including incidental pile driving, shall be classified as 6258, *Foundation Preparation Work*.

PILLOW, QUILT, COMFORTER OR CUSHION MFG. – no mattress or box spring manufacturing **2571**

This classification applies to the manufacture of pillows, quilts, comforters, cushions, stuffed animals, sleeping bags, moving blankets, industrial quilted products and similar non-clothing products that are filled with insulation, including but not limited to polyester fiber, foam, fiberglass batting or down. These operations may be conducted by hand or with the use of machinery such as sewing machines or automatic quilting machines.

The manufacture of pillows, quilts, comforters or cushions in connection with the manufacture of mattresses or box springs shall be classified as 2570, *Mattress or Box Springs Mfg. – including pillow, quilt, comforter or cushion manufacturing*.

Furniture upholstery operations, including the manufacture of pillows or cushions in connection with upholstery operations, shall be classified as 9522(2), *Upholstering – furniture*. Upholstery operations shall be classified as 9522(1), *Upholstering – N.O.C.*, when there is not another classification that more accurately describes the operation.

PIPE, TUBE OR EXTRUSION MFG. – metal – not iron or steel

See Metal Working Classifications.

PLANING OR MOULDING MILLS **2731**

This classification applies to the production of finished lumber, flooring or unassembled millwork.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Yard employees receiving incoming materials and stocking, grading and loading finished milled products, including drivers and their helpers, shall be separately classified as 8232(1), *Lumberyards*.

Building material dealers or fuel and material dealers shall be separately classified as 8232(2), *Building Material Dealers*, or 8232(3), *Fuel and Material Dealers*.

Forest engineering and timber cruising operations shall be separately classified as 8601(4), *Forest Engineers*.

PLASTER BOARD MFG.**4036**

This classification applies to the manufacture of plaster or gypsum building materials in sheet form, including but not limited to drywall (wallboard).

The manufacture of non-structural ornamental plaster or concrete products shall be classified as 4038(1), *Plaster or Concrete Statuary or Ornament Mfg.*

Drivers and their helpers shall be separately classified as 8232(2), *Building Material Dealers*.

Quarrying, crushing or grinding shall be separately classified.

PLASTER MILLS**1741(2)**

This classification applies to the crushing or grinding of materials, including but not limited to clay, limestone and gypsum, to powder form.

Mining, quarrying, or sand, gravel or clay digging shall be separately classified.

Employees engaged exclusively in delivery of the finished product shall be separately classified as 8232(2), *Building Material Dealers*.

PLASTER OR CONCRETE STATUARY OR ORNAMENT MFG. – shop or yard work only**4038(1)**

This classification applies to the manufacture of nonstructural ornamental plaster or concrete products, including but not limited to garden statuary, fountains, mantels, columns, panels, moldings, vases and statues. This classification also applies to the manufacture of cement coated expanded polystyrene foam architectural decorative trim items. This classification does not apply to operations performed at construction sites.

The manufacture of concrete building products within a shop or yard location shall be classified as 4034, *Concrete Products Mfg.*

The manufacture of plaster or gypsum building materials in sheet form shall be classified as 4036, *Plaster Board Mfg.*

The manufacture of decorative or architectural clay or terra cotta products shall be classified as 4049, *Pottery Products Mfg.*

PLASTERING OR STUCCO WORK – employees whose regular hourly wage does not equal or exceed \$32.00 per hour**5484**

This classification applies to the application of plaster, including veneer plaster, or stucco onto interior and exterior building surfaces.

This classification also applies to the application of fireproofing materials onto structural steel members and the application of cement-based pigmented coatings (fog coat) to stucco surfaces.

Lathing operations shall be separately classified as 5443, *Lathing*.

Swimming pool plastering shall be classified as 5201(1)/5205(1), *Concrete or Cement Work*.

Part 3 – Standard Classification System**Section VII – Standard Classifications****PLASTERING OR STUCCO WORK – employees whose regular hourly wage equals or exceeds \$32.00 per hour 5485**

Assignment of this classification is subject to verification at the time of final audit that the employee's regular hourly wage equals or exceeds \$32.00 per hour. The payroll of an employee whose regular hourly wage is not shown to equal or exceed \$32.00 per hour shall be classified as 5484, *Plastering or Stucco Work*.

This classification applies to the application of plaster, including veneer plaster, or stucco onto interior and exterior building surfaces.

This classification also applies to the application of fireproofing materials onto structural steel members and the application of cement-based pigmented coatings (fog coat) to stucco surfaces.

Lathing operations shall be separately classified as 5443, *Lathing*.

Swimming pool plastering shall be classified as 5201(1)/5205(1), *Concrete or Cement Work*.

PLASTIC PRODUCTS MANUFACTURING

The following grouping includes classifications applicable to the manufacturing and fabrication of plastic materials to produce an end-product that is not specifically described by another classification. These classifications include printing and labeling that is performed in connection with plastic manufacturing or fabrication operations.

Pursuant to Part 3, Section II, Rule 17, a classification having a N.O.C. (not otherwise classified) qualifier shall not be used if another classification more accurately describes the operation. As such, the following group does not include all possible classifications applicable to the manufacture or fabrication of plastic products. When possible, employers engaged in the manufacture of a plastic product shall be assigned to the classification that specifically describes the employer's product. However, in those cases where no specific product classification exists, the employer shall be assigned to the appropriate *Plastics* classification listed below.

PLASTIC GOODS MFG. – N.O.C.**4478**

This classification applies to the manufacture of plastic goods using methods and materials that are not more specifically described by another *Plastic Products Manufacturing* Industry Group classification, including but not limited to liquid resin casting or molding, dip molding, compression molding, rotational molding, plastic grinding, expanded polystyrene foam block molding and cultured or synthetic marble products manufacturing.

The entire payroll of a tool and die department shall be classified as follows:

- If 50% or more of the department's total time is devoted to the maintenance or repair (not manufacture or modification) of molds and dies used in the employer's production operations, the department shall be classified as 4478; otherwise, the department shall be separately classified as 3099, *Tool Mfg.*
- If more than 50% of the department's total time is devoted to the manufacture or modification (not maintenance or repair) of molds or dies (irrespective of the end user), or the maintenance or repair of customers' molds and dies that are not used in the employer's production operations, the department shall be separately classified as 3099, *Tool Mfg.*; otherwise, the department shall be classified as 4478.

Part 3 – Standard Classification System**Section VII – Standard Classifications****PLASTICS – blow molded products mfg. – N.O.C.****4494**

This classification applies to the manufacture of blow molded plastic products, including but not limited to plastic bottles and containers.

The entire payroll of a tool and die department shall be classified as follows:

- If 50% or more of the department's total time is devoted to the maintenance or repair (not manufacture or modification) of molds and dies used in the employer's production operations, the department shall be classified as 4494; otherwise, the department shall be separately classified as 3099, *Tool Mfg.*
- If more than 50% of the department's total time is devoted to the manufacture or modification (not maintenance or repair) of molds or dies (irrespective of the end user), or the maintenance or repair of customers' molds and dies that are not used in the employer's production operations, the department shall be separately classified as 3099, *Tool Mfg.*; otherwise, the department shall be classified as 4494.

PLASTICS – extrusion molded products mfg. – N.O.C.**4495**

This classification applies to the manufacture of extrusion molded plastic products, including but not limited to sheet plastic; plastic pellets; rod, tube and pipe stock; hose and bubble wrap.

The manufacture of plastic bags shall be classified as 4286, *Bag Mfg. – plastic.*

The entire payroll of a tool and die department shall be classified as follows:

- If 50% or more of the department's total time is devoted to the maintenance or repair (not manufacture or modification) of molds and dies used in the employer's production operations, the department shall be classified as 4495; otherwise, the department shall be separately classified as 3099, *Tool Mfg.*
- If more than 50% of the department's total time is devoted to the manufacture or modification (not maintenance or repair) of molds or dies (irrespective of the end user), or the maintenance or repair of customers' molds and dies that are not used in the employer's production operations, the department shall be separately classified as 3099, *Tool Mfg.*; otherwise, the department shall be classified as 4495.

PLASTICS – fabricated products mfg. – no molding – N.O.C.**4496**

This classification applies to the manufacture of plastic products, including but not limited to display cases and stands, picture frames, furniture parts and countertops using processes such as machining, bending, grinding, polishing or assembling. This classification also applies to the cutting, shaping and assembly of molded foam.

PLASTICS – fiber reinforced plastic products mfg. – N.O.C.**4497**

This classification applies to the manufacture of fiber reinforced plastic products, including but not limited to shower stalls, hot tubs, machinery cabinets, golf club shafts, fishing poles and automobile body parts, using materials such as thermosetting fiber, reinforced plastics, fiberglass and carbon fiber. Manufacturing processes include but are not limited to hand or spray lay-up, fiber filament wrapping and winding, transfer molding, resin injection molding and compression molding. This classification also includes finishing and fabrication operations associated with the manufacture of fiber reinforced plastic products, including but not limited to shaping, grinding, sanding, trimming and assembly.

The manufacture of glass fiber or carbon fiber fabrics that have been pre-impregnated with epoxy resin shall be classified as 2413, *Textiles.*

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The entire payroll of a tool and die department shall be classified as follows:

- If 50% or more of the department's total time is devoted to the maintenance or repair (not manufacture or modification) of molds and dies used in the employer's production operations, the department shall be classified as 4497; otherwise, the department shall be separately classified as 3099, *Tool Mfg.*
- If more than 50% of the department's total time is devoted to the manufacture or modification (not maintenance or repair) of molds or dies (irrespective of the end user), or the maintenance or repair of customers' molds and dies that are not used in the employer's production operations, the department shall be separately classified as 3099, *Tool Mfg.*; otherwise, the department shall be classified as 4497.

PLASTICS – injection molded products mfg. – N.O.C.**4498**

This classification applies to the manufacture of injection molded plastic products, including but not limited to fittings, knobs, O-rings, valve bodies, housings, plastic wheels, nozzles, handles, and bottle caps or closures.

The entire payroll of a tool and die department shall be classified as follows:

- If 50% or more of the department's total time is devoted to the maintenance or repair (not manufacture or modification) of molds or dies used in the employer's production operations, the department shall be classified as 4498; otherwise, the department shall be separately classified as 3099, *Tool Mfg.*
- If more than 50% of the department's total time is devoted to the manufacture or modification (not maintenance or repair) of molds or dies (irrespective of the end user) or the maintenance or repair of customers' molds or dies that are not used in the employer's production operations, the department shall be separately classified as 3099, *Tool Mfg.*; otherwise, the department shall be classified as 4498.

PLASTICS – thermoformed products mfg. – N.O.C.**4499**

This classification applies to the manufacture of thermoformed or vacuum formed plastic products, including but not limited to containers, packaging materials, computer parts and panels.

This classification includes secondary machining operations, including but not limited to routing, drilling and grinding and assembly.

The entire payroll of a tool and die department shall be classified as follows:

- If 50% or more of the department's total time is devoted to the maintenance or repair (not manufacture or modification) of molds and dies used in the employer's production operations, the department shall be classified as 4499; otherwise, the department shall be separately classified as 3099, *Tool Mfg.*
- If more than 50% of the department's total time is devoted to the manufacture or modification (not maintenance or repair) of molds or dies (irrespective of the end user), or the maintenance or repair of customers' molds and dies that are not used in the employer's production operations, the department shall be separately classified as 3099, *Tool Mfg.*; otherwise, the department shall be classified as 4499.

PLATE STEEL PRODUCTS FABRICATION – N.O.C.

See Metal Working Classifications.

PLUMBING – including shop, yard or storage operations – gas, steam, hot water or other pipe fittings installation, including house connections installation – employees whose regular hourly wage does not equal or exceed \$28.00 per hour – N.O.C. **5183(1)**

This classification applies to the installation, service or repair of plumbing systems, including but not limited to piping, valves, faucets, toilets, sinks, showers, bathtubs, water heaters and water

Part 3 – Standard Classification System**Section VII – Standard Classifications**

heating systems within the property line of commercial or residential properties. This classification also applies to drain clearing operations for pipe that does not exceed 6" in diameter. This classification includes excavation operations performed by the same employer in support of its plumbing operations.

This classification also applies to the installation or repair of solar water heating systems, swimming pool plumbing, water meters or central vacuum systems. This classification also applies to the installation or repair of radiators used for heating, oil or gas burners, burner dampers, air diffusers or burner rings.

