WCIRB Inquiry®
through the *AnalyticsPortal*

WCIRB Inquiry grants subscribed insurers access to detailed classification experience, medical transaction, and aggregate financial data reported to the WCIRB. Through predefined reports, ad hoc querying, and large data downloads, insurers can benchmark their own company data to statewide data by several claims and policy characteristics and with various benchmarking capabilities.

NEW Features Now Available in WCIRB Inquiry for 2023

Homepage

A more intuitive homepage enabling quick and convenient access to commonly used tools and reports

On-Leveling

On-Leveled Developed Losses in the USR Loss and Exposure package

COVID-19

Filter out or separate COVID-19 claim experience from other experience

Diagonal Filters

Filter to include only the latest diagonal of USR data, or the latest diagonal of Final USR data

Geolocation

More accurate policy-level geographic information for all USR data packages