This classification also applies to the installation or repair of outdoor sprinkler systems provided the employer is not primarily engaged in landscape gardening operations at the same job or location. If the employer is primarily engaged in landscape gardening at a particular job or location, sprinkler installation or repair at such job or location shall be classified as 0042, *Landscape Gardening*.

The installation of underground water, gas or sewer lines along streets or roads shall be classified as 6315(1)/6316(1), *Water Mains or Connections Construction*, 6315(2)/6316(2), *Gas Mains or Connections Construction*, or 6307/6308, *Sewer Construction*, respectively.

The installation of sewer lines within property lines where the sewer pipe exceeds 6" in diameter shall be classified as 6307/6308, *Sewer Construction*.

The cleaning of sewer lines within property lines where the sewer pipe exceeds 6" in diameter shall be classified as 9402, *Sewer, Tank or Hazardous Spill Cleaning*.

The installation, service or repair of water softening, conditioning or filtration systems shall be classified as 9519(4), *Water Softening, Conditioning or Filtration Systems*.

Automatic fire suppression sprinkler system installation within buildings shall be classified as 5185/5186, *Automatic Sprinkler Installation*.

PLUMBING – including shop, yard or storage operations – gas, steam, hot water or other pipe fittings installation, including house connections installation – employees whose regular hourly wage equals or exceeds \$28.00 per hour – N.O.C. 5187(1)

Assignment of this classification is subject to verification at the time of final audit that the employee's regular hourly wage equals or exceeds \$28.00 per hour. The payroll of an employee whose regular hourly wage is not shown to equal or exceed \$28.00 per hour shall be classified as 5183(1), *Plumbing*.

This classification applies to the installation, service or repair of plumbing systems, including but not limited to piping, valves, faucets, toilets, sinks, showers, bathtubs, water heaters and water heating systems within the property line of commercial or residential properties. This classification also applies to drain clearing operations for pipe that does not exceed 6" in diameter. This classification includes excavation operations performed by the same employer in support of its plumbing operations.

This classification also applies to the installation or repair of solar water heating systems, swimming pool plumbing, water meters or central vacuum systems. This classification also applies to the installation or repair of radiators used for heating, oil or gas burners, burner dampers, air diffusers or burner rings.

This classification also applies to the installation or repair of outdoor sprinkler systems provided the employer is not primarily engaged in landscape gardening operations at the same job or location. If the employer is primarily engaged in landscape gardening at a particular job or location, sprinkler installation or repair at such job or location shall be classified as 0042, *Landscape Gardening*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The installation of underground water, gas or sewer lines along streets or roads shall be classified as 6315(1)/6316(1), *Water Mains or Connections Construction*, 6315(2)/6316(2), *Gas Mains or Connections Construction*, or 6307/6308, *Sewer Construction*, respectively.

The installation of sewer lines within property lines where the sewer pipe exceeds 6" in diameter shall be classified as 6307/6308, *Sewer Construction*.

The cleaning of sewer lines within property lines where the sewer pipe exceeds 6" in diameter shall be classified as 9402, *Sewer, Tank or Hazardous Spill Cleaning*.

The installation, service or repair of water softening, conditioning or filtration systems shall be classified as 9519(4), *Water Softening, Conditioning or Filtration Systems*.

Automatic fire suppression sprinkler system installation within buildings shall be classified as 5185/5186, *Automatic Sprinkler Installation*.

POTTERY PRODUCTS MFG. – for decorative or architectural purposes**4049**

This classification applies to the manufacture of decorative or architectural clay or terra cotta products, including but not limited to planters, ceramic tile, electrical porcelain, china or tableware and decorative floor, wall or fireplace tile. This classification also applies to the manufacture of foundry sand cores that are sold commercially.

The manufacture of bricks, fireproofing tile, refractory panels or similar clay building products shall be classified as 4041, *Brick or Clay Building Products Mfg.*

Mining, quarrying or clay digging shall be separately classified.

and devote the balance of their time to clerical office duties or outside sales. Employees who are members of an Unmanned Aircraft Systems (aerial drone) operating crew and also perform or supervise construction or erection operations shall be classified based on the construction or erection operations they supervise or perform. See Section IV, Rule 2, *Construction or Erection Work*.

When performed in connection with an employer's own operations, other than construction or erection, the operating crew of Unmanned Aircraft Systems (aerial drones) with a total combined weight of less than 55 pounds shall be classified in accordance with Section III, Rule 5, *General Inclusions*.

Operation of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier shall be classified in accordance with Section III, Rule 6, *General Exclusions*. The operating crew of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier used for other than agricultural operations shall be separately classified as 7428(1), *Aircraft Operation – other than agricultural or scheduled air carriers – not members of the flying crew*. The operating crew of Unmanned Aircraft Systems (aerial drones) with a total combined weight of 55 pounds or heavier used for agricultural operations, including but not limited to dusting, spraying and seeding, shall be separately classified as 7410, *Aircraft Operation – agricultural – dusting, spraying or seeding – not members of the flying crew*.

Unmanned Aircraft Systems (aerial drones) operating crew members working remotely from an office location with no exposure outside of the clerical office shall be classified as 8810, *Clerical Office Employees*, subject to the Standard Exceptions rule. See Section III, Rule 4, *Standard Exceptions*.

The fee-based repair of Unmanned Aircraft Systems (aerial drones) with a total combined weight of less than 55 pounds away from shop shall be separately classified as 5128, *Instrument Installation, Service or Repair*.

UPHOLSTERING – coffin or casket**9522(4)**

This classification applies to the upholstering of coffins or caskets.

The manufacture or assembly of wood coffins or caskets shall be separately classified as 2881(2), *Coffin or Casket Mfg. or Assembling – wood*.

The manufacture or assembly of metal coffins or caskets shall be separately classified as 3076(1), *Furniture Mfg. – metal*.

UPHOLSTERING – furniture**9522(2)**

This classification applies to upholstering furniture in connection with new furniture manufacturing operations or reupholstering existing furniture, including manufacturing pillows or cushions in connection with upholstery operations. This classification also applies to refelting pool tables or upholstering modular office partition panels.

Wall padding or upholstery shall be classified as 9521(1), *House Furnishings*.

Manufacturing pillows or cushions not in connection with upholstery operations shall be classified as 2571, *Pillow, Quilt, Comforter or Cushion Mfg.*

Manufacturing wood furniture frames shall be separately classified as 2883, *Furniture Mfg. – wood*.

Assembling wood furniture frames exclusively from parts fabricated by others with no furniture parts fabrication shall be separately classified as 2881(1), *Furniture Assembling*.

Upholstering coffins or caskets shall be classified as 9522(4), *Upholstering – coffin or casket*.

Upholstering wheelchairs shall be classified as 9522(5), *Upholstering – wheelchair*.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

Manufacturing metal furniture frames shall be separately classified as 3076(1), *Furniture Mfg. – metal*.

UPHOLSTERING – N.O.C.**9522(1)**

This classification applies to upholstering when there is no other classification that more accurately describes the operations. This classification includes manufacturing pillows or cushions in connection with upholstery operations. This classification also applies to upholstery operations in connection with cabinet manufacturing or to binding the edges of carpet material to produce area rugs or mats.

This classification does not apply to upholstering performed by an employer in connection with manufacturing or repair operations; such operations shall be assigned to the applicable manufacturing or repair classification unless division of payroll is specifically directed by the phraseology of a classification.

Upholstering furniture, including manufacturing pillows or cushions in connection with upholstery operations, shall be classified as 9522(2), *Upholstering – furniture*.

Manufacturing pillows or cushions not in connection with upholstery operations shall be classified as 2571, *Pillow, Quilt, Comforter or Cushion Mfg.*

Upholstering automobile interiors or installing or replacing vinyl or convertible tops shall be classified as 9522(3), *Automobile Upholstering*.

Upholstering coffins or caskets shall be classified as 9522(4), *Upholstering – coffin or casket*.

This classification applies to the manufacture or assembly of window coverings, including but not limited to mini blinds, vertical blinds, louvered blinds or window shades. Such products may be manufactured from a variety of materials, including but not limited to metal, wood, plastic or fabric.

The manufacture or assembly of draperies or curtains shall be classified as 2501(1), *Clothing Mfg.*

The manufacture of wood or plastic shutters shall be classified as 2806(2), *Shutter Mfg. – wood or plastic*.

WINDOW COVERING – installation – within buildings **9521(3)**

This classification applies to the installation of window coverings, including but not limited to blinds, shades and draperies, within buildings.

Part 3 – Standard Classification System**Section VII – Standard Classifications**

The installation of wooden or plastic shutters or window screens shall be classified as 5146(1), *Cabinet, Fixture or Trim Installation*.

The manufacture or assembly of window coverings, including blinds and shades, shall be classified as 2852, *Window Blind Mfg. or Assembly*.

The manufacture of fabric curtains and draperies shall be classified as 2501(1), *Clothing Mfg.*

The installation of prefabricated doors, door frames or pre-glazed windows shall be classified as 5107, *Door, Door Frame or Pre-Glazed Window Installation*, provided no framing is performed by the employer at the same job or location.

The installation of window security bars and security shutters shall be classified as 5102(1), *Iron, Steel, Brass, Bronze or Aluminum Erection*.

The sale of window coverings shall be separately classified using the applicable *Stores* Industry Group classification.

WINE BOTTLE CORK, CAP, CAPSULE OR WIRE CORK RETAINER MFG.**3131(3)**

This classification applies to the manufacturing or processing of wine bottle corks, caps, capsules, wire cork retainers or similar bottle closure products. This classification includes the processing of purchased corks, including but not limited to cleaning, tumbling, printing and branding, and the manufacturing or processing of bottle closure products made from materials, including but not limited to natural cork, synthetic cork, metal and plastic. This classification also applies to the manufacture of similar bottle closures for other bottled products.

The manufacture of glass bottles shall be classified as 4114, *Glassware Mfg. – N.O.C.*

The manufacture of plastic injection molded bottle closures shall be separately classified as 4498, *Plastics – injection molded products mfg.*

WIRE GOODS MFG. – N.O.C.

See Metal Working Classifications.

WIRE, WIRE ROPE OR WIRE CABLE MFG. – including wire drawing**3241**

This classification applies to the manufacture of insulated or non-insulated wire, wire rope or wire cable used for electrical, non-electrical or load bearing applications when the manufacturing process includes wire drawing operations. This classification also applies to the drawing of metal to produce rod stock less than 1/2" in diameter. This classification includes the heating of wire or rod stock to facilitate the drawing process and the galvanizing, coating, insulating or braiding of the drawn wire or rod.

The manufacture of wire, wire rope or wire cable when the manufacturing process does not include wire drawing operations shall be classified as 4470, *Wire, Wire Rope or Wire Cable Mfg. – no wire drawing*.

The manufacture of electrical wire harnesses shall be classified as 3651, *Electrical Wire Harness Mfg.*

Drawing metal rod to produce rod stock 1/2" in diameter or larger shall be classified as 3018, *Steel Making or Processing*.

The manufacture of products from wire stock shall be classified as 3257, *Wire Goods Mfg.*

Part 3 – Standard Classification System**Section VII – Standard Classifications****WIRE, WIRE ROPE OR WIRE CABLE MFG. – no wire drawing****4470**

This classification applies to the manufacture of insulated or non-insulated wire, wire rope or wire cable used for electrical, non-electrical or load bearing applications when the manufacturing process does not include wire drawing operations. This classification includes galvanizing, coating, insulating and braiding the manufactured wire.

The manufacture of wire, wire rope or wire cable when the manufacturing process includes wire drawing operations shall be classified as 3241, *Wire, Wire Rope or Wire Cable Mfg. – including wire drawing*.

The manufacture of electrical wire harnesses shall be classified as 3651, *Electrical Wire Harness Mfg.*

The manufacture of products from wire stock shall be classified as 3257, *Wire Goods Mfg.*

The manufacture of cable products, including but not limited to cable chokers or non-electrical cable swaging from purchased wire cable, shall be classified as 3632, *Machine Shops – N.O.C.*

WOOD CHOPPING OR TIE MAKING – including lumbering, timber cutting and incidental sawing**2702(3)**

This classification applies to the cutting and splitting of logs at outside locations, including but not limited to logging sites and forests for the production of wood products, such as firewood, kindling and railroad ties.

Commercial timber harvesting shall be classified as 2702(1), *Logging*.

The cutting and splitting of logs at a permanent shop or yard location shall be classified as 2710(1), *Sawmills or Shingle Mills*.

WOOD PRODUCTS MFG. – N.O.C.**2842**

This classification applies to the manufacture of wood products that are not specifically described by another classification, including but not limited to furniture parts, lamp or trophy bases, sign or plaque blanks, ladders, skateboards, fence panels and theatrical scenery.

When an employer deals in any lumber or building materials or in any fuel and materials in addition to performing wood products manufacturing operations, yard operations, including drivers and their helpers, shall be classified as 8232(1), *Lumberyards*, 8232(2), *Building Material Dealers*, or 8232(3), *Fuel and Material Dealers*.

The manufacture of wood furniture shall be classified as 2883, *Furniture Mfg. – wood*.

WOOD TREATING OR PRESERVING – including yard or incidental woodworking operations**2710(3)**

This classification applies to the application of preservatives onto logs, lumber or other wood materials by methods, including but not limited to spraying, dipping, soaking or brushing to preserve or otherwise decrease susceptibility to adverse environmental influences such as water, fire, dry rot, termites or other wood destroying pests or organisms.

WOODEN BOX OR CONTAINER MFG.**2759**

This classification applies to the manufacture of wood boxes, box components, crates and shipping containers. This classification also applies to the manufacture of cooperage stock and the assembly of wood barrels.

The manufacture of boxes made of paper, corrugated material or card stock shall be separately classified.

The manufacture of wood pallets and the repair or reconditioning of wood pallets for other concerns on a fee basis shall be classified as 2757(1), *Pallet Mfg., Repair or Reconditioning*.

Part 3 – Standard Classification System

Section VII – Standard Classifications

The manufacture of wood coffins shall be classified as 2881(2), *Coffin or Casket Mfg. or Assembling – wood*.

Part 4 – Unit Statistical Reporting Requirements**Section I – General Instructions**

Part 4 – Unit Statistical Reporting Requirements**Section I – General Instructions****1. Scope**

Insurers shall provide unit statistical report data for every workers' compensation insurance policy extending coverage under the workers' compensation laws of California, including California coverage by endorsement on a policy primarily covering another state, which must be reported by electronic submission to the WCIRB in accordance with the provisions of this Plan and the reporting requirements for California described in the Workers Compensation Insurance Organizations (WCIO) Workers Compensation Statistical Reporting Specifications (WCSTAT). Each electronic submission must contain an Electronic Transmittal Record as provided in the WCIO Electronic Transmittal Record Specifications (ETR). On multi-state policies, data pertaining only to California coverage shall be submitted.

2. Date of Valuation

The date of valuation for losses shall be determined as follows:

a. First Reports

Losses included in the first reporting of a given policy shall be valued as of eighteen (18) months after the month of the inception date of the policy.

b. Second Reports

Losses included in the second reporting of a given policy shall be valued as of thirty (30) months after the month of the inception date of the policy.

c. Third Reports

Losses included in the third reporting of a given policy shall be valued as of forty-two (42) months after the month of the inception date of the policy.

d. Fourth Reports

Losses included in the fourth reporting of a given policy shall be valued as of fifty-four (54) months after the month of the inception date of the policy.

e. Fifth Reports

Losses included in the fifth reporting of a given policy shall be valued as of sixty-six (66) months after the month of the inception date of the policy.

f. Sixth Reports

Losses included in the sixth reporting of a given policy shall be valued as of seventy-eight (78) months after the month of the inception date of the policy.

g. Seventh Reports

Losses included in the seventh reporting of a given policy shall be valued as of ninety (90) months after the month of the inception date of the policy.

h. Eighth Reports

Losses included in the eighth reporting of a given policy shall be valued as of one hundred two (102) months after the month of the inception date of the policy.

i. Ninth Reports

Losses included in the ninth reporting of a given policy shall be valued as of one hundred fourteen (114) months after the month of the inception date of the policy.

Part 4 – Unit Statistical Reporting Requirements**Section I – General Instructions**

j. Tenth Reports

Losses included in the tenth reporting of a given policy shall be valued as of one hundred twenty-six (126) months after the month of the inception date of the policy.

3. Date of Reporting

Unit statistical report data shall be submitted as follows:

a. First Reports

The first reporting of exposure, premium and loss information is due in the WCIRB no later than twenty (20) months after the inception date of the policy.

b. Second Reports

The second reporting of losses is due in the WCIRB no later than thirty-two (32) months after the inception date of the policy.

c. Third Reports

The third reporting of losses is due in the WCIRB no later than forty-four (44) months after the inception date of the policy.

d. Fourth Reports

The fourth reporting of losses is due in the WCIRB no later than fifty-six (56) months after the inception date of the policy.

e. Fifth Reports

The fifth reporting of losses is due in the WCIRB no later than sixty-eight (68) months after the inception date of the policy.

f. Sixth Reports

The sixth reporting of losses is due in the WCIRB no later than eighty (80) months after the inception date of the policy.

g. Seventh Reports

The seventh reporting of losses is due in the WCIRB no later than ninety-two (92) months after the inception date of the policy.

h. Eighth Reports

The eighth reporting of losses is due in the WCIRB no later than one hundred four (104) months after the inception date of the policy.

i. Ninth Reports

The ninth reporting of losses is due in the WCIRB no later than one hundred sixteen (116) months after the inception date of the policy.

j. Tenth Reports

The tenth reporting of losses is due in the WCIRB no later than one hundred twenty-eight (128) months after the inception date of the policy.

Part 4 – Unit Statistical Reporting Requirements**Section II – Definitions**

Report Number	Report Level	Date of Valuation (number of months after the month in which policy inception)	Date of Reporting (number of months after the inception date of the policy)
1	First Level	18	20
2	Second Level	30	32
3	Third Level	42	44
4	Fourth Level	54	56
5	Fifth Level	66	68
6	Sixth Level	78	80
7	Seventh Level	90	92
8	Eighth Level	102	104
9	Ninth Level	114	116
10	Tenth Level	126	128

4. Excess Policies

Unit statistical data on policies that provide coverage for specific excess or aggregate excess insurance shall not be reported to the WCIRB.

5. Foreign Construction or Erection Projects

Experience developed under construction or erection projects lasting more than 180 calendar days outside the United States, its Territories, or Canada, shall not be included with the regular submission of unit statistical report data.

6. Reinsurance

No deduction shall be made from final premiums and losses for, or on account of, reinsurance ceded. Final premiums and losses arising from reinsurance assumed shall be excluded.

7. Insolvent Insurers

Unit statistical report data for a policy written by an insolvent insurer with a required month of valuation on or after the date of liquidation of the insolvent insurer shall not be reported to the WCIRB.

Section II – Definitions

The definitions set forth in this Section shall govern the construction and meaning of the terms and phrases used for the reporting of data under Part 4 of this Plan.

1. Accident Date

- For specific injuries, it is the date on which the accident or injury occurred.
- For cumulative injury or occupational disease cases, it is the date during the policy period to which the claim is assigned.

2. Allocated Loss Adjustment Expense(s)

See Loss Adjustment Expense(s).

Part 4 – Unit Statistical Reporting Requirements**Section II – Definitions**

3. Audited Exposure

Payroll or other basis of exposure reported from an audit conducted pursuant to Part 3, Section VI, Rule 4, *Audit of Payroll*. See also Part 1, Section II, *General Definitions*, for the definition of “Audit” and “Exposure(s)”.

4. Catastrophe

Any single accident resulting in a compensable injury to two or more persons. Accident includes incidents where multiple claims have been consolidated for hearing by the Workers' Compensation Appeals Board.

5. Closed or Closed Claim

Any claim for which final payment has been made.

6. Compromise and Release

A settlement over the issues of compensability, extent of injury, and/or past, present and/or future benefits.

7. Compromised Death Claim(s)

A closed death claim that has been compromised over the sole issue of the applicability of the workers' compensation laws of California.

8. Contract Medical

The actual costs incurred by the insurer under medical contracts with physicians, hospitals, and others that cannot be allocated to a particular claim, e.g., a contract for medical services provided on a per-head or “capitated” basis.

9. Cumulative Injury or Cumulative Injury Claim(s)

An injury having occurred from repetitive mentally or physically traumatic activities extending over a period of time, the combined effect of which caused any disability or need for medical treatment.

10. Death or Death Claim

Any industrial death claim, unless it has been established that the insurer incurred no liability for the death, the injured worker died from natural causes, or the claim was compromised over the sole issue of the applicability of the workers' compensation laws of California. (See the definition of “Compromised Death Claim(s)”.)

11. Employers' Liability Claim(s)

A claim with an Allocated Loss Adjustment Expense or an incurred loss amount under the employers' liability provision of the workers' compensation insurance policy.

12. Final Premium(s)

Reported in the “Standard Premium Total” field on the unit statistical report, this is the total premium charged to the policyholder, EXCEPT that it does not include the following:

- a. Reinsurance assumed,
- b. Adjustment for reinsurance ceded,
- c. Retrospective rating adjustments,
- d. Policyholder dividends,
- e. Application of deductible credits,

Part 4 – Unit Statistical Reporting Requirements

Section II – Definitions

- f. Premium charges arising from the Terrorism Risk Insurance Program established by the Terrorism Risk Insurance Act of 2002, and any amendments thereof,
- g. The costs incurred by the insurer in unsuccessfully attempting to perform a payroll audit that are reimbursable pursuant to Insurance Code Section 11760.1, and
- h. Policy assessments, including but not limited to California Insurance Guarantee Association (CIGA) assessments, California Workers' Compensation Revolving Fund assessments, California workers' compensation fraud surcharges, Uninsured Employers Benefits Trust Fund assessments, Occupational Safety and Health Fund assessments, Labor Enforcement and Compliance Fund assessments, and Subsequent Injuries Benefits Trust Fund assessments.

The following hypothetical examples illustrate how final premiums on two large policies are to be determined (assuming, for simplicity, that retrospective rating adjustments and policyholder dividends do not apply to these two policies, but a charge arising from the Terrorism Risk Insurance Program, and any amendments thereof, does apply):

		Example One	Example Two
(1)	Subject Premium (Based on exposure and insurer's rates)	\$5,000	\$200,000
(2)	Experience Rating Credit	—	20,000
(3)	Experience Rating Debit	—	—
(4)	Deductible Credit	—	50,000
(5)	Premium Discount	—	10,000
(6)	Expense Constant	50	—
(7)	Other Credit Adjustments*	100	2,000
(8)	Other Debit Adjustments**	75	3,000
(9)	Charge for the Terrorism Risk Insurance Program and any amendments thereof	40	1,500
(10)	Actual Premium Charged [(1) + (3) + (6) + (8) + (9)] – [(2) + (4) + (5) + (7)]	5,065	122,500
(11)	Final Premium to be Reported [(1) + (3) + (6) + (8)] – [(2) + (5) + (7)], or simply (10) + (4) – (9)	\$5,025	\$171,000

* schedule rating credits, merit rating credits, Insolvent Insurer Rating Adjustment Factor credits, etc., if applicable.

** schedule rating debits, surcharge for waiver of subrogation, surcharge for Coverage B increased limits, surcharge for policyholder audits authorized by Insurance Code Section 11665, additional premium estimated pursuant to Insurance Code Section 11760.1, Insolvent Insurer Rating Adjustment Factor debits, etc., if applicable.

13. Findings and Award

An award that has been issued by a workers' compensation judge based on evidence presented in the process of litigation.

14. Incurred Indemnity

The sum of all paid indemnity losses and the outstanding indemnity losses on a claim. (See the definitions for "Indemnity Loss(es)" and "Outstanding Indemnity".)

Part 4 – Unit Statistical Reporting Requirements

Section II – Definitions

15. Incurred Loss(es)

The sum of incurred indemnity and incurred medical losses. (See the definitions for “Incurred Indemnity” and “Incurred Medical”.)

16. Incurred Medical

The sum of all paid medical losses and the outstanding medical on a claim. (See the definitions for “Medical Loss(es)” and “Outstanding Medical”.)

17. Indemnity Loss(es)

All indemnity costs, including but not limited to:

- a. On a claim closed by a single sum settlement, that portion assignable to indemnity. (See the definition of “Single Sum Settlement”.)
- b. The following legal expenses for the claimant if they are included in the award to, or incurred on behalf of, a claimant:
 - (1) Witness fees.
EXCEPTION: Expert medical witness fees shall be included in medical loss.
 - (2) Attorney fees.
 - (3) Other court costs.
 - (4) Reimbursement for expenses incurred in attending a hearing or deposition, including interpreter fees.
 - (5) Cost of copies of documents such as birth and death certificates.
- c. The cost of all supplemental job displacement benefit vouchers as well as any additional vocational rehabilitation-type benefits (including those provided on a voluntary basis).
- d. Allocated Loss Adjustment Expenses incurred for employers' liability claims.

Note:

Indemnity losses do not include automatic increases to late indemnity payments made pursuant to California Labor Code Section 4650, penalties for unreasonable delay determined by the Workers' Compensation Appeals Board pursuant to California Labor Code Section 5814, reimbursement of lien filing fee or lien activation fee made pursuant to California Labor Code Section 4903.07 or reimbursement of independent bill review fee made pursuant to California Labor Code Section 4603.6 (c).

18. Insolvent Insurer Rating Adjustment Factors

See the definition of “Insolvent Insurer Rating Adjustment Factor” located in Part 1, *General Provisions*, Section II, *General Definitions*, of the *Miscellaneous Regulations for the Recording and Reporting of Data—1995*, approved by the Insurance Commissioner of the state of California, Title 10, California Code of Regulations, Section 2354.

19. Joint Coverage or Joint Coverage Claim(s)

A claim for which it has been determined by adjudication that the coverage furnished by other than the one policy for which experience is being reported is pertinent to a division of the total incurred loss which usually results from the injured party having co-employers, overlapping coverage on the same employer, or the injury developing over an extended period. When an insurer has determined that the loss is chargeable to two or more employers insured by such insurer, or when a written agreement has been executed between two or more insurers which specifies a sum specific or percentage of contribution as to

Part 4 – Unit Statistical Reporting Requirements

Section II – Definitions

each insurer's liability for the claim, it shall be considered the equivalent of a determination by adjudication that the coverage furnished by other than the one policy for which experience is being reported is pertinent to the division of the total incurred loss.

20. Loss Adjustment Expense(s)

Loss adjustment expense(s) includes two components, Allocated Loss Adjustment Expense(s) and Unallocated Loss Adjustment Expense(s), each of which is defined below:

a. Allocated Loss Adjustment Expense(s)

Allocated Loss Adjustment Expenses includes the following costs:

- (1) Fees, salary and overhead (including support staff) of individuals whose primary or predominant job function is to perform representation before the Workers' Compensation Appeals Board or other legal services. This shall include costs incurred by outside or in-house counsel, non-attorney hearing representatives and their related support personnel.

EXCEPTION: Costs associated with occasional or incidental legal work performed by individuals hired primarily or predominantly to perform the function of claim operations shall be considered as Unallocated Loss Adjustment Expenses (see Subrule 20b, below).

- (2) The cost of legal services incurred in pursuing subrogation recoveries.

EXCEPTION: If a subrogation reimbursement is obtained, the reported cost of legal services incurred in pursuing the recovery shall be reduced by the amount reimbursed. If the reimbursement exceeds the cost of such legal services, the excess shall be applied to reduce the reported incurred losses.

- (3) Court, alternate dispute resolution and other specific costs listed below that are not included in the award to or incurred on behalf of the claimant:

(If any costs listed below are included in the award to or incurred on behalf of the claimant, they shall be reported as indemnity loss.)

(a) Expert testimony.

EXCEPTION: The cost of all expert testimony related to medical-legal shall be reported as medical loss.

(b) Witnesses and summonses.

(c) Copies of documents such as birth and death certificates.

EXCEPTION: The cost of procuring copies of medical treatment records shall be reported as medical loss.

(d) Alternate dispute resolution fees, such as arbitration fees.

(e) Surveillance, including activity checks, performed by either in-house personnel or outside services.

EXCEPTION: The cost of incidental surveillance or activity checks performed by individuals hired primarily or predominantly to perform the function of claim operations shall be considered as Unallocated Loss Adjustment Expenses (see Subrule 20b, below).

(f) The cost of field investigations related to the compensability of claims, potential fraud or the potential for future subrogation, performed by either dedicated in-house personnel or outside services.

EXCEPTION: The cost of incidental field investigations performed by individuals hired primarily or predominantly to perform the function of claim operations shall be considered as Unallocated Loss Adjustment Expenses (see Subrule 20b, below).

Part 4 – Unit Statistical Reporting Requirements**Section II – Definitions**

(g) Court costs, such as appeal bond costs and appeal filing fees.

(h) Interpreter fees.

EXCEPTION: Interpreter fees related to medical-legal or medical treatment shall be reported as medical loss. Interpreter fees related to vocational rehabilitation or included in the award to, or incurred on behalf of, the claimant, other than those related to medical-legal or medical treatment, shall be reported as indemnity loss.

- (4) The cost of medical cost containment programs incurred with respect to a particular claim or which can be allocated to a particular claim, whether by an outside vendor or done internally by an employee, to ensure that only reasonable and necessary costs of services are paid, shall be included in the allocated loss adjustment expense amount. (The cost of medical cost containment programs that cannot be allocated to a particular claim shall be considered unallocated loss adjustment expenses.)

These costs include, but are not limited to:

- (a) Bill auditing expenses for any medical services rendered, such as hospital bills, nursing home bills, physician bills, chiropractic bills, medical equipment charges, pharmacy charges, physical therapy bills and medical vendor bills.
 - (b) Hospital and other treatment utilization reviews, including precertification/preadmission, and concurrent or retrospective reviews.
 - (c) Access fees and other expenses incurred with respect to the utilization of managed care organizations, such as preferred provider networks/organizations (PPOs), medical provider networks (MPNs), and Health Care Organizations (HCOs).
 - (d) Costs of medical management except for nurse case management or case management that directly interacts and is coordinated with the injured employee and others, who are all parties to the employee's need for medical care.
- (5) The fees and costs, including the cost of procuring copies of medical records, associated with independent bill review conducted pursuant to Labor Code Section 4603.6 or independent medical review conducted pursuant to Labor Code Sections 4610.5 and 4610.6 or 4616.4.

b. Unallocated Loss Adjustment Expense(s)

The costs of an insurer, in connection with the handling of claims, which are not defined as Allocated Loss Adjustment Expenses, indemnity loss or medical loss. These include, but are not limited to:

- (1) Fees, salary and overhead (including support staff) of individuals hired primarily or predominantly to perform the function of claim operations. This includes costs incurred by in-house personnel or outside services.

EXCEPTION: Costs related to individuals whose primary or predominant function is to perform legal services or field investigations related to the compensability of claims, potential fraud or the potential for future subrogation shall be considered as Allocated Loss Adjustment Expenses (see Subrule 20a, above).

- (2) The costs of medical cost containment programs that cannot be allocated to a particular claim. (The costs of medical cost containment programs that can be allocated to a particular claim shall be reported as allocated loss adjustment expenses.)
- (3) The cost of benefit increases or penalty awards made pursuant to California Labor Code Sections 4650, 5814, 4603.2, 4610.6 and 4622.
- (4) The cost of the reimbursement to the lien claimant of the lien filing fee or lien activation fee when ordered or awarded by the Workers' Compensation Appeals Board (WCAB) or arbitrator pursuant to Labor Code Section 4903.07.

Part 4 – Unit Statistical Reporting Requirements**Section II – Definitions**

21. Major Permanent Partial Disability

An injury resulting in a permanent partial disability, not constituting permanent total disability, which has been adjudicated to constitute a permanent disability rating of 25% or more (but less than 100%) or which, in the opinion of the insurer, will result in a permanent disability rating of 25% or more (but less than 100%).

22. Medical Evaluation

An examination of a worker's injury, performed by an independent medical examiner, agreed medical evaluator, treating physician, consulting physician or qualified medical evaluator, for purposes of assessing the worker's eligibility for benefits, ability to return to work, extent of permanent disability and/or need for new and further medical treatment. This does not include independent medical review conducted pursuant to Labor Code Sections 4610.5 and 4610.6 or 4616.4 or independent bill review conducted pursuant to Labor Code Section 4603.6.

23. Medical Loss(es)

All medical costs, including but not limited to:

- a. On a claim closed by a single sum settlement, that portion assignable to medical. (See the definition of "Single Sum Settlement".)
- b. The cost of all medical evaluations and medical-legal evaluations shall be included in the medical amount. This includes all evaluations to determine eligibility for benefits, such as ability to return to work, extent of permanent disability, and/or the need for new and further medical treatment. This also shall include the cost of procuring copies of medical records and interpreter fees related to medical evaluations and medical-legal evaluations. This does not include costs associated with independent medical review conducted pursuant to Labor Code Sections 4610.5, and 4610.6 or 4616.4 or independent bill review conducted pursuant to Labor Code Section 4603.6.
- c. Contract medical. (See the definition of "Contract Medical".)
- d. Interpreter fees related to medical treatment.
- e. All fees or costs related to Medicare Set-aside Arrangements.

Note:

Medical losses shall not include increases due to late payments for medical and medical-legal services made pursuant to California Labor Code Sections 4603.2 or 4622.

24. Medical Only or Medical Claims Only

A claim or injury for which no indemnity is incurred, but for which medical treatment costs are incurred is a "medical only" claim or injury, regardless of whether the cost of medical treatment, including first aid, is paid by an employer or insurer, or regardless of whether a Workers' Compensation Claim Form (DWC 1) is filed. "Medical Only" claims or injuries include but are not limited to all compensable injuries in which the disability does not extend beyond the waiting period specified in the workers' compensation laws of California, or injuries for which immediate medical treatment has been provided prior to a determination of compensability pursuant to Labor Code Section 5402(c).

25. Minor Permanent Partial Disability

An injury resulting in a permanent partial disability, not constituting permanent total disability, which has been adjudicated to constitute a permanent disability rating of less than 25% (but greater than 0%) or which, in the opinion of the insurer, will result in a permanent disability rating of less than 25% (but greater than 0%).

Part 4 – Unit Statistical Reporting Requirements**Section II – Definitions**

26. Net Incurred (Loss)

In the computation of experience modifications, the amount used for Subrogation, Partially Fraudulent, Joint Coverage or Compromised Death Claims that is determined as described for each such claim in Section V, *Loss Information*, Subsection C, *Special Loss Reporting Instructions*.

27. Non-Compensable Claim(s)

Any claim where:

- a. There is a ruling by the Workers' Compensation Appeals Board (WCAB), or other court of competent jurisdiction, specifically holding that a claimant is not entitled to benefits under the workers' compensation laws of California, even though the claimant may have been awarded reimbursement for expenses incurred by the claimant in presenting his/her case;
- b. The insurer rejects the claim for benefits under the workers' compensation laws of California and the claim is dismissed by a ruling by the WCAB or other court of competent jurisdiction, because of the claimant's failure to prosecute his/her claim; or
- c. The insurer rejects the claim for benefits and no application for adjudication of claim was filed during the period of limitation provided by the workers' compensation laws of California.

28. Nontransferable Education-Related Voucher(s)

See the definition of "Supplemental Job Displacement Benefit Voucher(s)".

29. Occupational Disease

Any abnormal condition or disorder, other than one resulting from an occupational injury, caused by exposure to environmental factors associated with employment. It includes acute and chronic illnesses or disease that may be caused by inhalation, absorption, ingestion, or direct contact.

30. Open or Open Claim(s)

Any claim that is not closed.

31. Outstanding Indemnity

The insurer's individual case estimate of all future indemnity payments on the claim.

32. Outstanding Medical

The insurer's individual case estimate of all future medical payments on the claim.

33. Partially Fraudulent Claim(s)

A claim where the Workers' Compensation Appeals Board (WCAB) declares a portion of the claim costs invalid, unnecessary or excessive, such as, but not limited to, cases where medical liens are deemed excessive.

34. Permanent Total Disability

An injury that has been adjudicated to constitute a permanent disability rating of 100% or which, in the judgment of the insurer, will result in a 100% permanent disability rating.

35. "S" Claim(s)

See the definition of "Compromised Death Claim(s)".

Part 4 – Unit Statistical Reporting Requirements**Section III – Link Data and Header Record Information**

36. Single Sum Settlement

The closing amount of a claim representing the discounted or commuted value of a specific award or benefit. These could include compromise and release settlements, stipulated awards, findings and awards or summary ratings.

37. Statistical Code

A code, not a standard classification code, normally used by insurers to report premium credits and debits resulting from rating plans, discounts, surcharges, etc., if required.

38. Stipulated Award

An award that has been drawn up between the insurer and claimant and submitted to the Workers' Compensation Appeals Board (WCAB) for review.

39. Subrogated, Subrogation or Subrogation Claim(s)

A claim where an insurer received monetary reimbursement either in part or in whole under subrogation rights.

40. Supplemental Job Displacement Benefit Voucher(s)

Supplemental job displacement benefits in the form of vouchers issued pursuant to Labor Code Sections 4658.5 and 4658.7.

41. Temporary Total or Temporary Partial Disability

A claim or compensable injury that is not classified as permanent and that extends beyond the waiting period specified in the workers' compensation laws of California.

42. Trauma

An injury resulting in disability or death that is traceable to a definite accident occurring during the worker's present or past employment and cannot be classified as either a cumulative injury or an occupational disease claim.

43. Unallocated Loss Adjustment Expense(s)

See Loss Adjustment Expense(s).

44. Weekly Wage Amount

Average weekly wages upon which the indemnity benefits are based pursuant to the California Labor Code (but not the maximum or minimum weekly earnings specified in the California Labor Code).

Section III – Link Data and Header Record Information

All link data and header record fields shall be reported as required for California in WCSTAT except as indicated below.

1. Exposure State Code

Report code "04".

2. Policy Effective Date

Report the inception date that corresponds exactly to that shown on the policy information page or the inception date changed by endorsement.

Part 4 – Unit Statistical Reporting Requirements**Section III – Link Data and Header Record Information**

a. Interstate Policies

For interstate policies that are endorsed after the inception date to provide coverage for California, the effective date shall be the inception date of the interstate policy.

b. Continuing Form and Fixed-Term Policies

For each successive annual period, treat the policy in the same manner as though it were an annual policy effective in the same month and on the same day of the month as the inception date of the annual period. If there has been a first period or last period of coverage, which has been treated as a short-term policy in accordance with Part 2, Section II, Rule 2, *Continuing Form Policies or Fixed-Term Policies Written in Excess of One Year and Sixteen (16) Days*, of this Plan, such period shall also be treated as a separate short-term policy for reporting purposes under this Plan.

3. Report Level Code / Report Number

Report the code that corresponds to the report level based on the policy valuation date. (See Section I, *General Instructions*, Rules 2, *Date of Valuation*, and 3, *Date of Reporting*, to determine the policy valuation dates and required reporting dates.)

Report Number	Level
1	First Report
2	Second Report
3	Third Report
4	Fourth Report
5	Fifth Report
6	Sixth Report
7	Seventh Report
8	Eighth Report
9	Ninth Report
A	Tenth Report

4. Policy Expiration or Cancellation Date

Report the expiration date as the expiration date shown on the policy information page unless the policy is cancelled. In that event, the cancellation date shall be reported as the expiration date.

a. Interstate Policies

For interstate policies, report the expiration or cancellation date of the interstate policy.

b. Continuing Form Policies

For each successive annual period, treat the policy in the same manner as though it were an annual policy expiring twelve (12) months after the inception date shown, unless the policy is cancelled. In that event, the cancellation date shall be reported as the expiration date.

5. Estimated Audit Code

Report whether the exposure is audited or estimated. If an audit was not conducted pursuant to Part 3, Section VI, Rule 4, *Audit of Payroll*, the exposure shall be considered estimated. Report Estimated Audit Code "U" if estimate is due to an uncooperative policyholder; report Estimated Audit Code "Y" for all other reasons.

Code	Description
N	Exposure is audited
U*	Exposure is estimated due to an uncooperative policyholder
Y**	Exposure is estimated—other

* Where it is not possible to obtain audited exposure figures due to the policyholder's refusal to provide the insurer access to the payroll and other required records, the insurer shall use the

Part 4 – Unit Statistical Reporting Requirements

Section IV – Exposure Information

Estimated Audit Code “U”. A “U” Estimated Audit Code means that the insurer has made a good faith effort to complete the audit and inform the policyholder of the possible consequences of not permitting the insurer to complete the final audit, which may result in the exclusion of the payroll from the policyholder’s experience modification in accordance with Section III, *Eligibility and Experience Period*, Rule 3, *Experience to be Used for Rating California Workers’ Compensation Insurance Risks*, Subrule g, of the Experience Rating Plan.

** Where it is not possible to obtain audited exposure figures, for reasons other than an uncooperative policyholder, the insurer shall submit a statement indicating the reasons why audited exposure figures cannot be obtained. (See the definition of “Audited Exposure” as applicable to this Plan.)

Section IV – Exposure Information

All exposure-related fields shall be reported as required for California in WCSTAT except as indicated below.

1. Classification Code

Report the appropriate 4-digit California standard classification code. Report code 0012 for payments excluded from remuneration pursuant to Part 3, *Standard Classification System*, Section III, *General Classification Procedures*, Rule 7, *Coronavirus Disease 2019 (COVID-19)*, subrule b. All records containing “Exposure Amount” must be assigned to a standard classification code developed in accordance with the provisions of this Plan or code 0012.

Also, report statistical code 9740, *Catastrophe Provisions for Terrorism*, if applicable. Other statistical codes need not be reported. (See the definition of “Statistical Code” as applicable to this Plan.)

2. Experience Modification Effective Date

Report the California experience modification effective date. When more than one modification applies to a single policy, report the corresponding standard classification codes and exposures for each experience modification period separately, with the appropriate effective date of each modification. If no experience modification applies to the policy, report the policy effective date.

3. Rate Effective Date

Report the rate (exposure) effective date. If the rate effective date precedes the policy effective date, report the policy effective date.

4. Exposure Amount

Report the total audited exposure for each standard classification code. (See the definition of “Audited Exposure” as applicable to this Plan.) Report payments excluded from remuneration pursuant to Part 3, *Standard Classification System*, Section III, *General Classification Procedures*, Rule 7, *Coronavirus Disease 2019 (COVID-19)*, subrule b. Report payroll dollars rounded to the nearest whole dollar amount. Report non-payroll exposures to the nearest tenth of a unit. Payrolls or other applicable exposure amounts reported shall be obtained in accordance with the provisions of this Plan.

If pursuant to Section III, *Link Data and Header Record Information*, Rule 5, *Estimated Audit Code*, the exposure is considered estimated, report the current estimated exposure. Do not adjust the estimated exposure to reflect any additional premium the insurer has charged in accordance with California Insurance Code Section 11760.1.

- a. For a number of standard classifications, this Plan provides for a basis of exposure other than payroll. A list of these standard classifications and the applicable unit of exposure is given in the table below.

Part 4 – Unit Statistical Reporting Requirements**Section V – Loss Information**

Code No.	Standard Classification	Unit of Exposure
8278	Jockeys or Harness Drivers	Per Race
7707	Firefighting Operations, Volunteers	Per Capita, Per Year
7722	Police, etc., Volunteers	Per Capita, Per Year
8631	Racing Stables	Per Occupied Stall, Per Day

For each such standard classification that applies, report the total number of exposure units.

5. Premium Amount

Report the premium amount for statistical code 9740, *Catastrophe Provisions for Terrorism*, if applicable. (Note that the premium amount for statistical code 9740 is not to be included in the “Final Premium Total (Standard Premium Total)” amount in Section VI, *Unit Total Record Data*. See definition of “Final Premium(s)” in Section II, *Definitions*.) The premium amounts for standard classification codes and other statistical codes need not be reported.

6. Update Type Code

Report the alphabetic code that identifies the activity of an exposure record. Exposure records can be reported using either the “Previous/Revised” method or the “Add/Change/Delete” method. Refer to Section VII, *Subsequent Reports, Correction Reports, and Reporting Methods*, Rule 3, *Reporting Methods*, for instructions.

Code	Description
A	Add Record
D	Delete Record
P	Previously Reported
R	Revised

Section V – Loss Information**A. General Loss Reporting Instructions****1. Reporting Losses**

Any and all claims, including those involving first aid as defined in California Labor Code Section 5401(a), in which Indemnity Losses or Medical Losses are incurred or Allocated Loss Adjustment Expenses are paid must be reported individually.

All loss amounts are on a direct basis (excluding reinsurance assumed and adjustment for reinsurance ceded) and must be reported on a gross basis prior to the application of any deductibles.

2. Date of Valuation

See Section I, *General Instructions*, Rule 2, *Date of Valuation*, to determine the valuation dates for losses.

3. Supplemental Claim Information²

The following loss data elements shall be reported on claims meeting the criteria specified below:

- (1) “Weekly Wage Amount” – report on Injury Type “01”, “02”, “03”, “04”, “05” and “08” claims
- (2) “Scheduled Indemnity – Percentage of Disability” – report on Injury Type “02”, “03” and “04” claims

² See the definitions of “Joint Coverage or Joint Coverage Claim(s)”, “Partially Fraudulent Claim(s)”, “Subrogated, Subrogation or Subrogation Claim(s)” and “Compromised Death Claim(s)” as applicable to this Plan.

Part 4 – Unit Statistical Reporting Requirements**Section V – Loss Information**

- (3) "Total Incurred Vocational Rehabilitation Amount" – report on Injury Type "01", "02", "03", "04", "05" and "08" claims
- (4) "Total Gross Incurred Amount" – report on joint coverage, partially fraudulent, subrogated and Injury Type "08" claims

B. Loss Data Elements

All loss-related fields shall be reported on all claims as required for California in WCSTAT except as indicated below.

1. Classification Code

Report the 4-digit California standard classification code to which the claim has been assigned. With respect to contract medical, costs shall be apportioned by standard classification. (See the definition of "Contract Medical" as applicable to this Plan.) No claims may be assigned to any standard classification unless payroll or other appropriate exposure also has been reported for that standard classification. In cases where losses have been incurred under the benefits of a state other than where the payroll is assigned, report the claim in the state where the payroll is assigned.

2. Weekly Wage Amount

Report the whole dollar amount of the injured worker's weekly wage. (See the definition of "Weekly Wage Amount" as applicable to this Plan.)

3. Injury Code (Injury Type)

Report the code that identifies the injury type giving rise to the claim. See Section II, *Definitions*, for assistance in determining the "Injury Code (Injury Type)." All claims shall be assigned to an injury type even if the data in the file on the date of valuation is not sufficient to form a conclusive determination of the duration or extent of disability.

Code	Description
01	Death
02	Permanent Total Disability
03	Major Permanent Partial Disability
04	Minor Permanent Partial Disability
05	Temporary Total or Temporary Partial Disability
06	Medical Claims Only
07	Contract Medical or Hospital Allowance
08	Compromised Death or "S" Claim

4. Catastrophe Number

Report the 2-digit sequential number for two or more claims resulting from the same occurrence. For each policy, all claims resulting from the first such occurrence shall be assigned a "Catastrophe Number" of 01, all claims resulting from the second occurrence shall be 02, etc. When an occurrence results in only one claim being reported, report zero.

Example

Claim No.	Policy No.	Date of Injury	Cat. No.
123	WC-1	2/15/yy	01
456	WC-1	2/15/yy	01
321	WC-1	4/23/yy	00
789	WC-1	6/14/yy	02
987	WC-1	6/14/yy	02

Part 4 – Unit Statistical Reporting Requirements

Section V – Loss Information

With respect to unit statistical report data with a required date of reporting on or after August 1, 2020, re-report “Catastrophe Number” 12 for all claims directly arising from a diagnosis of Coronavirus disease 2019 (COVID-19) and an accident date on or after December 1, 2019.

5. Update Type Code

Report the alphabetic code that identifies the activity of the loss record. Loss records can be reported using either the “Previous/Revised” method or the “Add/Change/Delete” method. Refer to Section VII, *Subsequent Reports, Correction Reports, and Reporting Methods*, Rule 3, *Reporting Methods*, for instructions.

Code	Description
A	Add Record
C	Change Record
D	Delete Record
P	Previously Reported
R	Revised

6. Type of Settlement

Report the code that identifies the certain settlement situation for the claim.

Code	Description
00	Claim Not Subject to Settlement
03	Stipulated Award*
04	Findings and Award*
05	Non-Compensable**
06	Compromise and Release*
09	All Other Settlements

* See Section II, *Definitions*, for definitions as applicable to this Plan.

** See Section II, *Definitions*, Rule 27, *Non-Compensable Claim(s)*, for definition of a non-compensable claim. The insurer shall submit a statement to the WCIRB when a non-compensable claim meets the requirements of California Labor Code Section 3761 (d).

7. Part of Body

Report the code that identifies the part of body injured. (See Appendix III of this Plan for the applicable codes.)

8. Nature of Injury

Report the code that identifies the nature of injury. (See Appendix III of this Plan for the applicable codes.)

9. Cause of Injury

Report the code that identifies the cause of injury. (See Appendix III of this Plan for the applicable codes.)

10. Fraudulent Claim Code

Report the appropriate code from the list below to indicate whether a claim is partially fraudulent or not. (See the definition of “Partially Fraudulent Claim(s)” as applicable to this Plan.)

Code	Description
00	Not Partially Fraudulent
01	Partially Fraudulent

11. Total Gross Incurred Amount

Report the total gross incurred amount in whole dollars.

Part 4 – Unit Statistical Reporting Requirements

Section V – Loss Information

This field is only required to be reported on claims that are subrogated (Type of Recovery Code “03”), partially fraudulent (Fraudulent Claim Code “01”), joint coverage (Type of Recovery Code “05” or “06”), or Compromised Death or “S” claim (Injury Code (Injury Type) “08”). For these four special types of claims, the gross incurred amounts shall be reported as follows:

- Subrogation Claims – See Subsection C, *Special Loss Reporting Instructions*, Rule 1, *Subrogation Claims*, below.
- Partially Fraudulent Claims – See Subsection C, *Special Loss Reporting Instructions*, Rule 2, *Partially Fraudulent Claims*, below.
- Joint Coverage Claims – See Subsection C, *Special Loss Reporting Instructions*, Rule 3, *Joint Coverage Claims*, below.
- Compromised Death or “S” Claims – See Subsection C, *Special Loss Reporting Instructions*, Rule 7, *Compromised Death or “S” Claims*, below

C. Special Loss Reporting Instructions

1. Subrogation Claims

For a subrogation claim reported on a normal valuation of losses, the gross incurred shall be the estimated liability for the claim as of the normal valuation as if there had been no subrogation. For a subrogation claim reported on a correction filed between valuation dates, the gross incurred shall be the estimated liability for the claim at the time of subrogation reimbursement as if there had been no subrogation.

In reporting subrogation claims, the net incurred amount is the sum of the net paid and net outstanding amounts. The net paid is equal to the gross paid less the amount of the subrogation reimbursement that exceeds the expense incurred in obtaining the subrogation. The net outstanding is equal to the gross outstanding less the subrogation credit allowed, and is subject to a minimum of zero. (In other words, Net Incurred = [Gross Paid - (Reimbursement - Expense Incurred in Obtaining Subrogation)*] + [Gross Outstanding - Subrogation Credit Allowed]*).

* Amount is limited to be no less than zero.

The following hypothetical examples illustrate how net and gross incurred on subrogation claims are to be determined:

		Example One	Example Two	Example Three	Example Four
(1)	Total Paid (Gross)	\$15,000	\$15,000	\$15,000	\$30,000
(2)	Amount Reimbursed	\$12,000	\$15,000	\$6,000	\$30,000
(3)	Expense Incurred in Subrogation	\$2,000	\$4,000	\$7,000	\$0
(4)	Total Net Paid [(1) - ([2] - [3])*]	\$5,000	\$4,000	\$15,000	\$0
(5)	Total Outstanding (Gross)	\$0	\$20,000	\$15,000	\$20,000
(6)	Credit Allowed	\$0	\$10,000	\$0	\$20,000
(7)	Total Net Outstanding [(5) - (6)]*	\$0	\$10,000	\$15,000	\$0
(8)	Total Gross Incurred [(1) + (5)]	\$15,000	\$35,000	\$30,000	\$50,000
(9)	Total Net Incurred [(4) + (7)]	\$5,000	\$14,000	\$30,000	\$0

* Amount is limited to be no less than zero.

When the allocation of the subrogation to indemnity and medical is not known, the subrogation shall be allocated as indicated below for purposes of reporting the net incurred. The amount by which the monetary reimbursement exceeds the expense incurred in obtaining the subrogation recovery, if any, shall be

Part 4 – Unit Statistical Reporting Requirements**Section V – Loss Information**

apportioned to the paid indemnity and paid medical based on the ratios of gross paid indemnity and gross paid medical to the total gross paid, respectively. The credit allowed, if any, shall be apportioned to the outstanding indemnity and outstanding medical based on the ratios of the gross outstanding indemnity and the gross outstanding medical to total gross outstanding, respectively. The following hypothetical examples illustrate how recoveries are to be reflected in the net incurred indemnity and net incurred medical amounts.

(1)	Paid Indemnity (Gross)	\$15,000
(2)	Paid Medical (Gross)	\$25,000
(3)	Total Gross Paid [(1) + (2)]	\$40,000
(4)	Outstanding Indemnity (Gross)	\$15,000
(5)	Outstanding Medical (Gross)	\$15,000
(6)	Total Gross Outstanding [(4) + (5)]	\$30,000

Example A – Subrogation Reimbursement and Credits – Medical Losses Only

(7A)	Amount Reimbursed Indemnity	\$0
(8A)	Amount Reimbursed Medical	\$15,000
(9A)	Expense Incurred in Subrogation	\$5,000
(10A)	Net Paid Indemnity [(1) - (7A)]	\$15,000
(11A)	Net Paid Medical [(2) - [(8A) - (9A)]]*	\$15,000
(12A)	Credit Allowed Indemnity	\$0
(13A)	Credit Allowed Medical	\$10,000
(14A)	Net Outstanding Indemnity [(4) - (12A)]*	\$15,000
(15A)	Net Outstanding Medical [(5) - (13A)]*	\$5,000
(16A)	Net Incurred Indemnity (10A) + (14A)]	\$30,000
(17A)	Net Incurred Medical [(11A) + (15A)]	\$20,000

Part 4 – Unit Statistical Reporting Requirements**Section V – Loss Information****Example B – Subrogation Reimbursement and Credits Apportionment to Medical and Indemnity Not Known**

(7B)	Amount Reimbursed (Unapportioned)	\$15,000
(8B)	Expense Incurred in Subrogation	\$5,000
(9B)	Total Net Reimbursement [(7B) - (8B)]*	\$10,000
(10B)	Net Paid Indemnity [(1) - ((9B) x [1]/[3])]	\$11,250
(11B)	Net Paid Medical [(2) - ((9B) x [2]/[3])]	\$18,750
(12B)	Credit Allowed (Unapportioned)	\$10,000
(13B)	Net Outstanding Indemnity [(4) - ((12B) x [4]/[6])]*	\$10,000
(14B)	Net Outstanding Medical [(5) - ((12B) x [5]/[6])]*	\$10,000
(15B)	Net Incurred Indemnity [(10B) + (13B)]	\$21,250
(16B)	Net Incurred Medical [(11B) + (14B)]	\$28,750

* Amount is limited to no less than zero.

2. Partially Fraudulent Claims

In reporting partially fraudulent claims, report all loss details (i.e., medical costs, etc.) apportioned as existed in the gross loss. The gross incurred shall be the estimated cost of the claim if it had not been found to be partially fraudulent. The net incurred is the estimated cost of the claim after it is found to be partially fraudulent.

3. Joint Coverage Claims

In reporting joint coverage claims, report as the net incurred only that amount which has been apportioned to the claim of the policyholder. The amount apportioned to the claim of the particular policyholder shall be that proportion of the total incurred loss (gross incurred) assignable by adjudication to the policy for which the experience is being reported.

All loss details shall be apportioned as existed in the gross incurred loss. The gross incurred shall be that amount for which the insurer would have been liable had the insurer incurred the entire loss.

4. Non-Compensable Claims

Loss amounts incurred on non-compensable claims are to be reported. (These loss amounts are not used in experience rating.)

5. Cumulative Injury Claims

The incurred loss amounts reported for a cumulative injury claim shall not reflect the incurred loss amounts, if any, for benefits due to a specific injury. (Claims for benefits due to a specific injury shall be reported separately.) A cumulative injury claim with liability limited to a single employer covered by a single insurer during the period of liability shall be reported on the most current policy providing coverage during that period.

6. Employers' Liability Claims

If reported as a single claim, an "03" shall be reported for "Type of Claim". If reported as separate claims, an "02" shall be reported for "Type of Claim".

Part 4 – Unit Statistical Reporting Requirements**Section VII – Subsequent Reports, Correction Reports, and Reporting Methods**

7. Compromised Death or “S” Claims

To report Compromised Death or “S” claims, the gross incurred shall be the amount for which the insurer would have been liable had there been no compromise over the applicability of the claim to the workers' compensation laws of California. The net incurred indemnity and net incurred medical amounts shall be reported as the incurred indemnity and incurred medical amounts for which the insurer is liable. The net incurred is the sum of the net incurred indemnity and net incurred medical.

Section VI – Unit Total Record Data

All unit total fields shall be reported as required for California in WCSTAT except as indicated below:

1. Exposure – Payroll Total

Report in whole dollars the sum of all payroll exposures. Do not include per capita or per race exposure units in this total.

2. Final Premium Total (Standard Premium Total)

Report the whole dollar amount of the final premium for the policy. (See Section II, *Definitions*, for the definition of, and assistance in determining, “Final Premium” as applicable to this Plan.)

3. Incurred Indemnity Amount Total

Report the sum of the amounts reported for “Incurred Indemnity” as of the valuation date. In the case of subsequent reports and correction reports, the totals shown must be the revised totals for all of the claims for the policy and not just the sum of the loss records being revised or added in the correction report.

4. Incurred Medical Amount Total

Report the sum of the amounts reported for “Incurred Medical” as of the valuation date. In the case of subsequent reports and correction reports, the totals shown must be the revised totals for all of the claims for the policy and not just the sum of the loss records being revised or added in the correction report.

Section VII – Subsequent Reports, Correction Reports, and Reporting Methods**1. Subsequent Reports**

In order to reflect changes in loss records subsequent to the valuation date of the first report because of developments in the nature of the claims and departmental or judicial decisions, losses must be revalued, and subsequent reports filed, in accordance with Section I, *General Instructions*, Rule 2, *Date of Valuation*, and Rule 3, *Date of Reporting*. A subsequent (second through tenth) revaluation must be filed when one or more claims meet any of the following conditions as of the scheduled date of the valuation:

- a. previously reported as open at the most recent prior report level valuation,
- b. incurred but not reported at the most recent prior report level valuation,
- c. previously reported as closed at any prior report level valuation, but are now open, or
- d. previously reported as closed at any prior report level valuation, but have been subsequently reopened and reclosed with the incurred indemnity and/or incurred medical amounts different from the last reported amounts.

The revaluation shall include a reporting of every claim described in a through d, above, in the same detail as set forth in Section V, *Loss Information*. Claims reported as closed on the earlier report level may be reported again on the revaluation. Second through tenth reports shall be identified by the appropriate

Part 4 – Unit Statistical Reporting Requirements

Section VII – Subsequent Reports, Correction Reports, and Reporting Methods

code in the “Report Level Code / Report Number” field (see Section III, *Link Data and Header Record Information*, Rule 3, *Report Level Code / Report Number*).

2. Correction Reports

a. Policy Information (Header) Corrections

- (1) Corrections or changes involving key data elements (“Report Level Code / Report Number”, “Correction Sequence Number”, “Insurer Code”, “Policy Number Identifier”, “Policy Effective Date”, “Exposure State Code”) are to be made through a Header (Correction Type Code “H”) correction by indicating all previous key data above.
- (2) Corrections or changes involving non-key data elements, such as “Policy Expiration or Cancellation Date”, “Estimated Audit Code”, etc., are also to be made using Header (Correction Type Code “H”) corrections; however, only the changed non-key data elements along with all key data elements shall be reported.

b. Exposure, Standard Classification, Experience Modification and Final Premium Corrections

- (1) Whenever exposure amounts, standard classification(s), experience modification(s), or the final premium previously reported is changed, a correction report must be submitted as soon as the revised figures are available.
- (2) A correction report must be filed if:
 - (a) a final audit has been made of estimated figures previously submitted to the WCIRB;
 - (b) a clerical error in the exposure or final premium has been discovered, either by the insurer or by the WCIRB;
 - (c) a change in the experience modification has been made;
 - (d) a revision in exposure has been made as a result of a test audit of a policyholder for which experience has been submitted; or
 - (e) any other adjustment affecting previously reported exposure, final premium or standard classification.
- (3) Corrections to exposure amounts, standard classifications, experience modifications, and final premium are to be made through an Exposure (Correction Type Code “E”) correction. Corrections only to the “Final Premium Total” field are to be made through a Total (Correction Type Code “T”) correction.

c. Loss Corrections

- (1) Subsequent to the first reporting, a loss correction, when required, must be filed between two valuation dates or within thirty (30) months after the final valuation of losses. Except for loss corrections due to mistake other than error of judgment, should a loss correction coincide with a normal valuation of losses, only the normal valuation of losses should be filed. If a loss correction is not required, losses shall be revalued, and subsequent reports filed, in accordance with Section I, *General Instructions*, Rule 2, *Date of Valuation*, and Rule 3, *Date of Reporting*.

Notwithstanding the foregoing, if an employer notified its insurer that a claim is non-compensable pursuant to California Labor Code Section 3761 and such claim is determined to be non-compensable by the Workers' Compensation Appeals Board, a loss correction shall be filed within ninety (90) days after final adjudication of the determination of non-compensability.

Part 4 – Unit Statistical Reporting Requirements**Section VII – Subsequent Reports, Correction Reports, and Reporting Methods**

- (2) A loss correction must be filed under the following circumstances:
- (a) A loss record detail was incorrectly reported through mistake other than error of judgment.
 - (b) One or more claims are non-compensable.
 - (c) The insurer has recovered in an action against a third party through subrogation or where a claim is determined to be partially fraudulent.
 - (d) A death claim has been compromised over the sole issue of the applicability of the workers' compensation laws of California, i.e., Compromised Death or "S" claim.
 - (e) A claim is determined to be a joint coverage claim.
 - (f) Exposure has been reassigned to another standard classification through the revision of an audit. A loss correction should be filed with the exposure correction, reassigning all claims to the appropriate standard classification.
 - (g) A clerical error in either the standard classification assignment or the type of injury assignment of a given claim, or a group of claims, has been discovered by the insurer.
 - (h) A clerical error in either the standard classification assignment or the type of injury assignment of a given claim has been discovered by the WCIRB.
- Under these circumstances, the insurer shall, when notified by the WCIRB, file a loss correction or make satisfactory explanation.
- (i) A correction is made in a standard classification assignment of a given claim, or a group of claims, as a result of a WCIRB test audit of a policyholder for which experience has been submitted.
- (3) Corrections to losses are to be made through a Loss (Correction Type Code "L") correction. Corrections only to loss totals are to be made through a Total (Correction Type Code "T") correction.

3. Reporting Methods

Exposure and loss records can be reported using either the "Previous/ Revised" method or the "Add/Change/Delete" method.

a. Previous/Revised Method

(1) Exposures and Losses

(a) Additions

To add a new exposure or loss, all required data elements are to be reported on a record with Update Type Code "R".

(b) Deletions

To eliminate exposure and loss information, all required data elements must be reported on a record with Update Type Code "P". The following key data elements are used for matching the record to existing data:

1. Exposure – "Classification Code", "Exposure Act / Exposure Coverage Code", "Exposure Amount" and "Rate Effective Date".
2. Loss – "Claim Number".

(c) Changes

To change an existing exposure or loss, all required data elements are to be reported on a set of two records – one with Update Type Code "P" and one with Update Type Code "R".

Part 4 – Unit Statistical Reporting Requirements**Section VII – Subsequent Reports, Correction Reports, and Reporting Methods**

The record with Update Type Code “P” must include the data previously reported, including the key data for matching described above. The record with Update Type Code “R” must include the revised data.

(2) Totals

The revised risk totals are required to be reported. The Exposure – Payroll Total should be the sum of all payroll for the policy, not just the sum of the revised payroll records. To the extent that exposure records are revised, report the revised Final Premium based on the latest exposure information of the entire policy. The Incurred Indemnity Amount Total and Incurred Medical Amount Total should be the sum of incurred indemnity and incurred medical amounts for all of the claims for the policy as of the reported report level, not just the sum of the loss records being revised or added.

b. Add/Change/Delete Method**(1) Exposure and Losses****(a) Additions**

To add a new exposure or loss, all required data elements are to be reported on a record with Update Type Code “A”.

(b) Deletions

To eliminate existing exposure and loss information, all required data elements must be reported on a record with Update Type Code “D”. The following key data elements will be used for matching the record to existing data:

1. Exposure – “Classification Code”, “Exposure Act / Exposure Coverage Code”, “Exposure Amount”, “Rate Effective Date”.
2. Loss – “Claim Number”.

(c) Changes

To change an existing exposure or loss, all required data elements are to be reported on a set of two records – one with Update Type Code “D” and one with Update Type Code “A”. The record with Update Type Code “D” must include the data previously reported, including the key data for matching described above. The record with Update Type Code “A” must include the revised data.

Alternatively, to change an existing loss, all required data elements may be reported on a single record with Update Type Code “C”. Update Type Code “C” can only be used to change the details of an individual claim. Changes to the Claim Number of an individual claim, grouped claims or exposure records must be made using Update Type Codes “D” and “A”, as described above.

(2) Totals

The revised risk totals are required to be reported. The Exposure – Payroll Total should be the sum of all payroll for the policy, not just the sum of the revised payroll records. To the extent that exposure records are revised, report the revised Final Premium based on the latest exposure information of the entire policy. The Incurred Indemnity Amount Total and Incurred Medical Amount Total should be the sum of incurred indemnity and incurred medical amounts for all of the claims for the policy as of the reported report level, not just the sum of the loss records being revised or added.

Injury Description Codes

A. Part of Body (Positions 1-2)

Code	Narrative Description
I. Head	
10. Multiple Head Injury	Any Combination of Below Parts
11. Skull	
12. Brain	
13. Ear(s)	Includes: Hearing, Inside Eardrum
14. Eye(s)	Includes: Optic Nerves, Vision, Eyelids
15. Nose	Includes: Nasal Passage, Sinus, Sense of Smell
16. Teeth	
17. Mouth	Includes: Lips, Tongue, Throat, Taste
18. Soft Tissue	
19. Facial Bones	Includes: Jaw
II. Neck	
20. Multiple Neck Injury	Any Combination of Below Parts
21. Vertebrae	Includes: Spinal Column Bone, "Cervical Segment"
22. Disc	Includes: Spinal Column Cartilage, "Cervical Segment"
23. Spinal Cord	Includes: Nerve Tissue, "Cervical Segment"
24. Larynx	Includes: Cartilage and Vocal Cords
25. Soft Tissue	Other Than Larynx or Trachea
26. Trachea	
III. Upper Extremities	
30. Multiple Upper Extremities	Any Combination of Below Parts, Excluding Hands and Wrists Combined

Appendix III

Injury Description Codes

Code	Narrative Description
31. Upper Arm	Humerus and Corresponding Muscles, Excluding Clavicle and Scapula
32. Elbow	Radial Head
33. Lower Arm	Forearm – Radius, Ulna and Corresponding Muscles
34. Wrist	Carpals and Corresponding Muscles
35. Hand	Metacarpals and Corresponding Muscles – Excluding Wrist or Fingers
36. Finger(s)	Other than Thumb and Corresponding Muscles
37. Thumb	
38. Shoulder(s)	Armpit, Rotator Cuff, Trapezius, Clavicle, Scapula
39. Wrist(s) and Hand(s)	
IV. Trunk	
40. Multiple Trunk	Any Combination of Below Parts
41. Upper Back Area	(Thoracic Area) Upper Back Muscles, Excluding Vertebrae, Disc, Spinal Cord
42. Lower Back Area	(Lumbar and Lumbo Sacral) Lower Back Muscles, Excluding Sacrum, Coccyx, Pelvis, Vertebrae, Disc, Spinal Cord
43. Disc	Spinal Column Cartilage Other Than Cervical Segment
44. Chest	Including Ribs, Sternum, Soft Tissue
45. Sacrum and Coccyx	Final Nine Vertebrae-Fused
46. Pelvis	
47. Spinal Cord	Nerve Tissue Other Than Cervical Segment
48. Internal Organs	Other Than Heart and Lungs
49. Heart	
60. Lungs	
61. Abdomen Including Groin	Excluding Injury to Internal Organs
62. Buttocks	Soft Tissue

Appendix III**Injury Description Codes**

Code	Narrative Description
63. Lumbar and/or Sacral Vertebrae (Vertebrae NOC Trunk)	Bone Portion of the Spinal Column
V. Lower Extremities	
50. Multiple Lower Extremities	Any Combination of Below Parts
51. Hip	
52. Upper Leg	Femur and Corresponding Muscles
53. Knee	Patella
54. Lower Leg	Tibia, Fibula and Corresponding Muscles
55. Ankle	Tarsals
56. Foot	Metatarsals, Heel, Achilles Tendon and Corresponding Muscles, Excluding Ankle or Toes
57. Toes	
58. Great Toe	
VI. Multiple Body Parts	
64. Artificial Appliance	Braces, etc.
65. Insufficient Info to Properly Identify — Unclassified	Insufficient Information to Identify Part Affected
66. No Physical Injury	Mental Disorder
90. Multiple Body Parts (Including Body Systems and Body Parts)	Applies When More Than One Major Body Part Has Been Affected, Such As an Arm and a Leg, and Multiple Internal Organs
91. Body Systems and Multiple Body Systems	Applies to the Functioning of an Entire Body System that Has Been Affected Without Specific Injury to Any Other Part, as in the Case of Poisoning, Corrosive Action, Inflammation, Affecting Internal Organs, Damage to Nerve Centers, etc. Does Not Apply When the Systemic Damage Results from an External Injury Affecting an External Part Such As a Back Injury Which Includes Damage to the Nerves of the Spinal Cord

Appendix III**Injury Description Codes****B. Nature of Injury (Positions 3-4)**

Code	Narrative Description
I. Specific Injury	
01. No Physical Injury	i.e., Glasses, Contact Lenses, Artificial Appliance, Replacement of Artificial Appliance
02. Amputation	Cut Off Extremity, Digit, Protruding Part of Body, Usually by Surgery, i.e., Leg, Arm
03. Angina Pectoris	Chest Pain
04. Burn	(Heat) Burns or Scald. The Effect of Contact with Hot Substances (Chemical) Burns. Tissue Damage Resulting from the Corrosive Action Chemicals, Fumes, etc. (Acids, Alkalies)
07. Concussion	Brain, Cerebral
10. Contusion	Bruise – Intact Skin Surface Hematoma
13. Crushing	To Grind, Pound or Break into Small Bits
16. Dislocation	Pinched Nerve, Slipped/Ruptured Disc, Herniated Disc, Sciatica, Complete Tear, HNP Subluxion, MD Dislocation
19. Electric Shock	Electrocution
22. Enucleation	Removal of Organ or Tumor
25. Foreign Body	
28. Fracture	Breaking of a Bone or Cartilage
30. Freezing	Frostbite and Other Effects of Exposure to Low Temperature
31. Hearing Loss or Impairment	Traumatic Only. A Separate Injury, Not the Sequelae of Another Injury
32. Heat Prostration	Heat Stroke, Sun Stroke, Heat Exhaustion, Heat Cramps and Other Effects of Environmental Heat. Does Not Include Sunburn
34. Hernia	The Abnormal Protrusion of an Organ or Part Through the Containing Wall of its Cavity

Appendix III**Injury Description Codes**

Code	Narrative Description
36. Infection	The Invasion of a Host by Organisms such as Bacteria, Fungi, Viruses, Mold, Protozoa or Insects, With or Without Manifest Disease
37. Inflammation	The Reaction of Tissue to Injury Characterized Clinically by Heat, Swelling, Redness and Pain
40. Laceration	Cuts, Scratches, Abrasions, Superficial Wounds, Cal-luses. Wound by Tearing
41. Myocardial Infarction	Heart Attack, Heart Conditions, Hypertension. The In-adequate Blood Flow to the Muscular Tissue of the Heart
42. Poisoning – General (Not OD or Cumulative Injury)	A Systemic Morbid Condition Resulting from the In-halation, Ingestion, or Skin Absorption of a Toxic Substance Affecting the Metabolic System, the Nerv-ous System, the Circulatory System, the Digestive System, the Respiratory System, the Excretory Sys-tem, the Musculoskeletal System, etc. Includes Chemical or Drug Poisoning, Metal Poisoning, Or-ganic Diseases, and Venomous Reptile and Insect Bites. Does NOT Include Effects of Radiation, Pneu-moconiosis, Corrosive Effects of Chemicals; Skin Surface Irritations, Speticemia or Infected Wounds
43. Puncture	A Hole Made by the Piercing of a Pointed Instrument
46. Rupture	
47. Severance	To Separate, Divide or Take Off
49. Sprain or Tear	Internal Derangement. A Trauma or Wrenching of a Joint, Producing Pain and Disability Depending Upon Degree of Injury to Ligaments
52. Strain or Tear	Internal Derangement. The Trauma to the Muscle or the Musculotendinous Unit from Violent Contraction or Excessive Forcible Stretch
53. Syncope	Swooning, Fainting, Passing Out, No Other Injury
54. Asphyxiation	Strangulation, Drowning
55. Vascular	Cerebrovascular and Other Conditions of Circulatory Systems, NOC. Excludes Heart and Hemorrhoids. In-cludes Strokes, Varicose Veins – Non Toxic
58. Vision Loss	
59. All Other Specific Injuries, NOC	

Appendix III

Injury Description Codes

Code	Narrative Description
II. Occupational Disease or Cumulative Injury	
60. Dust Disease, NOC	All other Pneumoconiosis
61. Asbestosis	Lung Disease. A Form of Pneumoconiosis, Resulting from Protracted Inhalation of Asbestos Particles
62. Black Lung	The Chronic Lung Disease or Pneumoconiosis Found in Coal Miners
63. Byssinosis	Pneumoconiosis of Cotton, Flax and Hemp Workers
64. Silicosis	Pneumoconiosis Resulting from Inhalation of Silica (Quartz) Dust
65. Respiratory Disorders	Gases, Fumes, Chemicals, etc.
66. Poisoning – Chemical (Other Than Metals)	Man-Made or Organic
67. Poisoning – Metal	Man-Made
68. Dermatitis	Rash, Skin or Tissue Inflammation Including Boils, etc. Generally Resulting from Direct Contact with Irritants or Sensitizing Chemicals Such As Drugs, Oils, Biologic Agents, Plants, Woods or Metals Which May Be in the Form of Solids, Pastes, Liquids or Vapors and Which May Be Contacted in the Pure State or in Compounds or in Combination with Other Materials. Does Not Include Skin Tissue Damage Resulting from Corrosive Action of Chemicals, Burns from Contact with Hot Substances, Effects of Exposure to Radiation, Effects of Exposure to Low Temperatures or Inflammation or Irritation Resulting from Friction or Impact
70. Radiation	All Forms of Damage to Tissue, Bones or Body Fluids Produced by Exposure to Radiation
71. All Other Occupational Disease Injury, NOC	
72. Loss of Hearing	
73. Contagious Disease	
74. Cancer	
76. VDT-Related Diseases	Video Display Terminal Diseases Other Than Carpal Tunnel Syndrome

Appendix III**Injury Description Codes**

Code	Narrative Description
77. Mental Stress	
78. Carpal Tunnel Syndrome	Soreness, Tenderness and Weakness of the Muscles of the Thumb Caused by Pressure on the Median Nerve at the Point at Which It Goes Through the Carpal Tunnel of the Wrist
79. Hepatitis Losses	
80. All Other Cumulative Injury, NOC	
83. COVID-19	Coronavirus disease 2019 (COVID-19) is a respiratory disease caused by a coronavirus
III. Multiple Injuries	
90. Multiple Physical Injuries Only	
91. Multiple Injuries Including Both Physical and Psychological	

C. Cause of Injury (Positions 5-6)

Code	Narrative Description
I. Burn or Scald – Heat or Cold Exposures – Contact With	
01. Chemicals	Includes Hydrochloric Acid, Sulfuric Acid, Battery Acid, Methanol, Antifreeze
02. Hot Objects or Substances	
03. Temperature Extremes	Non-Impact Injuries Resulting in a Burn Due to Hot or Cold Temperature Extremes. Includes Freezing or Frostbite
04. Fire or Flame	
05. Steam or Hot Fluids	
06. Dusts, Gases, Fumes or Vapors	Includes Inhalation of Carbon Dioxide, Carbon Monoxide, Propane, Methane, Silica (Quartz), Asbestos Dust and Smoke
07. Welding Operations	Includes Welder's Flash (Burns to Skin or Eyes as a Result of Exposure to Intense Light from Welding)

Appendix III

Injury Description Codes

Code	Narrative Description
08. Radiation	Includes Effects of Ionizing Radiation Found in X-rays, Microwaves, Nuclear Reactor Waste, and Radiating Substances and Equipment. Includes Non-ionizing Radiation Such as Sunburn
11. Cold Objects or Substances	
14. Abnormal Air Pressure	
84. Electrical Current	Includes Electric Shock, Electrocution and Lightning
09. Contact With, NOC	Not Otherwise Classified in Any Other Code. Includes Cleaning Agents and Fertilizers
II. Caught In, Under or Between	
10. Machine or Machinery	Running or Meshing Objects, a Moving and a Stationary Object, Two or More Moving Objects
12. Object Handled	Includes Medical Hospital Bed and Parts, Wheelchair, Clothespin Vise
20. Collapsing Materials (Slides of Earth)	Either Man-Made or Natural
13. Caught In, Under or Between, NOC	Not Otherwise Classified in Any Other Code
III. Cut, Puncture, Scrape Injured by	
15. Broken Glass	
16. Hand Tool, Utensils; Not Powered	Includes Needle, Pencil, Knife, Hammer, Saw, Axe, Screwdriver
17. Object Being Lifted or Handled	Includes Being Cut, Punctured or Scraped by a Person or Object Being Lifted or Handled
18. Powered Hand Tool, Appliance	Includes Drill, Grinder, Sander, Iron, Blender, Welding Tools, Nail Gun
19. Cut, Puncture, Scrape, NOC	Not Otherwise Classified in Any Other Code. Includes Power Actuated Tools
IV. Fall, Slip or Trip Injury	
25. From Different Level (Elevation)	Includes Collapsing Chairs, Falling from Piled Materials, Off Wall, Catwalk, Bridge
26. From Ladder or Scaffolding	

Appendix III

Injury Description Codes

Code	Narrative Description
27. From Liquid or Grease Spills	
28. Into Openings	Includes Mining Shafts, Excavations, Floor Openings, Elevator Shafts
29. On Same Level	
30. Slip, or Trip, Did Not Fall	Slip or Trip and Did Not Come in Contact with the Floor or Ground
32. On Ice or Snow	
33. On Stairs	
31. Fall, Slip or Trip, NOC	Not Otherwise Classified in Any Other Code. Includes Tripping Over Object, Slipping on Organic Material
V. Motor Vehicle	
40. Crash of Water Vehicle	
41. Crash of Rail Vehicle	
45. Collision or Sideswipe with Another Vehicle	Vehicle Collision, Both Vehicles in Motion
46. Collision with a Fixed Object	Collision Occurring with Standing Vehicle or Stationary Object
47. Crash of Airplane	
48. Vehicle Upset	Includes Overturned or Jackknifed
50. Motor Vehicle, NOC	Not Otherwise Classified in Any Other Code. Includes Injuries Due to Sudden Stop or Start, Being Thrown against Interior Parts of the Vehicle and Vehicle Contents Being Thrown against Occupants
VI. Strain or Injury by	
52. Continual Noise	Injury to Ears or Hearing Due to the Cumulative Effects of Constant or Repetitive Noise
53. Twisting	Free Bodily Motion That Imposes Stress or Strain on Some Part of Body. Includes Assumption of Unnatural Position, Involuntary Motions Induced by Sudden Noise, Fright or Loss of Balance
54. Jumping or Leaping	

Appendix III

Injury Description Codes

Code	Narrative Description
55. Holding or Carrying	Applies to Objects or People. Includes Restraining a Person
56. Lifting	Includes Objects or People
57. Pushing or Pulling	Includes Objects or People
58. Reaching	
59. Using Tool or Machinery	
61. Wielding or Throwing	Physical Effort or Overexertion from Attempts to Resist a Force Applied by an Object Being Handled
97. Repetitive Motion	Cumulative Injury or Condition Caused by Continual, Repeated Motions; Strain by Excessive Use. Includes Carpal Tunnel Syndrome
60. Strain or Injury by, NOC	Not Otherwise Classified in Any Other Code
VII. Striking Against or Stepping on	NOTE: Applies to Cases in Which the Injury Was Produced by the Impact Created by the Person, Rather than by the Source
65. Moving Part of Machine	
66. Object Being Lifted or Handled	
67. Sanding, Scraping, Cleaning Operation	Include Scratches or Abrasions Caused by Sanding, Scraping, Cleaning Operations
68. Stationary Object	
69. Stepping on Sharp Object	
70. Striking Against or Stepping on, NOC	Not Otherwise Classified in Any Other Code
VIII.Struck or Injured by	NOTE: Applies to Cases in Which the Injury Was Produced by the Impact Created by the Source of Injury, Rather than by the Injured Person
74. Fellow Workers, Patient or Other Person	Struck by Co-Worker, Either on Purpose or Accidentally. Includes Being Struck by a Patient While Lifting or Moving Them Not in Act of a Crime
75. Falling or Flying Object	
76. Hand Tool or Machine in Use	

Appendix III

Injury Description Codes

Code	Narrative Description
77. Motor Vehicle	Applies When a Person is Struck by a Motor Vehicle, Including Rail Vehicles, Water Vehicles, Airplanes
78. Moving Parts of Machine	
79. Object Being Lifted or Handled	Includes Dropping Object on Body Part
80. Object Handled by Others	Includes Another Person Dropping Object on Injured Person's Body Part
85. Animal or Insect	Includes Bite, Sting or Allergic Reaction
86. Explosion or Flare Back	Rapid Expansion, Outbreak, Bursting, or Upheaval. Includes Explosion of Cars, Bottles, Aerosol Cans, or Buildings. "Flare back" Involves Superheated Air and Combustible Gases at Temperatures Just Below the Ignition Temperature
81. Struck or Injured, NOC	Not Otherwise Classified in Any Other Code. Includes Kicked, Stabbed, Bitten
IX. Rubbed or Abraded by	
94. Repetitive Motion	Caused by Repeated Rubbing or Abrading; Applies to Non-Impact Cases in Which the Injury Was Produced by Pressure, Vibration or Friction between the Person and the Source of Injury. Includes Callos, Blister
95. Rubbed or Abraded, NOC	Not Otherwise Classified in Any Other Code. Includes Foreign Body in Ears
X. Miscellaneous Causes	
82. Absorption, Ingestion or Inhalation, NOC	Not Otherwise Classified in Any Other Code. Applies Only to Non-Impact Cases in Which the Injury Resulted from Inhalation, Absorption (Skin Contact), or Ingestion of Harmful Substances
83. Pandemic	A disease outbreak affecting large populations or a whole region, country or continent
87. Foreign Matter (Body) in Eye(s)	Injury to Eyes Resulting from Foreign Matter That is Not Otherwise Classified in Any Other Code
88. Natural Disasters	Injury Resulting from Natural Disaster. Includes Hurricane, Earthquake, Tornado, Flood, Forest Fire

Appendix III**Injury Description Codes**

Code	Narrative Description
89. Person in Act of a Crime	Specific Injury, Other than Gunshot, Caused as a Result of Contact between Injured Person and Another Person in the Act of Committing a Crime. Includes Robbery or Criminal Assault
90. Other than Physical Cause of Injury	Stress, Shock, or Psychological Trauma That Develops in Relation to a Specific Incident or Cumulative Exposure to Conditions
91. Mold	Includes Mildew
93. Gunshot	Injury Is Caused by the Discharge of a Firearm. Includes Instances Where Injury Arises from Being Struck by the Fired Projectile, Burned by Muzzle Blast or Deafened by Report of Gunshot
